Quality Since 1961

"The Truck Camper People"

Welcome to *NORTHSTAR!*

Rory and Rex Willett

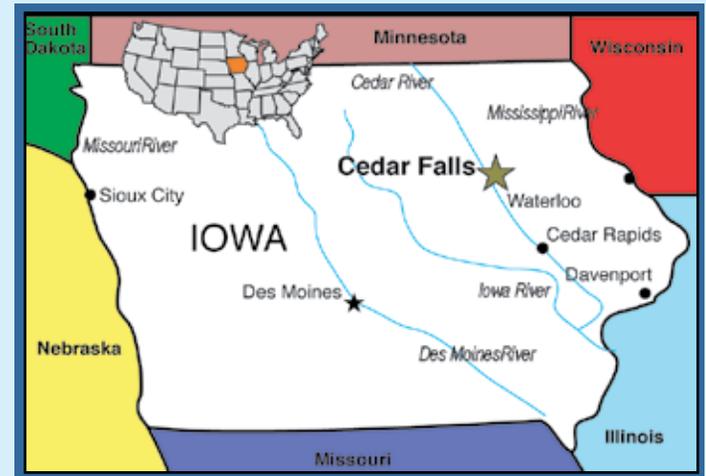

Located in the upper Mid-West, our roots are distinctly Iowa. We are really proud of being from Iowa and also our history. You see, we are the oldest truck camper manufacturer in the world. We have been on the same corner in Cedar Falls/Waterloo since 1955 and have been selling truck campers to dealers since 1961.

Our Grandfather Tex founded the business that our father and his brother ran together for several decades. Now our third generation has partnered together for over twenty-five years. We have gained a lot of knowledge over the decades and passed it down through the generations. This knowledge has given us continuity in quality that is unsurpassed in the Truck Camper Industry. Over the years we have met thousands of interesting people, many of them becoming our loyal customers

We welcome you to look over our full line of Northstar Truck Campers and we will do our best to pass along our knowledge to you.

Iowa Facts

Although Iowa produces a tenth of the nation's food supply, the value of Iowa's manufactured products is twice that of its agriculture. Major industries are food and associated products, non-electrical machinery, electrical equipment, printing and publishing and fabricated products. Iowa stands in a class by itself as an agricultural state. Its farms sell over \$10 billion worth of crops and livestock annually. Iowa leads the nation in all corn, soybean and hog marketing and comes in third in total livestock sales. Iowa's forests produce hardwood lumber, particularly walnut, and its mineral products include cement, limestone, sand, gravel, gypsum and coal.

Iowa means "Beautiful Land"

1 Block North of Airline Highway on Leverage Rd.

Your Invited! Although all of our Northstar sales are through our dealerships, feel free to stop in and see us anytime, Monday - Friday 8am - 5pm, excluding holidays. **Its an Open Invitation!**

Choices, Choices, Choices

Once you come to the conclusion that a Truck Camper is the most practical and versatile mode of travel available on the planet - the next step is making important choices. How and when will I use this investment? Where and who provides the best quality for my dollar? We are all faced with so many questions and more importantly, so little time.

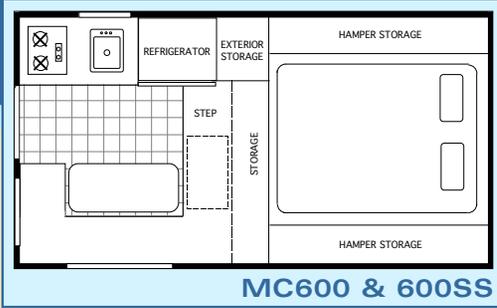

At Northstar, we realize how important these decisions are and the importance that a Truck Camper can have in your lives. When you decide to buy Northstar, you can be assured that the value exceeds what you are paying for. The practical choice of a Northstar is a good one. Our longevity, reputation, and customer loyalty are paid for. We encourage you to study our products and compare them to anything on the market. You will quickly notice the useful design, simplicity, comfort and strength built into each and every Northstar camper. Check out your choices beginning with 8 models of pop-up Truck Campers and 6 models available in the hard-sided versions.

