

Element

REIMAGINED DESIGN

- The ultra aerodynamic exterior of the Element is designed for improved fuel economy and straight tracking down the road
- Upscale amenities, such as Corian™ countertops, island kitchens and a 48" fiberglass shower/tub, make the Element appealing to the most discriminating buyer
- Seamless, vacuum bonded components have a heavy gauge DuraLite™ double-welded aluminum structure for added strength
- Frameless automotive style windows are crafted of tinted glass to provide energy efficiency and privacy
- Dual slide systems provide the interior space of travel trailers much larger and heavier
- The spread axle design system provides balanced stability for easy towing
