experience comfort

WALL-TO-WALL FEATURES

Thanks to innovative floorplans, expandable sleeping areas and hardwall slideouts, Jay Feather maximizes space so you won't have to sacrifice amenities. Equipped with wall-to-wall features, this leading lightweight is big on comfort.

LEARN MORE ABOUT OUR 2-YEAR LIMITED WARRANTY ON THE BACK COVER.

CAMPING EXPERIENCE

experience craftsmanship

Say hello to the industry's strongest roof — the Magnum Truss Roof System. In a side-by-side comparison test, our exclusive roof system withstood 4,500 lbs. — 50 percent more than other roofs. See page 8 to learn more about the top-quality materials we use in Jay Feather's roof.

experience towability

THE INDUSTRY'S LEADING LIGHTWEIGHT

Boasting travel-friendly lengths, Jay Feather is towable by most SUVs, minivans and crossovers.* Complete with independent rubberized suspension and E-Z Lube axles, this legendary lightweight is a breeze to tow.

* Consult with your authorized automobile manufacturer or vehicle owner's manual; some models require a tow package.

light AS A FEATHER

THE ALL-NEW 2014 JAY FEATHER SLX isn't just lightweight. It's our lightest Jay Feather yet. Weighing in under 3,275 pounds, Jay Feather SLX loads up on must-have features in a space-saving design that is towable by most minivans and crossovers.*

* Consult with your authorized automobile manufacturer or vehicle owner's manual; some models require a tow package.

expand ON COMFORT

THE 2014 JAY FEATHER is brimming with high-end features — so many, in fact, most of the 2014 Jay Feather lineup is now expandable. Effortless tent setup, room-making slideouts and select model bunk beds create the space your family needs in a legendary, lightweight design.

SLEEP MORE, MORE COMFORTABLY: Jay Feather sleeps up to 10 thanks to 1,100-lb. rated tent ends, convertible dinettes, J-Steel sleeper sofas and select model bunk beds. And for those who want to sleep like a king, X213 boasts a rear king-sized bed.

Superior craftsmanship starts at the top at Jayco

We've built a reputation for superior construction and quality craftsmanship.

We pride ourselves on always using top-quality materials and innovative manufacturing techniques. That commitment has led to one of our latest construction advancements, the exclusive Magnum Truss Roof System. Fifty percent stronger than other roofs in the industry, this Jayco roof is built to weather Mother Nature.

OUR ROOF FEATURES ...

- 1 4 1/2" crowned wood trusses: Uses 2"x 2" vertical studs to maximize load capacity, while oversized nail plates provide a tighter design
- 2 3/8" roof decking, screwed down at every seam: More durable than typical stapled construction, provides a fully walkable roof
- 3 Residential attic-style insulation: Helps maintain interior temperatures
- 4 One-piece, sidewall-wrapped Alpha Ply material: Provides leak protection

50% STRONGER

TO LEARN MORE ABOUT OUR MAGNUM TRUSS ROOF SYSTEM, SCAN HERE ►

WALL CONSTRUCTION

- 5 Vacuum-bonded layers: Involves 15-18 minutes of 144 tons of pressure to ensure a strong bond
- 6 Welded aluminum frames with metal backers: Lighter than wood, increases towability
- 7 Extra-wide corner seals: Prevents leaks on corner molds, baggage/entrance doors and window seals
- 8 Innovative, aerodynamic front profile: Eliminates angle, increasing towability

FLOOR CONSTRUCTION

- 9 Vacuum-bonded layers: Backed by computer monitoring and constant quality control checks, Jayco prides itself on building a solid foundation
- 10 Bead-foam insulation (R-9): Maintains interior temperatures
- 11 Norco NextGen frame: Features industry's strongest strength-to-weight ratio thanks to high-strength, low-alloy sheet steel, huck bolts and interlocking design
- 12 Innovative A-frame: Fully integrated, and not welded, prevents buckling

TENT DESIGN

- 13 Reversed cambered-support: Creates durable structure rated to hold 1,100 lbs.
- 14 Hook tent frame: Creates more headroom than competing tents
- 15 5" bed mats: Provide comfort
- 16 DuraTek water-repellent vinyl tent material: Resists mildew, mold, scratches and cracks; double-stitched design adds strength
- 17 Permanent tent-to-bunk attachment system with channel locks: Eliminates misplaced poles, using Velcro system

The weights of certain options and/or option packages are not included in the UWW listed in the specification charts.

Unloaded Vehicle Weight (UWW): Sometimes referred to as "Dry Weight," UWW means the typical weight of this trailer as built at the factory. The UWW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UWW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UWW and the CCC.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UWW. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See the specification chart above and to the right.

RV Technical & Roadside Assistance

Generations of family fun.

THE JAYCO STORY BEGAN IN 1968 WITH OUR FAMILY—THE BONTRAGERS. Lloyd Bontrager created an innovative, easy-to-use lifter system that led to a better fold-down camper. Loaded with more conveniences, he believed his camper would bring families closer together.

Since then, Jayco has helped generation after generation create family stories — good, old-fashioned family fun built around campfires with a Jayco RV nearby. At Jayco, we strive to build family-friendly products that will outlast just about everything but your memories. We'd love nothing more than to be a part of your family story. Join us in our generations of family fun.
