A MOTORHOME FIT FOR YOU

Class A value-seekers have their eyes set on the Itasca Sunstar® for good reason. The new 31KE with a U-shaped dinette, mid-coach HDTV, and walk-around queen bed joins the diverse lineup of six floorplans. As always, the Sunstar is competitive in price, but it blows away the competition in standard features, including MCD roller shades, a powered patio awning, and power mirrors with

defrost. We have even added an available StudioLoft™ drop-down bed to most models to provide more sleeping areas for families on the go. With so many options built into Winnebago Industries'® legendary quality standards, there is an Itasca Sunstar that will fit your lifestyle and your budget.

RECOGNIZED QUALITY The RV Dealers Association bestows its annual Quality Circle Award based on dealer ratings to manufacturers that provide exceptional products, service and support. Only one manufacturer has received this award for seventeen consecutive years: Winnebago Industries.®

BEST IN CLASS

The available **Comfort Sofa Sleeper** (27N, 30T, 35B) quickly converts from a sofa into a comfortable bed that features a self-inflating mattress and pump that automatically gauges mattress pressure to maintain your desired setting.

The **OnePlace® Systems Center** lets you check major systems at the touch of a button.

Enjoy exceptionally comfortable dining in the **BenchMark® Full Comfort Dinette** (NA 26HE, 31KE) with its premium innerspring seating. The seats tilt up to provide easy access to storage underneath and can easily convert into a comfortable sleeping space.

You can set the level of light and privacy you prefer with the smoothly-retracting **MCD Roller Shades**.

The available **Dash Workstation** is the perfect place to plan the next leg of your trip (NA 26HE, 31KE).

You can create your ideal living space with so many furniture options among six different floorplans. From a sofa/bed to a Comfort Sofa Sleeper (27N, 30T, 35B) to the Extendable Sectional Sofa (35F) to the available pull-down StudioLoft bed (NA 26HE), your lounge can be set up to accommodate a few or many guests. Plus, the Ultraleather™ cab seats (leatherette 26HE, 31KE) swivel around to face the lounge. You can adjust the MCD roller shades and LED ceiling lights to your preferred level of privacy and light.

35B Brownstone with Coffee-Glazed Vienna Maple Cabinetry

Available StudioLoft Bed (NA 26HE)

You'll enjoy preparing delicious meals or late night snacks in this full-featured galley with its microwave oven, 3-burner range top, and a 2-door refrigerator/freezer (available 4-door refrigerator/freezer 35B, 35F). Most floorplans feature elegant Corian® countertops (laminates in 26HE, 31KE) and full-extension drawer slides ensure plenty of storage space for your cooking supplies. For even more upscale features, add the available Interior Upgrade Package that includes a galley backsplash, range cover, flip-up countertop extension (NA 27N), and two wood sink covers for added prep space.

35B Bedroom

There are six different floorplans to choose from, and each master bedroom features a walk-around queen bed. Whether you're looking for a private master bathroom with the BIG Shower (35B, 35F), bunk beds for the kids (35B), or a spacious wardrobe (27N, 35B), the Sunstar has the ideal layout for you. For those who rely on a CPAP/BPAP machine to get a good night's sleep, you'll be glad to know there's a 110-volt outlet that is connected to the available 1,000-watt inverter (NA 26HE, 31KE).

Fiberglass Roof

The crowned, one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

Rubber Can't Cut It

Rubber roofs used by competitors can streak and degrade over time.

Thermo-Panel® Sidewalls

By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry's strongest, most durable and lightweight sidewalls.

E-Coating

An electrodeposition coating helps protect critical steel components.

Embedded Steel Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.

Laser-Cut Tubing

Precision laser cutters create precision joints in structural steel that are stronger and require less welding.

Interlocking Joints

Specially engineered interlocking joints connect the floor, sidewalls and roof where competitors often rely on simple screws to bear the weight.

Solid Framework Aluminum extruded in our own facility to our exacting standards creates an extremely strong and solid structural framework.

SUPER STRUCTURE®

BUILT TO LAST

Every coach—from our smallest Class C to our largest diesel-pusher model—is built to Winnebago Industries'® legendary SuperStructure® construction standards. It's a process developed and refined over more than 50 years of building some of the strongest, most durable coaches in the industry.

TESTING Before rolling out of our factories, every coach undergoes an extensive 113-point inspection. Each coach also passes a high-pressure water test that simulates rain at a rate of 50-inches per hour to check for leaks. During the design process, our computer simulations, physical testing center, and rigorous test track ensure each model is built to last.

DETAILS At Winnebago Industries, we treat the features you can't see with the same care as the ones you can. Look in the access panels of some of our competitors' coaches and you'll see loose insulation and wires haphazardly strewn about. Winnebago Industries maintains a clean fit and finish throughout so your coach will last for the long haul.

BUILT IN-HOUSE We extrude our own aluminum. We rotocast our own plastic components. In fact, we manufacture most of our own parts so they are designed to fit the space, rather than fitting the space to an awkward off-the-shelf component size.

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please check with your dealer for further information.
 - The floorplans feature a wide-body design – over 96" in making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
 - The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.
 - Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
 - Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
 - Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.

GRAND NATIONAL RALLY

In 1969, two things happened: Neil Armstrong took mankind's first steps on the moon, and Winnebago Industries' WIT Club launched its first Grand National Rally in Forest City, Iowa. Every year since then, thousands of rally-goers connect with old friends to enjoy concerts, tours, activities, and more. Blast off for an adventurous week in July to celebrate 45 years of interstate land roving at the 2014 "Out of This World" Grand National Rally. It's a mission you'll never forget!