Everyone chooses a camper for different reasons and uses. You will find that Northstar has a camper for almost every truck, in different variations and styles. But almost everyone builds a "relationship" with their camper through the time and experiences spent together creating life long memories.

Your investment choice in Northstar is a solid one. You will be assured of the incredible value (in dollars as well as life experiences) in a product that is made to last! We look forward to having you as our customer and thank you for your continued business.

MC600 & 600SS

MC600/600SS & TC700/700SS for today's smaller trucks

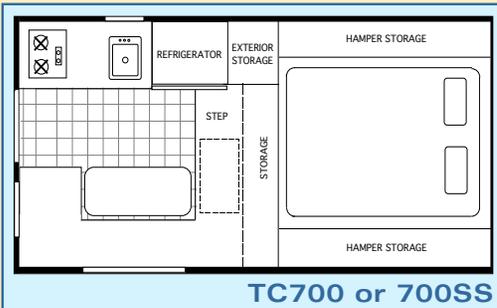

TC650

Fits full size short bed trucks with **BIGTIME** features.

850SC With Cassette

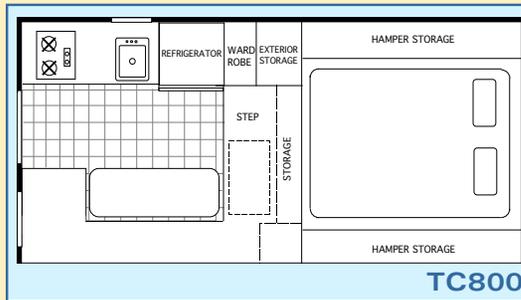

This self contained unit has it all! **Tons** of storage and all the equipment you need to get away from it all. Fits full size long bed or short bed trucks.

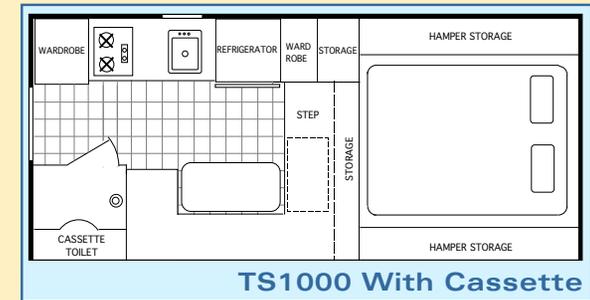

TC700 or 700SS

NORTHSTAR®

Quality Since 1961

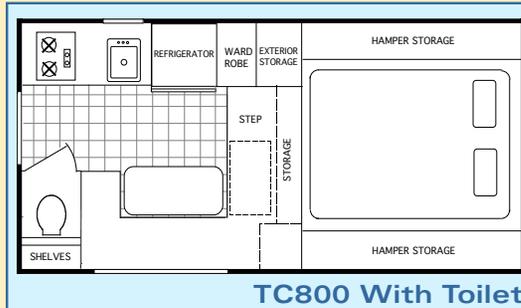

TC800

TS1000 With Cassette

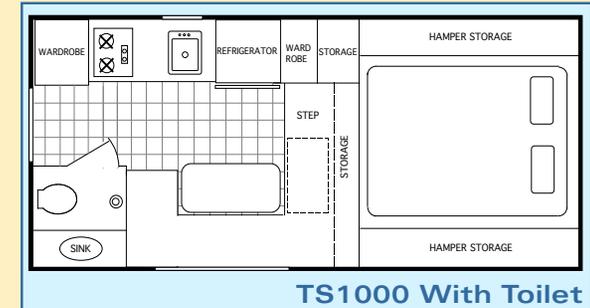

SS Advantages... What's the difference??

The 600SS and the 700SS have five inch higher sidewalls than the MC600 or TC700. You gain a larger entrance door, galley slider window, 3.7 cubic foot refrigerator, deeper storage under the lift up bed and increased interior height with the roof up or down. The same great floor-plans in a slightly larger version!

TC800 With Toilet

Our 8 foot version offer lots of storage and function. Available for long or short bed trucks with the wrap-around rear option for short beds.

TS1000 With Toilet

Choose a Cassette toilet or a Marine toilet in these 10 foot pop-ups. Long bed 3/4 ton truck compatible.

Special Instructions or Notes:

EXPAND YOUR CAMPING POSSIBILITIES WITH THE XB (EXTRA BED) OPTION!

