

ONE

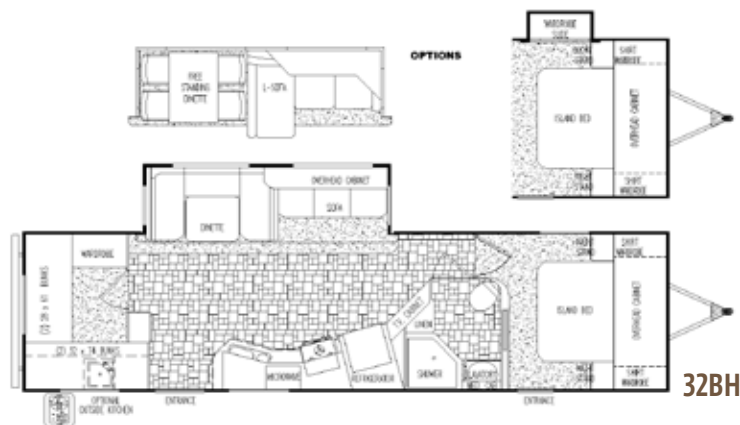

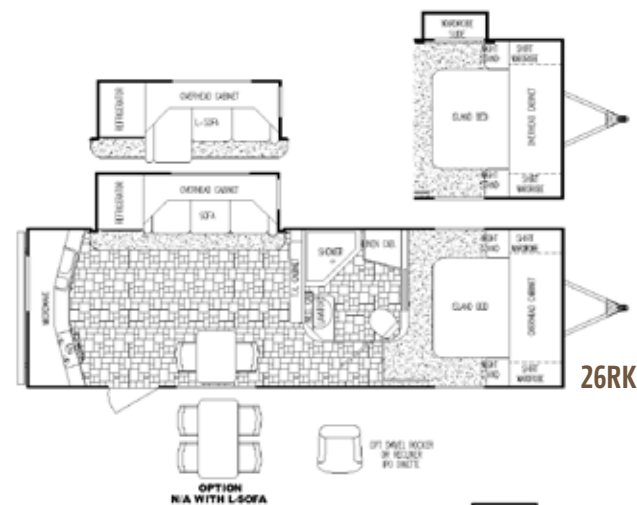

Champagne Anyone?

The Winnebago® ONE® looks great behind any vehicle and is easy to tow with its all-aluminum superstructure and new champagne-colored high-gloss gel coat fiberglass. No detail has been overlooked, down to the color-matched rubber roof and painted wrap-around fiberglass front cap. Optional frameless windows and power awning with built in LED lights complete the ONE's new look. Discerning customers will appreciate the

luxury features inside as well. Each layout includes a master suite with a pocket door entry to the large all-in-one bathroom with a linen closet. Large windows in the living area coupled with radius ceilings and efficient LEDs give the interior a wide-open feel. A spacious galley with optional solid surface countertops and plentiful storage, round out the interior and remind us that there can be only one... the Winnebago ONE!
