WHERE LUXURY MEETS THE ROAD

A FULL BODY PAINT

A striking exterior graphics design provides a jaw-dropping appearance. The paint process includes multiple layers of paint and clear coat to provide a silky exterior finish.

B FRAMELESS WINDOWS

Sleek, automotive style, frameless windows look great with an added twist of functionality. The windows are hinged to open outward for ventilation, even in rainy weather.

C POWER AWNING

A legless, lateral arm awning is fully encased in a metal box protecting it during driving. When extended, the awning does not have legs intruding into the camp area and it has the ability to self-retract in windy conditions.

D LED ACCENT LIGHTING

A beautifully sculpted front cap is fully illuminated with LED accents, including the Tuscany nameplate and accompanying driving lights.

E SIDE VISION CAMERAS

Side vision cameras, integrated into the exterior mirror housing, vastly increase the line of sight along the side of the coach helping keep you safe out on the road.

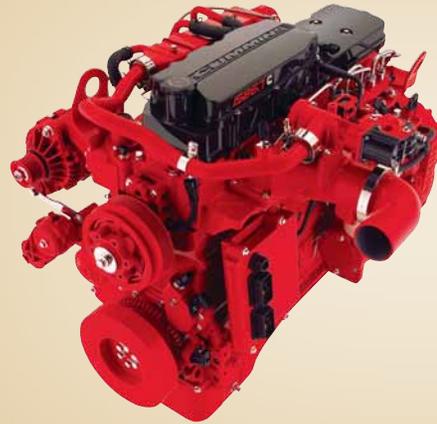

MORE THAN SKIN DEEP

A HOUSE NEEDS TO BE A STRONG FOUNDATION AND THAT INCLUDES A HOME THAT ROLLS DOWN THE ROAD. WE HAVE PARTNERED WITH FREIGHTLINER CUSTOM CHASSIS AND MOR/RYPDE MANUFACTURING TO ENGINEER THE BEST FOUNDATION IN THE BUSINESS. FREIGHTLINER'S ADVANCED CHASSIS TECHNOLOGY PROVIDES A SAFE AND STABLE PLATFORM FOR MANEUVERING THE COACH

The finest products start with the best ingredients.

DOWN THE ROAD, WHILE MOR/RYPDE'S STEEL STRUCTURE ENSURES THE PERFECT INTEGRATION OF CHASSIS TO THE HOME.

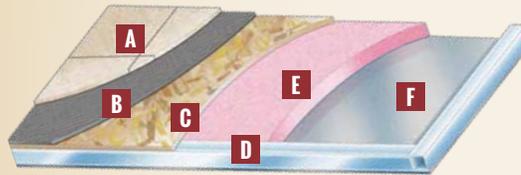

BACKED BY CUMMINS® POWER

Premium motorhome buyers don't settle for second best. That's why Cummins® is the number-one choice for diesel power. The Tuscany XTE's ISB-XT diesel engine is mated to a 6-speed Allison MH-3000 automatic transmission, providing 360-hp and 800 ft/lb torque. This combination delivers maximum performance, reliability and durability.

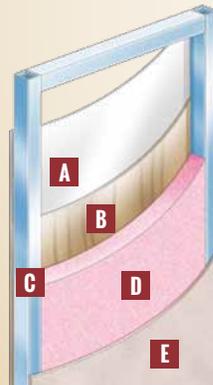

ROOF

- A** One-piece exterior TPO membrane
- B** Lauan panels
- C** Aluminum structure with bowed framing
- D** Block foam insulation
- E** Interior panel with soft touch vinyl covering

FLOOR

- A** Porcelain Tile flooring
- B** 1/4" cement board underlayment
- C** OSB structurewood base
- D** Structural steel framing
- E** Block foam insulation
- F** Lauan with woven plastic exterior finish

SIDEWALLS

- A** High-gloss or gel-coat fiberglass
- B** Lauan panels
- C** Aluminum structure with framing at all openings
- D** Block Foam insulation
- E** Interior panel with designer wall covering

All roof, wall and floor structures are vacuum bond laminated. This process ensures constant and consistent glue coverage over all layers of the structure. This time sensitive process is necessary to provide stronger and more secure motorhomes with increased longevity.

SUPERIOR STRENGTH

A FRONT DISC BRAKES

Large 17" air disc brakes help stop the coach quickly, while dissipating heat to help prevent brake fade.

B 55-DEGREE WHEEL CUT

With 55-degrees of wheel cut, turning circles can be drastically reduced. The Tuscany XTE can turn around in even the tightest of spaces.

C RAISED RAIL CHASSIS

The elevated design allows for substantial more pass-through storage under the coach.

D DEF TANK

Almost all truck stops offer DEF in bulk at the pump, but only on the drive's side of the island. The Tuscany XTE is thoughtfully designed to include a DEF tank that's easy to fill.

E 10,000 LB HITCH

The diesel engine has plenty of torque to pull the heaviest of towed vehicles. The hitch includes a 7-way round connector for ease of use.
