

Jayco[®]

Generations of family fun.

EAGLE

2015 TRAVEL TRAILERS AND FIFTH WHEELS BY JAYCO

This 1986 brochure cover inspired our 2015 literature.

2
YEAR
WARRANTY

BUILT FOR FAMILY-SIZED getaways

On the cover: The 1986 brochure artwork, illustrated by Tim MacDonald, was part of a successful ad campaign. These illustrations inspired the 2015 Jayco brochure covers, which are live re-creations of Tim's artwork.

For 45 years, Jayco has helped create generations of family fun, and over the course of that time, fun still looks remarkably the same. From campfires to fishing, from relaxing to eating, fun has the same feel generations later—and all with a Jayco RV nearby. Today, we're the largest family-owned RV manufacturer in the world, and our promise is to continually strive to build family-friendly products that will outlast just about everything but your memories. Join us in our generations of family fun.

Scan this QR code to watch how Jayco delivers Generations of Family Fun or visit www.GenerationsOfFamilyFun.com.

Every family defines fun a little differently, but thanks to our robust 2015 Eagle lineup, it's easier than ever to find the perfect family getaway. Introducing the Eagle family:

*The weights of certain options and/or option packages are not included in the UVW listed in the specification charts.

Unloaded Vehicle Weight (UVW): Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specifications chart above.

EAGLE HT FIFTH WHEEL 29.5BHDS | PEWTER

Eagle HT

Lightweight Fifth Wheels

The 2015 Eagle HT is our lightest fifth wheel yet, but don't let its lightweight label fool you. This spacious model is loaded with conveniences that make it just as fun to camp in as it is to tow. From full-featured kitchens — inside and out — to a myriad of sleeping arrangements, including Denver Mattress bunk beds, Eagle HT packs lightweight fun.

YOUR TRUCK HAS MET ITS LIGHTWEIGHT MATCH

MAKE	MODEL	ENGINE	CAB/BED	AXLE RATIO / EQUIPMENT
Chevrolet	Silverado 1500 2WD	6.2L V-8	Extended/Standard	3.73:1, Towing Package
Dodge	Ram 1500 2WD	5.7L V-8	Regular/Short	3.73:1, 5-speed AT
Ford	F-150 2WD	5.0L V-8	Regular/Long	3.73:1
GMC	Sierra 1500 2WD	6.2L V-8	Extended/Standard	3.73:1, Towing Package
Nissan	Titan 2WD	5.6L V-8	King/Short	Premium Utility Package
Toyota	Tundra 2WD	5.7L V-8	Regular/Long	Towing Package

*It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice.

EAGLE PREMIER FIFTH WHEEL 361REQS | BROWNSTONE

Eagle Premier

Fifth Wheels

The name *Eagle Premier* says it all. This extraordinary fifth wheel delivers more premium upgrades than anything in its price range, making it the envy of the campground. Starting in the kitchen and moving into the bathroom, Premier flaunts stunning solid-surface countertops and Amish-crafted cabinetry. Outside, select model exterior kitchens boast a standard 32" LED television.

EAGLE PREMIER 361REQS | BROWNSTONE

EAGLE PREMIER FIFTH WHEEL 361REQS | BROWNSTONE

PREMIUM COMFORT

The Eagle Premier wouldn't be premier without high-end comforts. From the new Heritage Series furniture line to the master suite's cedar-lined, walk-in closet, this fifth wheel has it all.

*Distance from the pin box to the bumper; total exterior length may be longer. **The weights of certain options and/or option packages are not included in the UUV listed above.

Unloaded Vehicle Weight (UUV): Sometimes referred to as "Dry Weight," UUV means the typical weight of this trailer as built at the factory. The UUV, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UUV plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UUV and the CCC.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UUV. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specifications chart above.

WE START WITH ONE OF THE INDUSTRY'S strongest foundations

4-6 ft.

Full-width outriggers: We build on full-width outriggers that are spaced 4-6 feet apart (vs. 8 ft.) to better support the weight of the wall.

I-Class cambered structural steel I-beams: Jayco uses a unique molded, one-piece design to prevent unit from twisting; competing three-piece I-beams can warp over time at the welded seams.

Jayco builds on custom-sized frames, designed specifically for each floorplan. Other manufacturers use stock frames, stretching and welding the frame to fit.

Eagle travel trailer integrated A-frame: The A-frame runs through the main frame, preventing the hitch from buckling like competing tack-welded frames.

– so that we can build the industry's most reliable RV

CLIMATESHIELD

The Climate Shield features the following R-values.

100°F 68°F

HOLDING TANK

0°F 60°F
100°F 72°F

BEDROOM

0°F 71°F
100°F 71°F

* Eagle was tested in 0° F and 100° F weather over an extended period of time in a controlled environment and all functions of the coach were fully operational. Testing cannot account for natural elements, such as wind or moisture. In actual use, unit may not perform as well. In addition, outside components are subject to freezing and require steps to properly insulate. Jayco's warranty does not cover damage caused by freezing.

Fifth wheel frame: The frame over the truck bed is built on a superior 2" x 6" tube perimeter structure to better support the bedroom sidewalls. Competing fifth wheels have a smaller frame; these manufacturers add a sidewall support seam to compensate for expansion joints.

THE MAGNUM TRUSS ROOF SYSTEM

50 percent stronger

In a side-by-side comparison test, Jayco's exclusive Magnum Truss Roof System withstood 4,500 lbs. — 50 percent more than other roofs. The difference?

- 1 Jayco uses 4 1/2" crowned wood trusses, solid-wood studs and oversized nail plates to maximize the roof's load capacity. (Eagle Premier uses 5" arched, stamped steel.)
- 2 Then, we screw down 3/8" roof decking at every seam, a process that is more durable than stapled construction.
- 3 Finally, our one-piece, sidewall-wrapped DiFlex II material provides the ultimate in leak protection.

WALL CONSTRUCTION

vacuum-bonded walls

- 4 Eagle features durable, vacuum-bonded, laminated sidewalls with smooth, high-gloss fiberglass exteriors that provide long-lasting appeal.
- 5 Welded aluminum frames give Eagle a durable, lightweight structure.

FIFTH WHEEL CONSTRUCTION

extra measures for extra warmth

- 6 In the upper area of the fifth wheel floorplan, Jayco uses a double layer of fiberglass insulation behind the front cap, along with Flexfoam and fiberglass insulation in the floor, to provide extra warmth where it's needed most — in the bedroom.
- 7 Jayco's aerodynamic front cap is engineered to withstand the rigors of the road. Paint infused and gel coated, this fiberglass cap features more support with 1/4" plywood bracing, not typically found on other fifth wheels.
