"The Keystone Raptor 423 Toy Hauler was definitely a win in our book, the biggest reason being the floorplan layout. There are so many reasons that we chose this RV, the roomy kitchen and living space, the 5500-watt generator, the outdoor kitchen with mini fridge, grill, and TV, having 6 tires for extra support, and the interior and exterior design. I could go on for days on why we chose this make and model but I think you can see that there are tons of reasons, check it out for yourself you will be pleasantly surprised!"
