HIGH-PERFORMANCE AIR FLOW SYSTEM

BLADE™ HIGH PERFORMANCE AIR HANDLING SYSTEMS

Engineered to maximize the output from today's high-performance RV air conditioners, Keystone's NEW patented air handling system delivers an average of 20% more cooling power and is built to withstand the rigors of the road. The Blade™ system is designed to accelerate air flow, eliminate leakage and failure points, deliver 360° circulation in the cabin, and withstand environmental and road stressors that lead to reduced performance.

INTRODUCING THE ALL-NEW SIGNATURE SERIES BY AMY GRAY

Simply put, there is not another brand in this segment that delivers more quality features, more innovation, and more value than Keystone Cougar. Keystone's buying power and Cougar's relentless pursuit of delivering exceptional luxury fifth wheels and luxury travel trailers has driven this brand to introduce ground-breaking innovations like OTG solar power and iN-Command, as well as first-in-class floor plans including last year's award-winning 364BHL and the 316RLS.

This year, Cougar introduces an all-new Amy Gray Signature Series interior, the creative force behind one of the most successful interior redesigns in Keystone history. Aimed directly at the style sensibility of new and evolving buyers, Cougar's new Driftwood interiors feature a modern rustic design with vintage-inspired antique white cabinetry, geometric details, and smoked glass panels. Rough hewn wood accents ground the look, connecting with campers' affinity for the natural world.
