

I PREFER TO CARVE IT.

29RQ

When you think about it, skiing is really a pretty simple concept: You go up the mountain, and then you come back down again. But there's much more to it than that. There's a thrill you get when you're standing at the top of a mountain that you just can't find anywhere else. And skiing offers something for all ages, shapes, sizes and styles. There's more than enough room for snow-plowers, mogul skiers, black-diamond skiers and snowboarders.

While there are many ways to go down the mountain, more and more people are discovering there's only one way to

go to the mountain — the Itasca® Suncruiser®. Over 35 years of Winnebago® Industries' experience has been poured into each and every Suncruiser, resulting in unmatched

construction strength and unbeatable comfort. And Suncruiser's high storage design means there's plenty of room to take everyone's skis, poles, boots and bags. Suncruiser. Just imagine the fun you'll have.

The front end has a large wraparound windshield mounted in steel for safety and a tinted shade band for added protection from the sun.

The available entertainment center includes a removable table, AM/FM cassette, speakers, outlets and TV connections. The lockable compartment protects all components.

A color coordinated awning is available to protect you from the hot sun or cool rain.

34RQ

The slideout incorporates an automatic cover and a full-view window awning. The cover prevents debris from falling on the roof and helps the awning block out the sun's heat.

Itasca's new solar panel is an extraordinary available feature created to extend the useful life of the RV battery(ies). The 10-watt solar system trickle charges the

No need to bring the dirt inside. Suncruiser has an exterior wash station for cleaning up at the end of the day. It provides access to hot and cold water and a pump switch.

Large, locking, pass-through compartments are ideal for storing luggage and more.
The carpeted flooring, rubber gaskets and steel construction protect contents from the elements.

29RQ

ONE TRIP DEEP SEA FISHING

AND I WAS HOOKED.

Fishing in a lake and fishing in an ocean are about as much alike as church softball and the big leagues. Imagine reeling in a 250 pound largemouth bass and you start to get a picture of what deep sea fishing is all about. But it isn't just the fish that are bigger. The boats are bigger, the wind and waves are bigger and even the rods, reels and lures are bigger.

The difference between Suncruiser and other

high storage Class-A motor homes is a lot like comparing deep sea fishing to fishing in a pond with a cane pole — there's just no comparison. Take, for instance, Suncruiser's available slideout living area. This revolutionary addition slides out in under 20 seconds to offer increased living room. It's just one of the many innovations that make Suncruiser stick out from the crowd. Once you see all it has to offer, you can't help but get hooked.

The custom-built available slideout design allows for ample lounge space and maneuverability — even when closed. The raisedpanel overhead storage compartments beautifully accent the interior fabrics.

The innovative slideout feature is designed with your needs in mind. The added space provides increased comfort and efficiency to make the living area more inviting. The slideout is standard on the 37RW, available on the 34RQ and 34RQ pusher.

Some days you just can't win. On the first hole it's your driver that won't work. On the second, it's your putter. And just about the time you figure out those two clubs you start having trouble with your irons. And those are just your clubs. There are also doglegs, water hazards, out of bounds, sand traps and small greens to contend with. No, golf is not an easy game. Maybe that's why it's so much fun.

Just when you're starting to think the problem may be the course, Itasca provides a solution. The 1995 Suncruiser. Imagine the possibilities. When you've had a bad round, throw your clubs in a large exterior storage bay, conveniently misplace your scorecard and move on to greener fairways. But remember, don't wear your spikes while driving a motor home and always replace your divots.

The available six-way adjustable driver's seat enhances the ride by providing more comfort while on the road. The seat swivels and slides to add a new dimension to the lounge area and comes with a lumbar system to support your back.

Space is not a problem in the new Suncruiser. The available slideout feature extends the lounge area for plenty of entertaining space. Windows on the slideout's three walls provide an expansive view of the great outdoors.

Whatever your cooking needs are — from a sandwich to a three course meal — the Suncruiser's galley allows you to prepare food with ease. Standard features include a four-burner range top, touch-control microwave oven, large double-door refrigerator/freezer and stainless steel sink.

