

# ASCEND

by EVERGREEN

Travel Trailers

Lightweight  
Champion of  
Your World.

EVERGREEN  
RECREATIONAL VEHICLES

# Ultra-lightweight, Aerodynamic, Easy Towing. Designed for You.

For anyone transitioning into RV ownership, the Ascend travel trailer has all the quality features you'd expect from an EverGreen at an affordable price. The ultra-light, aerodynamic design gives you the freedom to choose a smaller tow vehicle, with all seven floorplans weighing-in at less than 5,000 pounds.

Choose the Ascend that fits your lifestyle from a variety of floorplans, ranging from the bunkhouse model to rear living and dining models. A roomy interior height of 82-inches gives the Ascend the benefits of a lightweight design, without compromising your comfort or style.

Deciding on a lightweight trailer doesn't mean sacrificing standard features. Built with EverGreen's exclusive DuraLite™ construction, the Ascend has the quality construction and residential touches found in all EverGreen trailers combined in an ultra-light package.

**The 192RB, along with all Ascend models have added storage under the walk-around queen bed accessible with dual gas struts.**

# Enter the RV World in Style. The Highway is Calling, Answer with the Lightweight Ascend.

## Begin your Adventure with all the Essentials.

Whether you're moving out of a tent or downsizing from a larger camper, the Ascend will exceed your expectations. A standard double door refrigerator/freezer, two-burner stovetop and sturdy aluminum framed dinette, deliver the complete kitchen experience. After a long day outdoors, come home to a queen-sized bed— there's even room for guests when you convert the dinette to a bed, all standard equipment.

## A Solid Investment in your RV Future.

Ascend features "The EverGreen Difference" construction with vacuum laminated walls and floor and ComposiTek™ inner sidewalls. Holding tanks are enclosed and heated within the frame. Unique to the Ascend is the one-piece, aerodynamic fiberglass roof that is seamless to allow water to flow off the rooftop without pooling.

## Light on Weight, Not Variety.

You decide which model you tow behind your minivan, family sedan, mid-sized SUV or pickup. Each floorplan is distinct, comfortable and equipped with an outdoor shower, large awning and pass through storage. All are built to be fuel efficient down the road.

Padded "No Crack" vinyl flooring is comfortable and durable. Housing the sofa in a slide-out increases your living space.

**A231RKB**

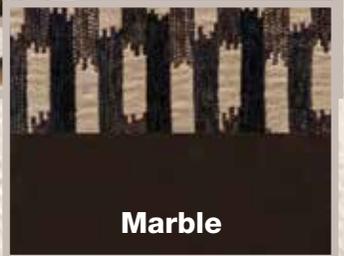

All Ascend kitchens feature solid wood cabinets, ample storage and a two-burner stove with range hood. The convection microwave shown here in the 192RB is optional.

# Ascend Interior Color Selections

# No one builds travel trailers like EverGreen.

Take the time to compare because there is an "EverGreen Difference." Since we first revolutionized the RV industry with the Ever-Lite travel trailer, we've been busy focusing on the innovation front with new manufacturing and material specifications to build a better trailer for your family.

