## NEW FROM THE GROUND UP!

### The Nash DLX

A good idea is always a good idea. Ron Nash broke into the RV business with his no-nonsense Northwest Rugged "Pretty One in Work Boots"...The Nash Travel Trailer, and that idea took off like wildfire. The Nash DLX remains true to its roots as an affordable, well-made trailer that will last for years; a durable RV you can take off-road and be used in any season. The concept is sensible and simple. We build RVs how YOU like them. It was a good idea 20 years ago and it's a good idea today!

The Nash DLX is equipped to not only meet the needs of the introductory RV buyer, but also offers amazing features not found on other entry level RVs. The Nash has always been known for rugged off-

road durability but never before has it come so fully equipped and so reasonably priced. This new Nash is loaded with standard features:

- ✓ Equaflex Suspension
  - ✓ Certified Off-Road Chassis
  - ✓ TG Plywood Floor and Roof Deck
  - ✓ Multi Layered Fiberglass Wall
- ...and standard amenities such as:
- ✓ 12 Volt Power Awning
  - ✓ Rear Receiver Hitch
  - ✓ 10 Gal. Water Heater
  - ✓ Generator Ready

That's correct - you can have an optional generator on any Nash DLX model. If you are concerned about being fully self-contained, the Nash DLX is your best answer! So, whether your idea of camping is an elk camp in winter or the campsite nearest the swimming pool at your favorite campground, you will feel equally at home in your new Nash DLX.

## ...AND ALL THESE FEATURES ARE STANDARD!

## Northwood Built: Heavy Duty Certified Structural Steel Off Road Chassis

### We Build Our Chassis!

Because there is so much riding on it, we build our own chassis. The RV chassis is comparable to the foundation of a home. Ask someone who has had their home settle if they think a solid foundation is important. Quality design combined with quality steel and quality welding results in a better chassis. That is why we certify Northwood chassis through an independent testing laboratory for quality assurance. This is one of the keys to our renowned strength and durability.

### Raising the Roof: A Reason to Celebrate

Using special construction jigs which allow us to use bow trusses, the Northwood ceiling improves upon industry application by adding adhesives to further bind the structure and by using snap batten track molding to ensure a ceiling that stays in place. The ceiling structure is constructed as a single unit and is raised to cap the entire RV in a single step.

## ...QUALITY & DURABILITY YOU CAN RELY ON!

### Glue Bonded Laminate Walls

Our wall studs are 16" on center select lumber (better than competitor's #2 grade). We use R7 fiberglass insulation which is hand tucked and secured. We apply a one-piece laminated exterior wall of corona treated fiberglass and double layers of lauan plywood. This wall forms an amazingly strong one piece

seamless panel. Industrial strength construction adhesives glue bonds the framing to triple layered exterior siding. This provides the "Absolute strength" of the Nash sidewall.

### Residential Quality Face Frame Cabinetry

### A True 4 Season Coach

Solid Wood Cabinet doors ensure lasting beauty and rugged strength.

Face Frame construction gives our cabinets "high end" residential quality.

Structurally Integrated cabinetry is anchored to the walls and ceiling structure of our coaches making both the RV and the cabinets stronger.

R-7 Fiberglass in Walls & Floor  
R-14 Fiberglass in the Roof  
R-15 Reflective Foil - Ceiling & Floor  
Heated & Enclosed Tanks  
Heated & Enclosed Valves

Hello Ron and Sherry Nash,

My husband and I have just returned from a three week tour of the Grand Teton, Yellowstone, and Glacier National Parks—in our brand new Nash 17K. We wanted to share some of our photos and some of our story.

This was the longest trip we have taken in a recreational vehicle. Though we have owned larger RV's in the past, mostly motorized Class A and C motorhomes, we have never been on the road this many consecutive nights and days. Our most recent RV was a deluxe tent trailer and we knew it would be an inadequate way to travel this far, this long, and this old.

We decided to look into a small travel trailer we could tow with our Toyota Tundra. Fully expecting to purchase something used, we decided to give our local business a first look: The owner let us go scouting his inventory of new and used trailers. Once in his yard, we spotted three new trailers that were somehow “different”: different color, different shape, and different size. All these features were attractive.

He had three models of Nash on his lot. After going in and out of all three models about fifty times each, we told him we would take this small, compact 17K. Apparently your new Nash designs had not been on the lot for more than a few days, and he was embarrassed to say that he really did not have all the info on them—but he would get it.

One week later, our Nash was parked on our property and ready to be packed for a one night trial before we got busy on our serious trip. All systems worked perfectly in our remote, rustic campsite outside Quemado, NM—and they continued to surpass our expectations for capability, reliability, and easability. We are 100% satisfied customers! We would be happy to answer any questions other potential buyers might ask.

We appreciate your attention to detail and superior quality, and we love our Northwood Owner's Calendar.

Sincerely,

Steve and Jealyn White  
Silver City, New Mexico

# NASH

While owning the Nash, we were able to make a number of suggestions to Ron Nash and Matt Turley about design considerations on our trailer and for future product upgrades. I was impressed to see a number of those suggestions implemented in newer models. Ron always had an ear for us and he would greet us 'Hi Linda and Dave', with a cup of coffee. I feel very good about the team Ron has assembled and the way they are moving the company forward. I am proud to say that we may have been the first owners of a Nash with heated and enclosed holding tanks because of our hunting camp use. This 4-Season feature soon became standard on all Nash products.

