Arctic Fox Campers Always Lead The Pack!

Built to withstand off-road use without leaving behind the comforts of home, the Arctic Fox Camper is the most innovative truck camper on the market today. For years, Northwood has been the industry leader with the truck camper slide-out concept and this year is no exception! With the launch of our Silver Fox aircraft style superstructure, our Transverse Floor, and our deepest slide out yet, we plan to continue leading the industry in innovative slide out camper engineering. Like all Arctic Fox Campers, these new Foxes are durable enough for extended cross-country and off-road travel. The availability of a Full-wall slide-out in all models is a trade mark of the Arctic Fox.

We build our slide outs right, using dual rack and pinion slides (while many competitors rely on a single slide mechanism.) Heavy duty rollers carry the slide-out allowing the room to move smoothly. Five separate seals insure against water intrusion. The slide room is completely insulated for your comfort in all weather conditions. You have your choice of three beautiful interior decor colors. Feature fabrics enhance the solid oak hardwoods and textured wall boards. We use only commercial grade vinyl floor covering and you also have the option of a removable carpet kit.

Bigger is Better! - Bigger SlideOuts & Bigger Floors!

Arctic Fox is a leader in full wall slide out truck camper design. We are proud to bring you a variety of big slide out camper options. Our full wall slides are up to 26" deep, (bigger than most of our competitors). Our Aluminum super structure slide can operate under heavier load conditions than others too.

When you compare the specifications of our slide out with the competition, you will see why Arctic Fox continues to be the leader. Our transverse floor structure allows us a wide main floor area. The Arctic Fox Camper has a spacious feel that is immediately apparent when entering the coach.

Available In These Color Palettes

Cocoa

Frost

Brentwood

Curtian folding wall is standard with all Arctic Fox Campers.

Dual Ram Gear Driven Slide Assembly in All Slide Outs

Optional Front Window in Bedroom Suite and Diamond Plate on the Cab Over

Some features are not available on certain models, see your authorized dealer for more information.

Northwood Manufacturing reserves the right to modify options, change feature availabilities and plan configurations at any time.

Northwood manufactures it's coaches with many of the popular options that our customers normally request. The vast majority of our customers request these options so unless otherwise specified, our regular manufacturing runs will include all of these 'most popular' features. You will find these items designated with an "I" in the options chart above.

Plenty of Sleeping Accommodations

Warm, Spacious, Quiet & Comfortable all of these words describe the bedroom suite in The Arctic Fox Camper. The suite features a deluxe queen-size mattress with coordinated bedspread and window valance accents. The sleeping area is equipped

with an expanding curtian wall between the main cabin and sleeping area providing privacy to both sections. The bedroom also has plenty of headroom for entering and exiting the main cabin. The dinette in all Arctic Fox Campers also converts to a comfortable additional sleeping area for kids or guests.

Roll-Over Dinette / Lounge

In this option, our removable table in the slide out allows the lounge to roll-over and convert to an extra sleeping area.

Slide-Out Overhead Bunk

With this configuration, hinged interior panels fold down from the upper wall and ceiling to convert into an additional bunk bed over the dinette creating a perfect great extra bed for children or smaller adults. (#150 weight limit on the upper bunk.)

Fox Camper Safety Tips

Truck manufacturers state that you should not exceed the GVRW for the vehicle that carries your camper. The configuration of your truck will determine what size camper your vehicle can carry. A dual rear wheel truck is advisable for Arctic Fox Campers over 10 ft.

Some states allow passengers to ride in the camper, but it is not recommended as there are no seat belts available.

Use camper guides to help you easily load to the center of your truck for balance and safety.

Use **TORKLIFT** frame mounted camper tie downs for greatest safety.

www.torklift.com

Silver Fox Edition Models are Aluminum Framed

- * Larger Tank Capacity - All Tanks are Enclosed, Insulated, & Heated (A True 4 Season Coach). (46gal. Fresh, 35gal. Gray, 40gal. Black- Most Models)

Thick Wall Aluminum with Fully Welded Joints

We Don't Just Stand Behind Our Campers...

...We Can Stand On Them Too!

Your Arctic Fox Camper Dealer is:

Adjustable air bags will help to level your vehicle transfer rear axle weight forward for comfort and safety and are recommended for all Arctic Fox applications.

For your safety while driving, use mirrors that allow you to view past the camper to the rear on both sides. Trucks can be purchased with extended mirror options or you may purchase mirror extensions.

When driving in any adverse weather condition it is always best to reduce your speed.
