# LEADING THE WAY FROM DAY ONE...

Meeting West Coast needs through West Coast production.

## Cougar's Enclosed Heated Underbelly

With its streamlined profile, radius corners, and enclosed underbelly, Cougar's aerodynamic exterior design substantially reduces air turbulence, increasing stability and mileage during travel.

**WEST COAST PRODUCTION**

Cougar has strategically produced travel trailers and fifth wheels out west in Oregon, which means high quality 1/2 Ton Series are built specifically for west coast customers by west coast production workers.

**BIKE/STORAGE RACK & HARDWOOD  
CHERRY CABINET DOORS**

Another Cougar first: The rear storage rack provides a quick slide-away storage alternative. (N/A on certain floorplans)

With the new "Cougar Cherry" cabinet doors we were the first in our class to use true select grade cherry wood on all our doors and drawers.

**HITCH VISION DOCKING LIGHTS**

Hitch Vision gives the fifth wheel user complete confidence to back up and align their truck to Cougar's extended hitch pin using only the built-in mirror for guidance. Dual automotive LED docking lights, which can be controlled by the E-Z Camp Cougar Remote, allow you to load or unload camping gear day or night.
