REDWOODRV.COM

PLUSH, ELEGANT, HOME

Our story is simple: Redwood was created in 2010 for the sole purpose of providing the exploding Baby Boomer market with a high-quality, full-time residential Fifth Wheel at an affordable price. We listened to the customer and the result has been a game-changing Fifth Wheel that leads the industry in quality, innovation and value for the money.

MADE FOR YOU

IT WAS CLEAR FROM THE START THAT BABY BOOMERS WOULD LARGELY DICTATE THE DESIGN AND CONSTRUCTION OF REDWOOD'S FIFTH WHEEL. THE SAME SENSIBILITY WAS AT WORK IN THE INTERIOR. BEAUTIFUL BALANCE AND ELEGANT COMFORT ARE YOURS.

REDWOOD INTERIORS ARE A SHOWCASE FOR LUXURY RV LIVING. THEY'RE DESIGNED TO FLOW SEAMLESSLY, QUIETLY AND BEAUTIFULLY TOGETHER—FROM LIVING ROOM, DINING ROOM, KITCHEN, BEDROOM AND BATH. IT ALL COMES TOGETHER IN A REDWOOD VEHICLE.

IT JUST MAKES SENSE

RVERS AND BABY BOOMERS ARE CREATING A NEW WAY OF LIVING.
THEY ARE LOOKING FOR MORE FROM ACOMPANY THAN JUST A PRODUCT OR A SERVICE.
THEY WANT THE EXPERIENCE TO SATISFY ALL OF THEIR SENSES.

WE START WITH A FIT FOUNDATION

FALCON INTEGRATED TECHNOLOGY (FIT) MAKES EVERYTHING EASIER. ONE SINGLE POINT OF CONTACT MAKES IT EASIER FOR OWNERS TO UNDERSTAND AND EASIER FOR SERVICING DEALERS TO GET ANSWERS AND SOLUTIONS. COMPETITORS USE A PATCHWORK OF SUPPLIERS FOR THEIR COACH'S FOUNDATION (SEE CHART BELOW) MAKING TROUBLESHOOTING, WELL, TROUBLESOME! SIMPLIFY YOUR NEXT RV ADVENTURE WITH A CUSTOM FIT FOUNDATION FROM REDWOOD RV.

STANDARD PIN BOX DESIGN

FIT foundations come standard with the Trail Air™ Rota-Flex pivoting head pin boxes. Rota-Flex utilizes a rubberized compound which absorbs fore to aft motion, a.k.a. "chucking," between the tow vehicle and Fifth Wheel to give you an overall improved ride.

OPTIONAL AIR RIDE HITCH

Optional Trail Air Pin Box is the first air spring system to both reduce chucking and control vertical push/pull movement. When the coach is in neutral position, the lower jaw always sits at its lowest point. As the hitch encounters road vibrations, the system lifts the coach.

SIX LEVELING JACKS NOT FOUR

No more boards or blocks to get your coach level. Every coach comes std with a Falcon Level Up System. *No more boards or blocks to get your coach level. Every coach comes std with a Falcon Level Up System.*

FALCON BRAND QUADSTEPS

The Falcon Quad Radius Step is simply a better step. More logically laid out than its competitor's, the Falcon radius step stores easier and is easier to use. *comes std with a Falcon Level Up System.*

FALCON BRAND AXLES

Falcon 7,000 pound capacity axles are built to last and offer many advantages over the competition:

- Self Adjusting Brakes improve stopping time up to 50% and lower maintenance costs.
- Powder-coated axle tubes protect against corrosion.

comes std with a Falcon Level.

FALCON AXLES (CONT.)

- Zinc plated mounting hardware prevents against rusting and corrosion improving service jobs.
- Waterproof 3M connectors in all brake wiring prevents corrosion at connection point.
- Integrated spindle/brake flange provides precise brake mounting and maximizes performance.

FALCON BRAND SUSPENSION

Your suspension should absorb road shock, not transfer it! This is why all FIT foundations are equipped standard with the Falcon-Flex rubberized suspension system. It provides owners a much smoother ride by virtually eliminating vibrations caused by road bumps.

WELDED HITCH RECEIVER

FIT's integrated hitch receiver can haul 3,000 pounds of additional cargo (300 lb. tongue capacity). *comes std with a Falcon Level Up System.*

FALCON HYDRAULIC SLIDE-OUT SYSTEMS

The standard for hydraulic slide-out systems, Falcon provides years of worry free operation and makes us distinct amongst the competition.

THE FALCON FRAME (ABOVE)

Every Falcon Frame utilizes the very best quality materials available:

- Powdercoated frame for protection.
- Heavy duty 12" I-Beam main rails.
- Drop section of chassis is 10" I-Beam.