The 34RQ features a unique slideout hamper for added convenience.

The available 9" color television rests in a bedroom cabinet on the 34RQ.

Surrounded by windows, the bedroom's bright interior is beautifully coordinated with handcrafted woodwork and wainscoting. The Sealy® innerspring queen size mattress is fully appointed with matching bedspread, pillows, pillow shams, and throw pillow.

To make packing easier, Suncruiser features a large wardrobe for hanging clothing. It's designed with carpeted flooring, a light and a mirrored door.

The well-designed bathroom uses every available inch to offer the most storage and convenience. Standard features include makeup lights, medicine cabinet, large rectangular sink, single-piece shower, tissue holder and towel ring.

34RQ

MY BOAT'S HAD THE SAME ENGINE

FOR OVER TWENTY YEARS AND IT'S

NEVER RUN OUT OF FUEL.

In this high-tech world of e-mail, computers and instant cash machines, it's nice to see something that hasn't changed much over the years.

The basic concept of sailing is the same as it's always been — catching the wind. Just about the time other boats are heading in for the day because it's too windy, sailboats are heading for the open water. Eager for another day of riding the wind.

For some, a day on the water is the next best thing to — well, a day in a motor home. Everybody needs to come to land sometime, and when they do, Suncruiser is ready and waiting to welcome them home. Our twentysix floorplan combinations mean there's a model that's perfect for just about anyone. And our wide range of available features allows travelers the opportunity to custom design their Suncruiser. There's never been a motor home quite like this before. And that's precisely why Suncruiser is so popular.

The angled galley design on the 29RQ offers all of the comforts of home. Vinyl flooring is available throughout the kitchen and bath to provide a durable, easy-to-clean surface. To assure great drinking water, an advanced water purification system comes standard on every Suncruiser.

To make sleeping comfortable, both the couch and dinette convert to beds. This feature provides additional sleeping space for up to four persons.

29RQ

Itasca created everything in the Suncruiser to fit the traveler's needs. The overhead storage is ideal for stowing food, games or clothing. Large picture windows are tinted to protect your eyes and the interior from the bright sun.

LAST WEEKEND I GOT TOGETHER WITH MY FAMILY. IT WAS NICE TO FINALLY MEET SOME OF THEM.

Take a pinch of horseshoes, volleyball and croquet. Add in a dash of barbecue, several large portions of desserts and a complete family tree and you have all the ingredients for a full-blown family reunion. After all, reunions are one of life's more memorable events. It's always fun to meet distant relatives and find out how you're related. You can learn things at a family reunion that you just can't learn anywhere else. (Like Aunt Arlene's famous pumpkin bread recipe.)

An unbelievable amount of storage is located under the bed for extra towels, blankets, or clothing. Gas springs make accessing the storage easy (prop rods on 34RQ pusher).

The available VCR and switching system allow video viewing on either the front or available rear TV.

While Suncruiser won't hold an entire family

reunion, it will hold quite a few people comfortably. The driver's area is roomy and

well-equipped. The galley features everything

a gourmet needs in a kitchen. The living

area is the perfect place to relax at

the end of a long day. And, of course,

Suncruiser features a nice, comfortable

bedroom. Because no matter how large or

small your extended family is, someone is bound

to end up sleeping on the floor.

Itasca took special care to make the bathroom perfect. It features wood-doored cabinetry, makeup lights, towel ring and extra counter space.

The shower is designed with molded single-piece walls, a flexible shower head and a textured glass shower door (29RQ & 37RW).

Large Sealy® innerspring mattress, TV stand, wainscoting, matching bedspread, pillow shams and throw pillows are some of the features that make the bedroom so comfortable and charming.

1995 SUNCRUISER SLIDEOUT

Our new slideout is approximately 13' long with a 36" extension. To utilize the slideout after arriving at your destination, simply turn the ignition switch to the accessory mode, deploy the leveling jacks and push the momentary switch to extend the room. Within 20 seconds, you have an addition to your motor home. The room and slide system are covered for 3 years/36,000 miles. This feature is available on the 34RQ, 34RQ Pusher and standard on the 37RW.

chassis

structure

An innovative racksensing value automatically adjusts pressure to the hudraulic supports to assure a smooth extension and retraction of the slideout.

