2013 KING AIRE

Luxury Motor Coach

Impressive. Inviting. Incomparable. Those are just a few of the words that barely do justice to the experience of stepping into the top-of-the-line abundance of the 2013 King Aire. Waiting behind the dazzling multi-coat Masterpiece™ Finish, a Newmar touchstone, is a world of inviting amenities. It's a degree of warmth, livability and style that rivals any contemporary home, sleekly matching unparalleled craftsmanship and attention to detail with the ultimate in power and handling, thanks to a commanding 600HP diesel engine and custom-built Spartan® K3 chassis.

Let Newmar introduce you to the newest standard in road royalty for life's highway. It's good to be the king.

Taking control has never been this comfortable.

Settle into the Villa Furniture seats in King Aire's master cabin and you enter a new realm of convenience and comfort. As you sit behind the most user friendly control console in the industry, the one-piece bonded windshield gives you a commanding view with outstanding sightlines. Getting there has never been easier, with Nav-N-Go® GPS and Newmar's unique Comfort Drive™ Steering among the driver assistance features that make every journey a smooth one. For added peace of mind, optional Safety Cruise monitors the road to help maintain safe distances with vehicles ahead, even in fog and mist.

With King Aire, Newmar puts you behind the wheel of 600HP of diesel adrenaline from Cummins®, more than enough power to take the next hill with graceful ease. It's part of a hefty powertrain that also boasts an Allison® 4000 MH transmission, with reliable electrical service from a Cummins Onan® Quiet Diesel™ Generator. All nestled within the durable embrace of a Spartan® K3 Chassis with 20,000 lb. Independent Front Suspension. Happy trails, indeed.

Convenience at every turn.

With King Aire, the smallest details lead to the most pleasant surprises. Like an exterior Sony® 40" HDTV that extends and pivots for the best viewing angle, all while delivering cinema grade 5.1 Surround Sound through optional integrated Bose® speakers. Or LED illumination conveniently positioned beneath power-assisted, enhanced-height storage compartments – to make truly light work of cargo. CONSTRUCTION & SPECIFICATIONS

The Spartan® K3's strong chassis with 20,000 lb. IFS (Independent Front Suspension) is the highest performing motor coach ever. Its tubular truss web frames and substructure beams form a foundation stable enough to allow extensive pass-through storage. This – and King Aire's GVWR of 54,000 pounds, with a 14,000 pound tag axle – allows King Aire to expand beyond its chassis footprint, creating extra living space. Its Cummins® ISX 600 HP engine gives you incredible maneuverability and power, even on steep inclines.
