SUSTAINABLE

The Trillium Heritage camper epitomizes sustainability in the realm of recreational vehicles, revolutionizing traditional manufacturing methods with its monocoque, net shape fiberglass construction. This innovative approach significantly reduces waste during production, ensuring that resources are utilized efficiently, and environmental impact is minimized from the outset. Moreover, the camper's enduring design ensures longevity, capable of lasting for generations with proper maintenance. This longevity not only reduces the need for frequent replacements, thereby curbing waste, but also underscores its commitment to sustainability.

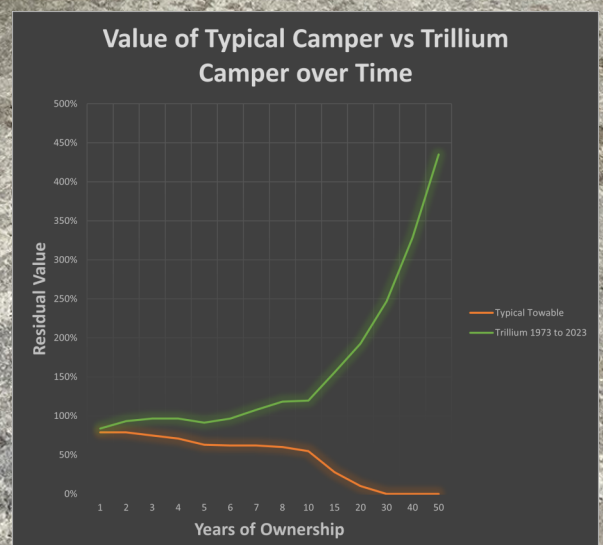

Furthermore, the camper's lightweight design offers practical advantages by enabling the use of smaller tow vehicles. This not only reduces fuel consumption but also translates to lower carbon emissions, aligning with the imperative to mitigate environmental impact. Additionally, the integration of solar power technology further enhances its sustainability credentials, allowing the camper to generate its own power for all basic functions using clean, renewable energy. In essence, the Trillium Heritage camper sets a new standard for eco-friendly travel, combining innovative construction techniques, enduring design, and renewable energy solutions to promote a more sustainable approach to outdoor exploration.

SMART

The all-fiberglass body of Trillium Heritage campers ensures unparalleled longevity and value retention in the market. With rivals few to none, these campers stand out for their enduring construction, capable of withstanding the rigors of time and travel. Unlike traditional RVs, which may degrade over time due to corrosion or wear, the Trillium Heritage maintains its structural integrity, making it a wise investment for outdoor enthusiasts seeking a reliable and enduring companion for their adventures. Its timeless design and robust construction ensure that it remains a coveted choice among buyers, cementing its reputation as a leader in the industry.

EASY ...

... to tow.

... on gas.

... to store.

... to park.

... to maintain.

... to manoeuvre.

... to back up.

... to hitch.

... to stop.

... to pick up and go.

The super lightweight, low maintenance fiberglass Trillium Heritage campers are so easy to use it leaves you with more time to worry about the important things, like what you're going to have for dinner, whether the fish are biting, or if you're going to get in off the lake before sunset. Your friends are waiting at the campfire.

Trillium Heritage 1300 / 4500 - Standard Layout

Sleeps 3

The Standard Layout features convertible dinettes front and back, the front converting to a single bed and the rear a 46" or 54" by 76" long double bed. The spacious center galley is standard in all Layouts and features a 4.2 cubic foot fridge as standard. We have many optional additions to suit the needs of different campers.

Trillium Heritage 1300 / 4500 - Bunk Layout

Sleeps 4

The Bunk Layout eliminates the convertible single bed at the front of the camper and gives you a couch by day and a swing up second single bunk at night. Under the lower bunk is a two-drawer dresser. A screen mesh safety rail is integrated into the upper bunk (150 lb) suspension. A favourite with the kids!

Convertible Rear Dinette has Optional Folding Table

Front Couch

Couch back swings up into Bunk

Trillium Heritage 1300 / 4500 - Bath Layout

Sleeps 2

The Bath Layout eliminates the convertible single bed/dinette at the front of the camper and gives you a wet bath, including a shower and cassette toilet. The shower is fully curtained and there is a generous medicine and storage cabinet above the toilet. Just inside the main door, there is a spacious hanging wardrobe closet.

* Dry Weight is the weight of the camper with standard equipment, excluding propane, tank fluids, cargo and optional equipment.

The 2-year limited warranty consists of the workmanship attributable to L'air Camper's manufacturing and assembly of structural components. L'air Camper agrees to warrant the structural integrity of the camper for up to two (2) years from the purchase date. (Warranty Period) The 2-year limited warranty is transferable. This does not include equipment or parts with separate, stand-alone warranties.

When you invest in a Trillium Heritage camper, you are welcomed into the L'air Camper Co. family. Our Luminaries share their knowledge and enthusiasm, and our team provides their unwavering support. Our innovation and our spirit is derived from you and we will do our utmost to produce a product that you will be proud to own for generations.

Please Note: We have made best efforts to represent all elements of the Trillium Heritage Campers accurately. All options, colours, specifications and design features are subject to change without notice. All weights, capacities and dimensions are approximate. Imagine Fiberglass and L'air Camper Co. reserve the right to make changes of any nature at any time. It is the owner's responsibility to select suitable tow vehicle and tow equipment for proper and safe operation.
