

# RAVEN

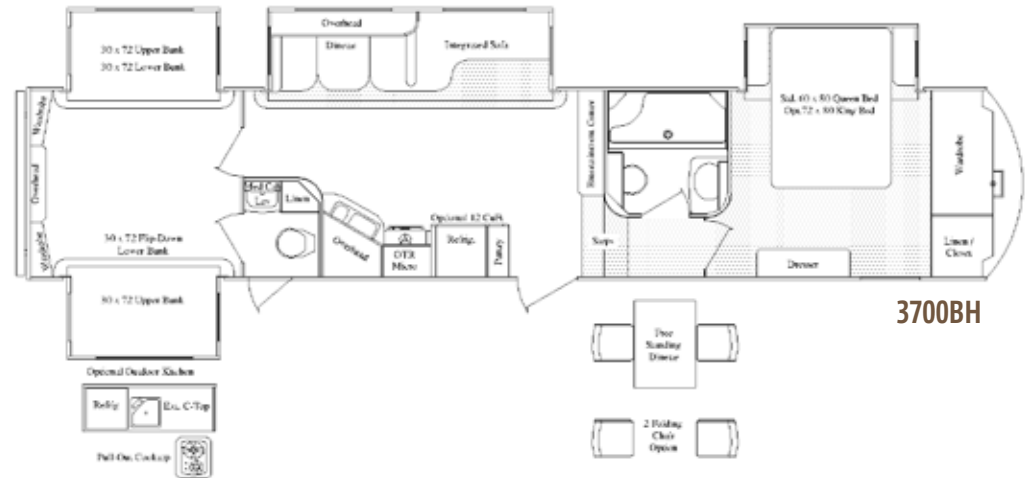

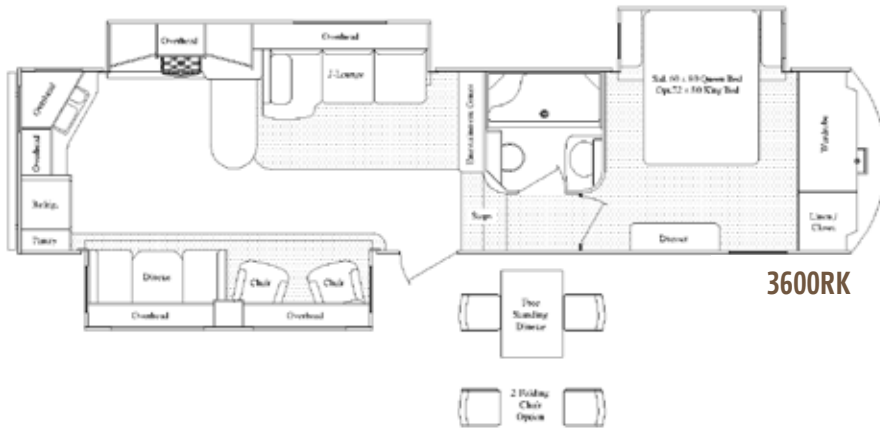

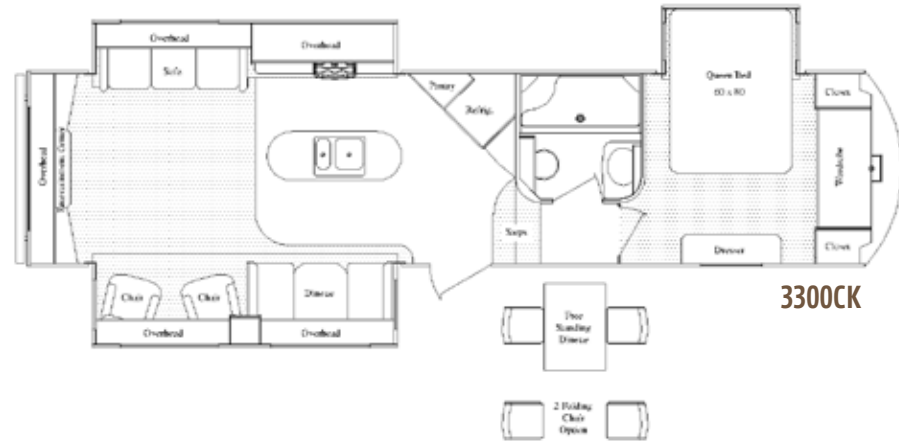

## Designed for the Go, with the Comfort to Stay.

Whether you're on the open road or parked at the campsite, the Raven will help you feel right at home. Step through your keyless entry door and experience a functional kitchen with solid surface countertops, plush overstuffed chairs and J-lounge sofas, 40" TVs in select models, and windows everywhere. At night, LED fixtures brighten up the Raven with cool efficiency. The Raven's best-in-class bed/bath suite includes a 60" shower, residential dresser,

and a full wardrobe with washer/dryer hookups in most models. The king bed is optional, but style and comfort come standard. Outside, slam-latch baggage doors open to reveal spacious, unobstructed storage areas and the tinted frameless windows not only look cool on the outside, but they help keep you cool on the inside. Enjoy your next trip on the open road with the comforts of home in the Raven.
