## ***Go anywhere you want to!***

Palomino RV is proud to introduce an industry pacesetter first with the all NEW Traverse Camping Trailer. We feature world-class appointments such as Sunbrella® breathable bunkends, Line-X® coated roofs and fiberglass exterior surfaces. Our innovative self-storing bedpoles eliminate the need to find a storage place. Traverse is fully equipped with all the usual amenities you'll need while away from home. Yours even comes equipped with a hot water shower and heated mattress for those cool nights. Independent torsion suspension and electric brakes complete your package. You've got a winner with the new Traverse by Palomino. Go have fun!

# TRAVERSE » Interior Features

# See The Difference in Quality and Comfort

1. One-piece Congoleum® vinyl floors are attractive, durable and easy to clean and maintain.
2. The Dometic® 3-way (gas, 12v, 110v) refrigerator is standard equipment on Traverse and is larger than the competition. With an easy to clean black door upgrade and larger size, you will notice one more Traverse advantage.
3. No-spill swing level galleys are built in to Traverse galleys. They are easy to lift and operate and allow for items to be stored inside as they will remain in place when the galley is in motion.
4. Suburban® 20,000 BTU furnaces with 12v blower fans are standard equipment on Traverse and will keep you toasty warm on cool fall nights.
5. Easily accessible drawers on full extension drawer guides allow for additional storage options. Traverse uses full extension ball bearing drawer guides that do not require an awkward lifting motion to open.
6. Suburban® 2 or 3 burner cooktops depending on the floor plan are standard equipment. Covers and windscreens are also standard and provide for extra prep space when not using the burners.
7. 5-piece sectionalized marine grade tenting is strong, durable and easy to clean and maintain. All tents are designed, cut and sewn in-house and allow for a perfect fit every time.
8. Slide gauchos with 4" cushions easily convert into extra sleeping surfaces and provide storage below.
9. 4" heated mattresses with quilted tops keep you cozy on those cool fall nights. High quality hypoallergenic polyester fiber mattresses are comfortable and quiet with no hard metal springs.
10. Bunk ends with Sunbrella 302® are breathable and stay fresh. It will not trap heat or moisture that leaves a musty odor. Sunbrella 302® will not fade, mildew or rot like cotton or canvas tenting.
11. Vented bed end curtains and solid fabric window curtains are standard features on Traverse and provide privacy when it is time to unwind and head for bed.
12. Bunk light/fan combos ensure proper reading light and air circulation for a comfortable night's sleep.
13. Create-A-Breeze™ fans by Fantastic Vent® are standard equipment on Traverse and will help keep you cool and comfortable.
14. Quality hi-pressure laminate Formica tables are designed with free standing legs and can be used inside or outside under the A&E awning.
15. 4" dinette cushions are designed to stay in place. They are easily lifted off to provide easy access to the wide open storage below.
16. Every Traverse camping trailer is designed to maximize storage. Storage is easily accessible through the large cabinet doors and smooth operating drawers. Storage access is also available through the dinette tops for larger items.
17. AM/FM/CD/MP3 players are standard on Traverse and include two interior and two exterior speakers. Audio inputs allow you to easily connect your iPod, iPhone, Droid or other audio device.
18. Clear windows with screens made of the finest mesh netting available allow for unobstructed views and natural light to come in.
19. One-piece screen doors with adjustable windows allow fresh air in. Doors are also mounted with a spring to pull them closed.
20. Large hi-pressure laminate counter tops are durable and easy to clean.

