# WE START WITH A FIT FOUNDATION

## Welded Hitch Receiver

FIT's integrated hitch receiver can haul 3,000 pounds of additional cargo (300 lb. tongue capacity).

## Hydraulic Slide-Out System

The gold standard for hydraulic slideout systems, Falcon provides years of worry-free operation and makes us distinct among the competition.

## The Falcon Frame

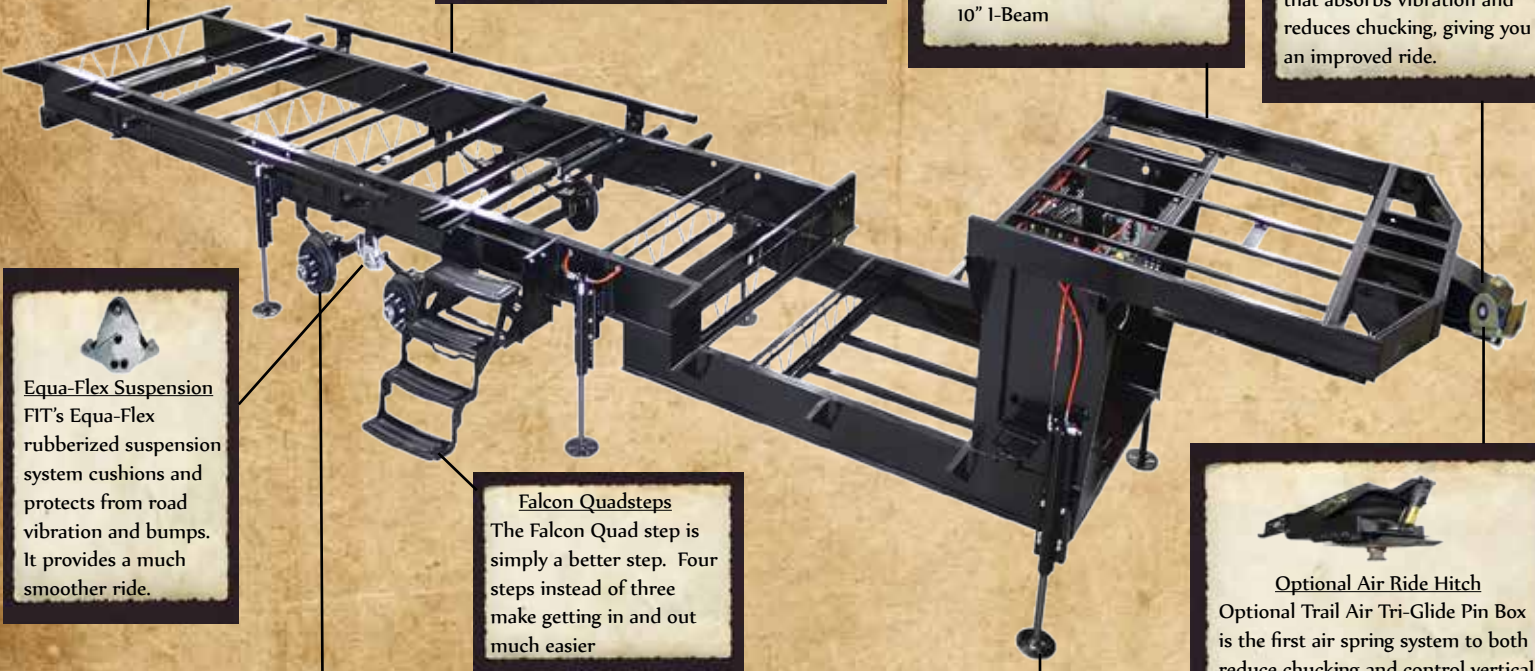

The Falcon frame utilizes the very best quality materials available.

- \*Powdercoated frame for protection
- \*Heavy duty 12" I-Beam main rails
- \*Drop section of chassis is 10" I-Beam

## Trail Air Rota-Flex Pin Box

The FIT chassis system comes standard with the Trail Air Rota-Flex pivoting head pin box. The Rota-Flex utilizes a rubberized compound that absorbs vibration and reduces chucking, giving you an improved ride.

## Equa-Flex Suspension

FIT's Equa-Flex rubberized suspension system cushions and protects from road vibration and bumps. It provides a much smoother ride.

## Falcon Quadsteps

The Falcon Quad step is simply a better step. Four steps instead of three make getting in and out much easier.

## Optional Air Ride Hitch

Optional Trail Air Tri-Glide Pin Box is the first air spring system to both reduce chucking and control vertical push/pull movement.

## Falcon Brand Axles

Falcon 7,000 lb. axles are built to last and offer many advantages over the competition:

- \*Self-adjusting brakes improve stopping time up to 50% and lower maintenance costs.
- \*Powder-coated axle tubes protect against corrosion.
- \*EZ-Lube hubs allow for quick and easy maintenance.

## 6-PT. Hydraulic Auto Level

No more boards or blocks to get your coach level. With a push of a button you can be leveled and ready to relax.

Falcon Integrated Technology (FIT) makes everything easier. One single point of contact makes it easier for owners to understand and easier for servicing dealers to get answers and solutions. Competitors use a patchwork of suppliers for their coach's foundations making troubleshooting, well, troublesome! Simplify your next RV adventure with a custom FIT foundation from CrossRoads RV.
