NOMAD

SKYLINE

Since 1960, when the first Skyline RV rolled off the production line, the Nomad name has hosted more campfires, fish fries, marshmallow roasts, sing-alongs and morning coffee than any other camper out there.

There may have been a Nomad in your grandfather's deer camp, or your father's first vacation trailer—your first camping experience.

Today, the Nomad name lives on with the Skyline legacy of producing a full-featured RV for a fair price. Hundreds of thousands of satisfied campers choose the Nomad brand over the years.

Welcome to the new Nomad travel trailers.

Since 1960. Comfort, Always in Style.

Roomy residential shower

Most Skyline floorplans feature shower/tub combinations. There is plenty of space to shower and the lip at the bottom is convenient for bathing children.

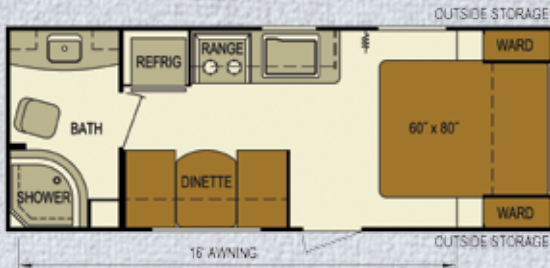

Full-size bathroom mirror

Cumbersome medicine cabinets simply aren't practical in lightweight RVs. Skyline maximizes the space with a more functional full-size mirror in the bathroom and a large vanity for toiletries.

Exclusive **SKYSMART** Features

With over 50 years of building the Nomad, we've learned a few details about what you look for in a camper. We listen, it's the little things that count. SkySmart features are practical touches, **exclusive to Skyline RV products**, to make your family's camping experience easier, safer and more enjoyable.

Recessed range

Space is always a premium and counter space is no different. The recessed range with cover allows consumers to utilize that space when not in use. This is far more convenient and practical than traditional sink covers, because the sink is used far more often than the stovetop.

Slide out picnic table

There is never enough room on the picnic table at the campsite. Every Nomad comes with a slide out table for food preparation and your convenience.

Single bowl sink

A large basin is far more practical for campers than double sinks. The large sink makes washing cumbersome pots and numerous dishes simple. The recessed range with cover provides additional space for drying as well.

Outdoor kitchen with grill and slide out table

Enjoy the great outdoors all day with the outdoor kitchen. Maximize the outdoor space with an all-weather, folding table that stores securely in an exterior compartment when not in use. The outdoor grill also provides another option for campground cooking.

SkyTotes

SkyTotes provide campers a storage space that is large and organized. The storage bins allow for organized storage in an easy-to-access compartment under the bed. It's easy to load/unload the SkyTote in the house then bring it out to your Skyline, plus it will keep clothes and camping gear from getting lost under the bed.

Bunk stair system

Most RV ladders are too narrow and steep for small children. The pullout bunk stairs give kids a larger, wider foothold and the carpeted stairs mean less scraped knees.

Since 1960. Innovation, Always in Style.

Family Rooms

All Nomad floorplans have family rooms ready for relaxing. Large entertainment centers with flat screens, comfortable sleeper sofas and dinettes are just a few choices. Bedrooms with full privacy walls and doors are available on most models.

Kitchens

From island kitchen floorplans to galley arrangements, Nomad kitchens are fully equipped with quality appliances and plenty of storage to feed the largest family. Large food storage pantries are standard on most models.

Bedrooms

Whether you choose a one-bedroom floorplan with standard queen sized bed, or a two-bedroom bunkhouse/guest model, comfortable sleeping with loads of storage awaits your family. Roomy, 80-inch beds are standard on all floorplans.

Standards and Options Nomad & Nomad XL Edition

Bedroom

- 60" x 80" bed
- SkySmart bed base with 8 baskets (4 large / 4 small)
- SkySmart bunk tote system for all bunk room models