# TRAVERSE » Exterior Features

# See The Difference

1. 2,000 lbs. high quality tongue jack with dolly wheel allows for easy leveling and maneuvering on hard surfaces.
2. No cranking required here! Electric lift motors by Carefree of Colorado® make set up a breeze and come with a manual over-ride. Just push a button to raise or lower the roof.
3. B.A.L.® stabilizer jacks come complete with round sand pads and are mounted at the corners for easy operation.
4. Exterior storage boxes on the Acadia and Sequoia are molded plastic and slide out either side. This allows for access to the storage box when the beds are open.
5. Laminated filon fiberglass walls in attractive grey color. Fiberglass walls resist dents and scratches compared to aluminum and are much easier to clean.
6. 13" steel belted radial tires are larger than the competition and allow for lower wheel speed. Lower wheel speed means less axle maintenance and longer tire life.
7. Outside marine grade speakers are standard equipment on the Traverse. Listen to the game or your favorite music outside under the A&E™ awning.
8. Outside grill mounting bracket and exterior LP gas hook-up make grilling outside easy. Traverse offers Blue Rhino grills as standard equipment.
9. Diamond plate front walls and lower side walls add to the rugged look and help protect your investment for years to come.
10. Self storing bed support poles attach to the bottom side of the bed and slide in and out with the bed assembly. The easy to use Backsaver bed systems means easier set up with no bending or stopping to put support poles in place.
11. Omnova® high grade marine vinyl tenting is strong, durable and easy to clean and maintain. It is waterproof and used in all areas of the tent system that requires extra strength.
12. The Traverse line of camping trailers has an industry leading roof structure that is completely sealed and coated with Line-X®. Line-X® protective coatings are the leading manufacturer spray in truck bed liners and protective coatings for the agricultural, heavy equipment and automotive industries.
13. One piece screen doors allow for quick and easy set up. They are spring loaded to close behind you and offer sliding panels to adjust airflow.
14. Sunbrella 302® tenting in the bunk ends is breathable and will not trap heat and moisture inside. Sunbrella 302® will not fade, mildew or rot like cotton or canvas tenting commonly used in the industry.
15. Traverse tent systems are designed with our 3 flap bunk closure system. The first flap is the exterior rain flap that allows for rain run off. The second flap seals under the bunk system to create a tight seal and the third flap, the child safety flap, attaches under the mattress to ensure a safe comfortable night's sleep.
16. Laminated bunk ends are strong, durable and light weight. They will not warp like plywood and will not expand like chipboard when wet. Our laminated beds have foam insulation inside to keep you warm on cool nights.

Services include:

- ✓ Emergency Roadside Assistance
- ✓ Mobile Mechanic Service
- ✓ Trip Interruption Reimbursement
- ✓ Custom Trip Routing & Color Maps
- ✓ Nationwide Service Appointments

## MORE STANDARD FEATURES

Traverse has more standard features than anyone else! Take a moment to look over the Traverse and you will quickly see all of the built-in features from Line-X® coated roofs and smooth fiberglass exterior walls to swing level galleys and quilted heated mattresses. The built-in Traverse features are designed to make your trips comfortable and relaxing.

## LESS MAINTENANCE

At Palomino we want your time to be spent enjoying and creating memories with your family. That is why we use top quality materials from top tier suppliers. We incorporate advanced production techniques and quality control tests to ensure you spend more time traveling and enjoying your investment.

## TOP QUALITY BRAND NAME COMPONENTS

We only use top quality brand name components on Traverse for dependable, long lasting quality. From Omnova® and Sunbrella® tenting to LCI® engineered frames and AL-KO torsion axles you will see why Traverse has earned a reputation for reliability. We are proud of the name we have built over the years at Palomino and that is why we choose to use suppliers that value their reputation as much as we do.

Traverse by Palomino uses quality components by the following companies:

### **TRAVERSE = ENGINEERING EXCELLENCE**

- A.** Molded A.B.S. storage trunks are mounted on a slide system and allow access to the trunk storage when the beds are open.
- B.** Water tanks are mounted under the floor and not inside the cabinets to allow for more interior storage.
- C.** Outside speakers, 110v exterior outlet and exterior grill bracket are standard features on Traverse.

### **TRAVERSE = EXCEPTIONAL VALUE**

- D.** Laminated bunks boards create an added barrier between you and the elements and are rated for 1,000 lbs each.
- E.** Three stage heated mattresses come with quilted tops for a restful night's sleep.
- F.** Swing level galleys with hot and cold running water (Ex. Rainier & Glacier Bay).