## Construction Features

### Walls

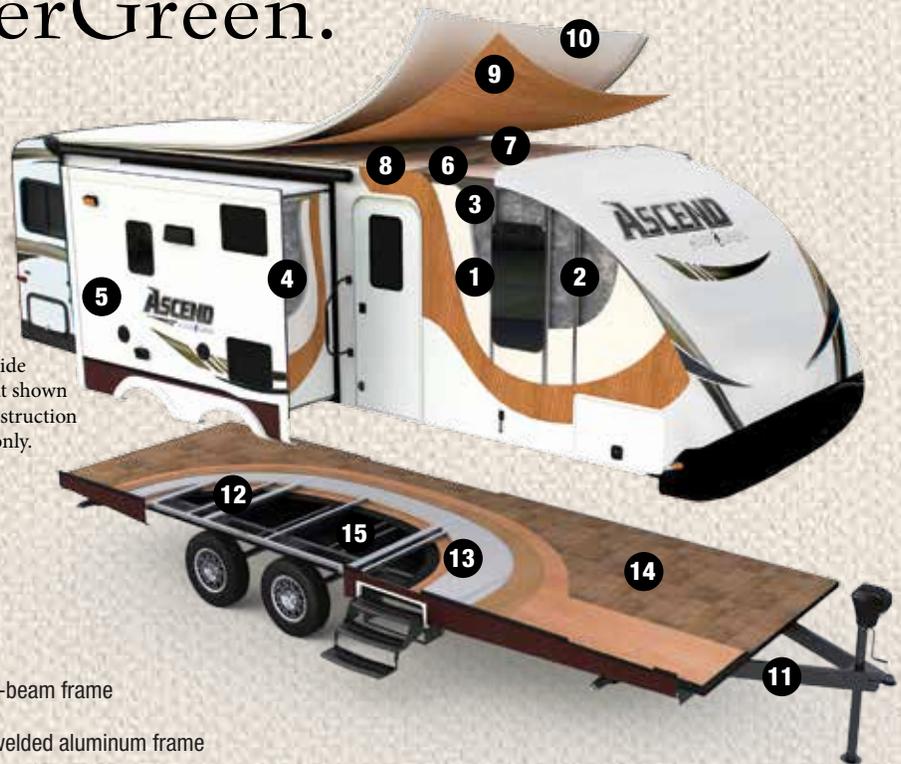

- 1** Inner liner
- 2** Fully welded aluminum frame
- 3** High-density, block foam insulation
- 4** CompositTek™ substrate standard
- 5** High-gloss fiberglass exterior

### Roof

- 6** CompositTek™ inner liner
- 7** Fully welded, crowned aluminum frame
- 8** High-density, block foam insulation
- 9** Plywood substrate
- 10** One piece fiberglass roof

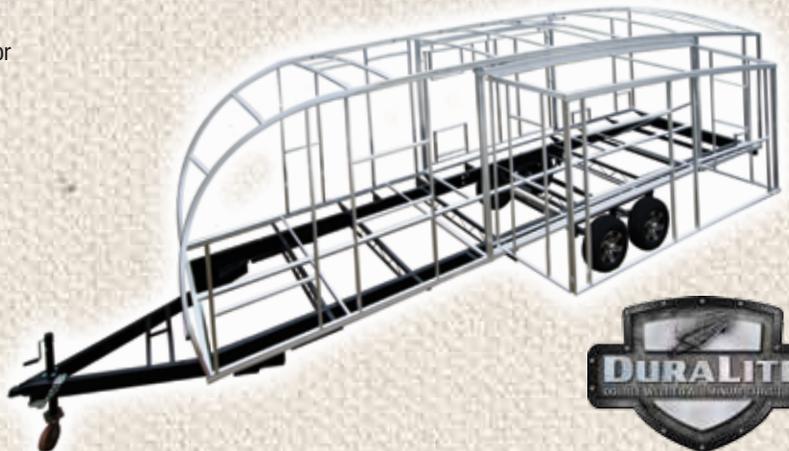

\*Curbside slideout shown for construction detail only.

### Floor

- 11** Steel I-beam frame
- 12** Fully welded aluminum frame
- 13** High-density, block foam insulation
- 14** Padded "No-Crack" vinyl floor
- 15** Enclosed, heated underbelly

## DuraLite™ Double Welded Aluminum Structure

Ascend is built with aluminum framing around all doors, windows and baggage door openings. This strong, durable framing creates a sturdier coach that won't flex and is superior to wood frame construction used in conventional travel trailers.

## One Piece Fiberglass Roof

Ascend has a one-piece, aerodynamic fiberglass roof that has no seams to maintain and allows the water to flow off the rooftop without pooling. This design is superior to rubber roofs that require upkeep to prevent streaking, chalking and bubbling. The one-piece roof virtually eliminates leaks, due to the seamless design.

# Standard Features and Optional Packages

## CONSTRUCTION

- Lightweight steel frame
- DuraLite Double Welded Aluminum Structure sidewalls, roof and floors including window framing
- Vacuum laminated inner sidewalls
- One-piece high-gloss fiberglass roof and exterior shell
- 4-corner stabilizer frame jacks

## Check Out Ascend's Features and Benefits

- ✓ DuraLite six-sided double welded cage construction provides a secure structure
- ✓ Aluminum frame provides greater strength and durability and resists water damage
- ✓ One-piece, aerodynamic fiberglass roof has no seams to maintain and allows water to flow off without pooling on the rooftop
- ✓ CompositTek™ walls result in a more durable travel trailer that will hold its value longer
- ✓ The aerodynamic front end makes towing easy and increases fuel economy
- ✓ Situating the fresh water tank over the axles reduces tongue weight and increases interior storage
- ✓ With an interior height of 82-inches, the Ascend feels roomy
- ✓ Under-bed storage with lift struts make storing all the necessities handy
- ✓ Large double door refrigerator/freezer combination makes food prep convenient
- ✓ Six gallon gas/electric water heater gives you the flexibility of using gas or electric
- ✓ Adjustable height, axle equalizer stabilizing system allows you to take the Ascend over rough terrain (tandem axle models)
