## A Class A Motorhome Like No Other

The Suncruiser® is king when it comes to diesel-pusher style with the convenience and affordability of a Class A gas coach. Four stunning floorplans allow you to choose the ideal design to suit your lifestyle. Full-body paint and dual-pane Contour™ windows set the stage for a coach filled with premium, user-friendly features, including

Ultraleather™ furniture, MCD solar/blackout roller shades, and advanced LED lighting. This year, we're introducing a host of new upscale amenities such as coffee-glazed finish on all wood choices and an available tankless water heater. Claim your Class A lifestyle today with the luxurious Suncruiser.

**Recognized Quality** The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle Award to manufacturers that provide exceptional products, service, and support. Winnebago is proud to be the only manufacturer that has received this award every year since its inception.

## Best in Class

Stylized Aluminum Wheels

It's time to enjoy the same level of stylish indoor comfort in the great outdoors. Relax under the powered patio awning with LED lighting or enjoy a starlit movie night with the available exterior entertainment center featuring an HDTV. The leveling jacks include 3-position controls, allowing you to level the coach from the cab, service center, or the entrance door. Hookups are surprisingly easy with the ergonomic controls and color-coded labels in the service center featuring the QuickPort® service connection hatch.

**Fiberglass Roof**  
The crowned, one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

**Solid Framework** Aluminum extruded in our own facility to our exacting standards creates an extremely strong and solid structural framework.

**Laser-Cut Tubing**  
Precision laser cutters create precise joints in structural steel that are stronger and require less welding.

**Thermo-Panel® Sidewalls** By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry's strongest, most durable and lightweight sidewalls.

**Interlocking Joints**  
Specially engineered interlocking joints connect the floor, sidewalls and roof where competitors often rely on simple screws to bear the weight.

**E-Coating** An electrodeposition coating helps protect critical steel components.

**Embedded Steel** Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.

## SUPER STRUCTURE

BUILT TO LAST

Every coach—from our smallest Class C to our largest diesel-pusher model—is built to Winnebago's® legendary SuperStructure® construction standards. It's a process developed and refined over more than 50 years of building some of the strongest, most durable coaches in the industry.

**TESTING** Before rolling out of our factories, every coach undergoes an extensive 113-point inspection. Each coach also passes a high-pressure water test that simulates rain at a rate of 50-inches per hour to check for leaks. During the design process, our computer simulations, physical testing center, and rigorous test track ensure each model is built to last.

**DETAILS** At Winnebago, we treat the features you can't see with the same care as the ones you can. Look in the access panels of some of our competitors' coaches and you'll see loose insulation and wires haphazardly strewn about. Winnebago maintains a clean fit and finish throughout so your coach will last for the long haul.

**BUILT IN-HOUSE** We extrude our own aluminum. We rotocast our own plastic components. In fact, we manufacture most of our own parts so they are designed to fit the space, rather than fitting the space to an awkward off-the-shelf component size.

### FOOTNOTES

- 1 The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
- 2 Floorplans feature a wide-body design - over 96" in making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- 3 The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.
- 4 Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- 5 Capacities shown are tank manufacturer's listed water capacity (W.C.) Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- 6 Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- 7 See separate chassis warranty.
- 8 See your dealer for complete warranty information.

Winnebago's continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Then & Now

The Snow is Back  
In the old days, the snow was no laughing matter. It was a real problem. With all the things we and our "winnebago" have done, we've come a long way. It's time to get in line again with the new Snow and Snow.

"DOWN UNDER"

Grand National Rally

G'day mates! Explore the outback at this year's "Down Under" Grand National Rally. Each year, thousands of Winnebago owners descend upon the land down under – a.k.a. Forest City, Iowa.

Rally-goers enjoy an unforgettable week reconnecting with friends, taking tours, participating in activities, and more. Hop on down and join the adventure this July!