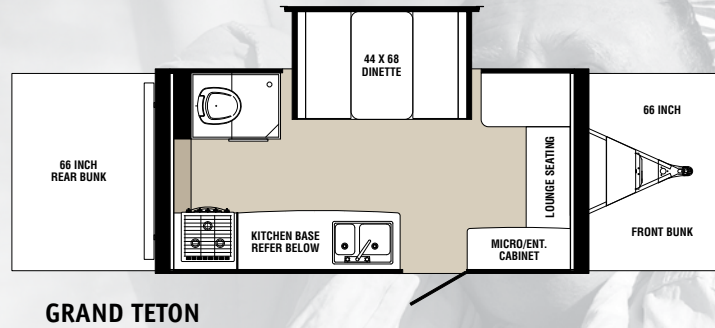

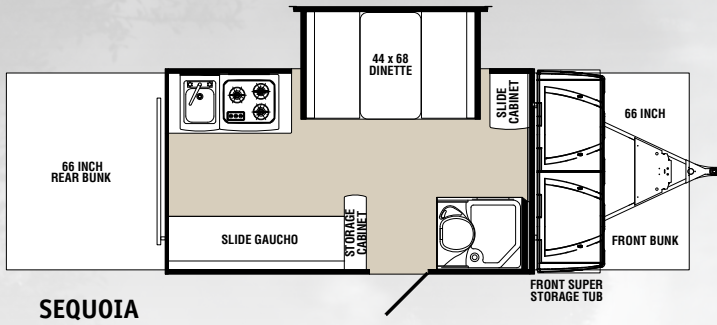

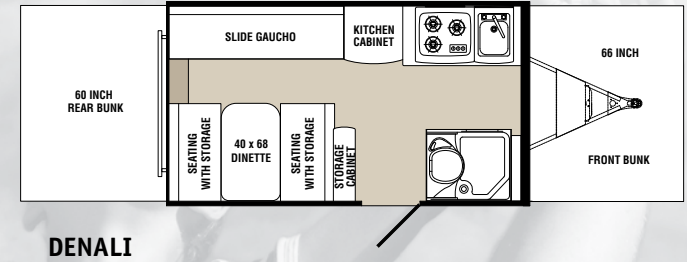

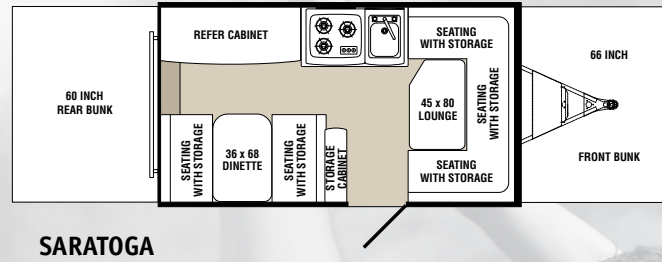

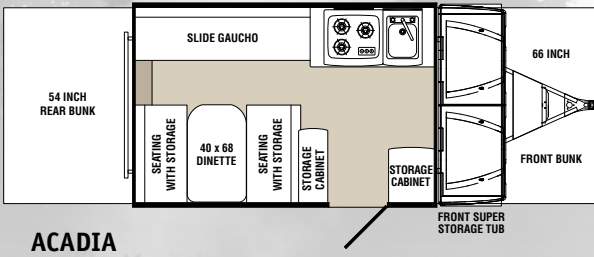

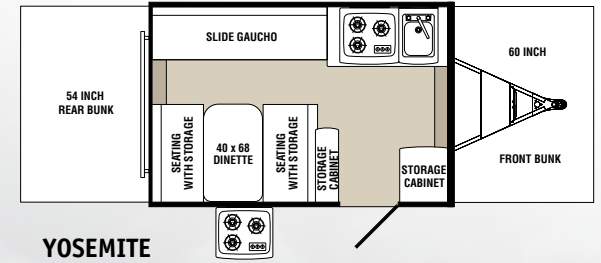

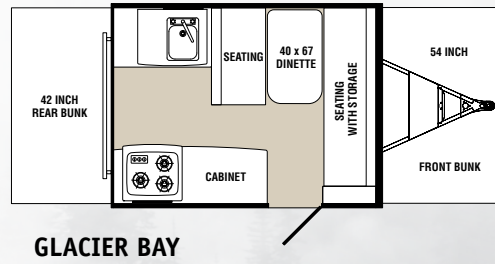

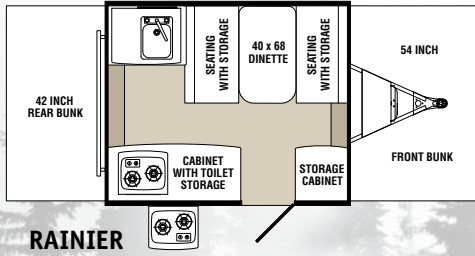

### **TRAVERSE = EASE OF SET-UP**

- G.** Three-way refrigerator, which runs on propane, electric or battery is larger than the competition.
- H.** Easy to store, one-piece entry door with spring assist (N/A Rainier).
- I.** Permanently attached bunk end support poles slide in and out with the bunks and attach with ease.

Palomino Folding Trailers are designed to meet the varied needs of the customer. It is the responsibility of the owner to select the proper load combination for their individual needs without exceeding the listed axle weight capacities.

**Forest River, Inc. encourages our customers to purchase their Forest River products from a local dealership whenever possible for the following reasons:**

- 1) Forest River, Inc. dealers are independently owned and operated businesses so priority service and scheduling is at their discretion and is often provided to customers that purchased their unit at that dealership.
- 2) Purchasing locally allows customers to establish meaningful relationships with a dealer, enhancing the RV experience through assistance with product questions, user tips or RV regulations for your state or country, and much more!
- 3) Canadian customers must meet requirements to bring an RV purchased out of the country to their home. These requirements may involve additional inspections and certifications, taxes and fees. Your local Canadian Dealer is a professional at meeting these requirements.
- 4) Scheduling timely warranty repairs and adjustments through a local dealership provides far greater flexibility and convenience to you, the customer!

It is the goal of Forest River, Inc. that all of our RV owners fully enjoy the RV experience and that customer satisfaction meets or exceeds their expectations!

**PRE-DELIVERY INSPECTION FACILITY**

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.
