SURROUNDING YOU WITH THE FINEST

The 2015 Dynasty is better and more powerful than ever before. We're reclaiming the brand's legacy of luxury, quality and power. Not just a return to the powerful Cummins® engines, but a return of power to owners, as the new Monaco products are a true reflection of their input and the magnificent amenities for which Monaco was once so well known. Everywhere you look, you'll find inspired features and finishes that contribute to the hand-crafted luxury of Monaco's flagship motorhome

Visit MonacoCoach.com and discover the all-new 2015 Dynasty today.

The all-new Roadmaster Chassis

Designed and built to deliver the very best motorhome experience, The All New Roadmaster Chassis utilizes a more rigid, advanced bridge design, engineered in tandem with Freightliner Custom Chassis. The new design features unique attributes like an electro-coated bridge structure, ZF® independent front suspension, and the industry's only volumetric air bags paired with custom tuned shocks for the responsive handling you expect from Roadmaster™.

ADDENDUMS

- GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this fully loaded motorhome. The GVWR is equal to or greater than the sum of the (UVW) unloaded vehicle weight plus the (OCCC) occupant cargo-carrying capacity*.
 - GAWR (Gross Axle Weight Rating) is the maximum permissible loaded weight a specific axle is designed to carry.
 - GCWR (Gross Combined Weight Rating) is the value specified by the motorhome manufacturer as the maximum allowable loaded weight of this motorhome with its towed vehicle. Towing and braking capacities may be different. Refer to Monaco and chassis manufacturer's manuals for complete information.
 - Length measured from front bumper to rear bumper (excludes accessories).
 - Excludes safety equipment and awnings.
 - Motorhomes feature a body width over 96" which will restrict your access to certain roads. Before purchasing, you should research any state and/or province road laws which may affect your usage.
 - Tank manufacturer's listed water capacity (WC). Actual propane capacity is 80% of water listing as required by the safety code.
- † The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing. Hitch receiver ratings expressed are maximum for the hitch receiver installed and may require the purchase of additional equipment that is dependent on the weight of the towed load. Consult with hitch receiver manufacturer for further information.
- * UYW and OCCC are found on the label containing the federal certification tag in each RV.

†† The Minimum Towable Load of this vehicle is the available weight capacity, up to GCWR, when the coach is fully loaded to maximum GVWR. However, if the coach is loaded to something less than maximum GVWR, that extra available weight capacity can be added to your Towable Load. For example, if your coach is loaded to 1000lbs less than maximum GVWR, your Towable Load increases accordingly. Do not exceed the hitch rating weight, GVWR or GCWR.

IMPORTANT—PLEASE READ

Product information, photography and illustrations included in this publication were as accurate as possible at the time of printing. For further product information and changes, please visit our website at www.holidayrambler.com or contact your local Holiday Rambler dealer. Prices, materials, design and specifications are subject to change without notice. All weights, fuel, liquid capacities and dimensions are approximate. Holiday Rambler has designed its recreational vehicles to provide a variety of uses for customers. Each vehicle features optimal seating, sleeping, storage and fluid capacities. The user is responsible for selecting the proper combination of loads (i.e., occupants, equipment, fluids, cargo, etc.) to ensure that the vehicle's capacities are not exceeded.

WARRANTY INFORMATION:

Enjoy your next RV adventure with the peace of mind that comes with a 12 month/24,000 mile basic limited warranty; a 5 year/50,000 mile limited warranty on aluminum or steel frame structure; and a 3 year/50,000 mile limited warranty on the Chassis. Review your coach's limited warranty in full for complete terms and conditions.