We have been 'trailing' for over 45 years and the Nash was our **8th trailer**, so we are not new to the RV industry.

It has really been fun watching Northwood develop and having a part in some of the changes. Thanks for a great product and wonderful, personal service, Northwood!"

Linda and Dave Wiley, Sublimity, Oregon

We have owned both Nash and Arctic Fox products from Northwood.

In 1996 we bought our first Northwood product, the Nash 26J and we used it for 6 years. We did a lot of traveling in the Nash. We then decided to move to a slide-out model and got our 25R Fox. In 10 years of use, our 25R Fox has followed our 4x4 Dodge wherever we have gone, on and off the pavement. It has aged better than we have!

We love to boondock, so we seldom go into RV parks except for rallies and visiting relatives. We do a lot of volunteer work with Rocky Mountain Elk, Oregon Hunters and work on projects with the Forest Service and Fish and Wildlife, so we mostly camp in remote sites.

We first met Ron and Sherry Nash at the Eugene RV Show back in 1993 where they were showing their new products. We also met them a few times at the Portland RV shows. When they came out with the 26J in 1996, we bought one.

Our first Northwood product was a 2002 Nash 29V and we pretty much ran the tires off of it.

The service people here at Northwood have been excellent, they have saved me a great deal of time and Northwood is probably the best manufacturer I have ever dealt with.

The fit and finish in the Nash is 'all there!' I can't

give high enough praise for the product and the backing the company gives you.

Dave Thomas  
Eugene, Oregon

Insulated wheel wells on non-slide models  
Mud flaps  
Molded ABS LPG tank cover  
Fiberglass entry door with radius top corners  
Screen door with kick panel  
Rain gutters with oversized down spouts  
Diamond plate front gravel guard  
Radius cornered windows with screens  
Dual battery rack welded into A-frame  
Park cable TV hook-up with RG6 cable  
Digital TV antenna w/signal booster  
Roof-mount antenna for radio  
Hook-up for satellite TV reception  
12 volt power awning  
Custom gray fiberglass exterior  
Exterior shower

### Standard Safety Features

Dual safety chains on A-frame  
Break-away switch  
GFCI circuit protection  
Smoke alarm  
LPG leak detector  
Carbon monoxide detector  
Fire extinguisher  
Dead bolt lock on entry door  
Egress windows (for emergency escape)

### Standard Bathroom Features

Marine toilet  
Shower surround  
Shower curtain with curved track  
Additional décor shower curtain  
Skylight above tub/shower  
Exhaust fan  
Wall mounted light switch  
Large bathroom sink  
Medicine cabinet with mirror  
Towel bar  
Towel ring  
Toilet paper holder  
Electrical outlet with GFCI circuit protection

### Standard Bedroom Features

Bedroom roof vent  
Quilted bedspread with reverse sham  
Designer headboard  
Camping clothes storage  
Below-bed storage with gas strut assist  
Night stand top and drawer  
Reading lights  
Mini blind privacy shades  
Electrical outlets  
Inner spring mattress  
Designer privacy curtain  
TV mount pre-block w/ hook-ups

### Standard Heat, Power, and Water Equipment

12V electrical system with deluxe 110V 45-amp power converter  
30 amp park power cord - 30 feet  
Auto-ignition furnace with wall thermostat  
In-floor heat ducting  
In-ceiling A/C ducting  
120V GFCI circuit protected exterior patio outlet  
12V demand water pump system  
Hook-up for city water  
10-gal gas water heater  
Two (2) 30 lbs. propane gas tanks with regulator  
ABS holding tanks  
Systems monitor panel  
Water system winterization kit  
Water heater by-pass  
Black tank flush

### Standard Kitchen Features

Nash signature key holder  
3-burner cook top with one 9,000 BTU burner  
Large oven  
Range hood with light and exhaust fan  
Back splash protection behind cook top  
Double door gas/electric refrigerator (most models)  
Designer refrigerator door panel inserts  
Acrylic residential-style sink  
High profile galley faucet  
Sink cover / cutting board  
Large drawers in galley cabinet  
Galley overhead storage cabinets  
Ventilating window at galley sink  
Large picture window at dinette  
Large dinette table  
Access to dinette booth storage  
Reversible dinette cushions  
Laminated countertops  
Microwave oven with carousel

### Options

Exterior marine grade stereo speakers  
Stereo/AM/FM/CD with DVD  
Heated and enclosed holding tanks  
Stabilizer jacks - front and rear  
Sit -N- Sleep sofa sleeper  
Air conditioner  
Range cover  
Generator  
Cargo rack  
Bike rack  
LCD TV

MORE ABOUT NASH

*Thank you*

Ron and Sherry Nash

When you've been in the RV industry for nearly 1/2 a century, you've seen it all, and one thing never changes, quality sells and re-sells.

We started Northwood in 1993, building the best quality RV for the best price. That principle has never changed and we are absolutely committed to maintaining our reputation for quality in the RV industry.
