R•Pod is the #1 **FASTEST GROWING RV OWNERS GROUP!**

Growing and building the **R•Pod** Owners Facebook Group has been a passion project for more than twelve years. Having the opportunity to interact with so many amazing people who've all come together because of our love for camping and the **R•Pod** is priceless. I'm honored to be a part of it all and am always ready to support our Owners. It has been the longest, craziest, most rewarding camping experience I've ever had in my life and I'll never be able to express how much it all means to me.

Our **R•Pod** Rallies are phenomenal experiences not to be missed. Amazing food, demos and tours of our Pods, fun games and activities, and our fabulous hosts recommending the must-see sites in their area, are just the beginning. As night settles in you can find campfires and stories being told all over the campground. Rallies can be big or small—a few Pod Owners locally meeting to get to know each other or hundreds of Pods showing up from all over North America. We'd love to plan and organize even more events each year and I would love to travel to each and every one of them to support Forest River and our Owners.

Our community is about bringing all of our owners together in one place so we can share the knowledge, photos, and stories of all of our combined trips in a friendly and welcoming place. There is more to owning an **R•Pod** than just having an amazing camper, it welcomes you and your family into the friendliest and most helpful RV community anywhere. It's great seeing that we have 31,000 members and Owners supporting one another, but we want to reach even higher and find as many **R•Pod** Owners as we can and have them join us so they can share in the fellowship and help that we provide. We'll continue to expand our reach and presence in representing the Forest River **R•Pod** for years to come. I can't wait to see what the next twelve years bring.

Sincerely,

Travis Mattingly
R•Pod Owners Group Admin

. . . . with AZDEL composite panels ***“ONBOARD.”***

Azdel's proven technology has been used in RVs since 2006.

AZDEL Composite Panels have been used in RV exterior and interior sidewall, ceilings, and roofs since 2006.

AZDEL Composite Panels are constructed using a blend of polypropylene and fiberglass to create a strong, lightweight, quiet, water resistant, temperature resistant, odorless and environmentally friendly wall that will increase the life of your RV.

For over 15 years, r•pod's iconic design has been the perfect example of "form follows function." With its unique shape and robust construction, r•pod offers travelers an exclusive combination of features and towability with a variety of floorplans all under 5,000 lb.
