SLIDE-OUT SYSTEM

3-D View of Slide-Out
Cable System

10 Reasons Why... Accu-Slide

1. Above floor design means more storage area for your RV
2. Lightweight design promotes fuel savings
3. High strength stainless steel aircraft cable is used for control
4. Cable control at all 4 room corners helps stop leaks
5. Working components are in your RV, safe from the elements
6. Locking motor secures room in or out to help stop leaks
7. Above floor design minimizes maintenance requirements
8. A clean system - no leaky hydraulic lines or greasy drives
9. Smooth, quiet room movement - no jumping or jerking
10. It's built in the U.S.A. and backed by BAL since 1972

HEATING SYSTEM:

The Light product line has the most efficient heating system in the industry. The extra large 4" heat duct hose is placed right next to the fresh water tank. The suspended holding tanks are specifically designed to allow for heat to surround all sides adequately as it moves throughout the belly area. As the heat moves it reflects off of a "heat barrier" that is installed just behind the rear tank to keep the heat isolated to the tank area only. As the heat reflects, it moves its way forward where the heat naturally rises and then returns back into the camper through a return air vent. This system keeps the heat isolated, delivering as much heat to the tanks as possible while returning back into the camper for propane efficiency and maximum performance!

FIFTH WHEEL CONSTRUCTION

STANDARD FEATURES:

- EXT. UTILITY CENTER W/ BLACK TANK FLUSH
- LIPPERT EQUA-FLEX SUSPENSION
- 90° TURN RADIUS IN 5.5' BED (FW)
- STABILIZING SYSTEM
- GEL COATED FIBERGLASS WALLS
- 60 LBS OF LP CAPACITY
- 100" WIDE BODY FRAME
- PVC ROOF MATERIAL
- NITROGEN FILLED RADIAL TIRES
- 50 AMP SERVICE
- "KING COMBO" PIN BOX (FW)
- "MAXX AIR" VENT COVER
- 42" DEEP MAIN SLIDE
- WASHER/DRYER PREP (SELECT FLOORPLANS)

PURCHASE LOCALLY

Open Range RV strongly encourages our retail customers to purchase from their local dealership whenever possible due to the following reasons:

1) Our Dealers are, as a rule, independently owned and operated businesses. Outside of those customers they personally sold products to, they are not obligated to perform warranty service on Open Range RV products that were purchased elsewhere. There may be an occasion that the customer will be required to return to the point of purchase to satisfy warranty requirements.

2) Although many dealerships will eventually service products not purchased at their dealership, they will usually take care of their customers and other Open Range RV customers who are traveling away from their local dealer as a priority.

3) Local purchases allow a customer to establish a relationship with a dealer close to home. This relationship provides the customer with a convenient location for service and support from a "local" professional.

4) The opportunity for a thorough PDI (Pre Delivery Inspection) and product orientation is an additional benefit of buying from a local dealer. The opportunity for refresher courses or the ability to get questions answered more promptly is another additional benefit of buying from a local dealer.

5) For our Canadian customers, there are also requirements which must be met to bring an RV purchased out of the country to their home. Although not impossible, these requirements may involve such things as additional inspections, certifications, taxes and fees. The local Canadian Dealer is a professional at meeting these requirements.

6) Open Range's goal is for all RV Owners to fully enjoy their RV experience. In light of this goal, and considering the advantages of buying locally, we encourage you to be thorough when determining what product to purchase and which dealer to purchase it from as both are key to your ultimate satisfaction.