*The XB option is available on almost all Northstar models.
Enjoy as a sleeping area or somewhere to throw your extra gear.
Secured by 2 heavy duty locks. If you need it, just pop it out!*

The Common Sense of Narrow

Being a family that has manufactured and traveled in truck campers for nearly five decades, we've found there is one distinctive difference with Northstar Campers: the width. The majority of Northstar campers are a narrow 7' wide with the widest camper only 7'6" wide.

Safety, Stability and Control-Why Narrower is better!!

ENGINEERED FOR SAFETY.

Two major advantages of our pop-up campers are their low center of gravity and narrow 7' width. This design provides more stability and ease of handling. Most full size pickups are 6' wide, so the narrower width of the NORTHSTAR will improve the ride, control, ability to navigate while in traffic and increase the visibility of what is being towed. In addition to the 7' wide pop-ups, NORTHSTAR builds five hardwall campers in that same 7' width and three models in a 7' 6" body width - the widest camper this company chooses to produce.

Even though the camper shopper can be tempted by wider brands that appear to have vast interiors with travel trailer style bathrooms, it may be wise to consider the stability and control offered by the NORTHSTAR units.

In summary, the larger the camper, the more weight. More leverage is created by adding length, width and height. Keeping the camper size within reason provides for a better and safer ride all around. NORTHSTAR cares about quality and safety. All NORTHSTAR Truck Campers are designed and built with that in mind.

Of course the advantages of being narrower are obvious. Cornering is easier when going down a mountain or venturing off-road. It is easier to see around when towing, in traffic, or backing out of a parking area. The center of gravity is moved closer to the middle of the truck, giving you more control of your vehicle in calm or windy conditions. There is less wind resistance and less stress on your truck in the narrower camper. We have learned from experience that the positives outweigh the negatives. We ask that you consider the designed narrow stability and control built into each and every Northstar. Feel the gained control without the wind, weight, or most importantly... stress!

The cassette toilet by Thetford is a great feature, standard on many Northstar models. The cassette is a built-in toilet system with its own water tank supply and water pump. It has a waste capacity of 5 gallons which is easy to dump just about anywhere! You can fill the 4 gallon fresh tank with antifreeze for cold weather camping and never worry about freezing your black tank. It's also convenient when you're camping off of the truck because you don't have to reload the camper to dump your waste tank. Simply slide the cassette out and dump it in any toilet or bathroom facility. No need to wrestle with a sewer hose or wait in line to dump your tank! *Now that's convenient!*

Roomy shower with cassette toilet.

Exterior Cassette Access Door

With the exterior door open you simply lift the green lever and slide the 5.1 gallon black tank out. Top tube is the fresh water fill that also swivels out to fill easily.

DISTINCTIVE NORTHSTAR® OPTIONS

The **HEKI** (high-key) dome offers more light, better ventilation and excellent thermal insulation while reducing cold and condensation. The built-in roll across shade and screen give you options for total darkness for sleeping or ventilation while keeping unwanted insects out. You can also open the vent for maximum light and an unobstructed view when laying in the cabover. The **HEKI** dome is available on all Northstar models.

GO NORTHSTAR® GET THERE!

The insulated window package is true luxury. A heavy plastic frame surrounds the window with a one-piece pane filled with argon gas. Minimal thermal conduction is accomplished for hot or super cold temperatures. This unique window has a built-in screen and shade.

The screen rolls down from the top and the shade up from the bottom. They can be quickly and easily connected so you can position them how you would like. When the shades are up you have total privacy. Quickly roll your screen or shade back and enjoy an unobstructed view. Open the window to pass items in and out of the unit.

The camper can easily be cooled by your truck air conditioner when traveling by opening the standard pop out window of your camper and using the Northstar window boot between them. The window pane is made of a material like a motorcycle windshield so it is durable and easy to keep looking new for years to come. You will be amazed by how quiet your camper interior is when camping. Northstar uses a recessed window pane while some manufacturers use a pane that sets to the outside of the camper body. The recessed pane is secure and will not get pried off by small branches or let air or moisture in while traveling. Enjoy quiet nights with total privacy, silent travel, warmth and distinctive looks.