The HWH® bi-axis leveling system is designed to level the motor home with a minimum of frame rail twist. With the use of this system and Itasca's state-of-the-art locking device, our room extension maintains a tight seal.

The weight of the sidewall is fully supported by the floor structure through the design of a unique joint lock.

Steel appliance tie-downs

Steel cab, dash & floor

mounted in steel

Large, steel storage compartments

Aluminum underbelly

Full welded aluminum sidewall and roof structure

Solid steel foundation welded to chassis

Rust-free aluminum rear bumper

The roof incorporates a similar locking joint to secure it to the sidewall. Its crowned, overlapping design promotes excellent water run-off.

PICK AND CHOOSE FROM

26 FLOORPLAN COMBINATIONS.

29RQ

A variety of seating options are available to suit your needs. The efficient, angled galley design puts appliances at your fingertips. Choose from either the queen bed or twin beds.

32RQ

The large wardrobe is placed directly across from the bathroom for added convenience. Dining area offers you the choice of a comfortable dinette or dining table and chairs.

34R0

The innovative slideout drastically increases the overall floorplan square footage. Rear twin beds are available with either the standard or slideout configuration.

34RA

This unique side aisle design provides more privacy in the bedroom and two entrances to the bathroom; one from the bedroom, the other from the galley. This floorplan comes with a beautiful corner hutch.

34RO PUSHER

The rear diesel increases power, prolongs engine life and rides quieter than the standard 34RQ. All this with the same efficient use of space and an available slideout that extends with the push of a button.

SANDSTONE

Main Fabric Accent Fabric Carpet

MULBERRY

Main Fabric Accent Fabric Carpet

37RW

Store more with three wardrobes, one linen closet and a handy pantry. The swiveling driver and passenger chairs extend the standard slideout's benefit further to offer an abundance of entertaining space.

- † The height of each model is based on the curb weight of a typically equipped unit on the standard chassis. The actual height of your vehicle may vary by as much as 2" depending on chassis or equipment variations.
- * Not all options available in combination. See dealer for details.

Winnebago Industries' continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice.

NOBODY DOES MORE FOR YOU

DOWN THE ROAD.

ITASCA - Itasca motor homes are named after the source waters of the Mississippi River in Northern Minnesota's Itasca State Park. Itasca, derived from the Latin phrase *Veritas Caput*, means "True Source". Itasca motor homes are the perfect vehicles to carry the Itasca name because they're the "True Source" of fun, adventure and family togetherness.

FACTORY/DEALER - Itasca motor homes are built to exacting standards in our Forest City, lowa, factory; the most advanced RV production facility in the industry. The majority of

components found in Itasca motor homes are manufactured here - from the welded steel cabs and coach floor support structure to the Thermo-Panel® sandwich wall and roof structure. This is one reason why Itasca motor homes have developed a reputation for superior fit and finish. Stop by your nearest dealer and take a look at the complete line of new Itasca motor homes. Free tours of the factory are available

year round. Please contact your dealer or call Winnebago® Industries at (515) 582-3535 for more information.

warranty/Preferred Care - Down the road, factory support is never far behind. Twenty-four-hour emergency road service pays for towing to a factory authorized dealer at no cost to you. With over 20,000 locations across North America, quality assistance is just a phone call away with our Preferred Care Program. Plus, our warranty program is one of the most comprehensive in the industry, starting with the 12-month or

15,000-mile protection. In addition, structural components are covered for 36 months/36,000 miles. Furthermore, a 10-year limited warranty protects the roof and walls.

As if this wasn't enough, a one year membership in the Winnebago Industries Preferred Care Program is

included with every 1995 Itasca motor home. After the first year, membership in the Preferred Care Program can be extended through membership in the WIT club.

engineers than safety. That's why Itasca motor homes are loaded with safety features throughout including 3-point safety belts, a solid steel foundation welded to the chassis, a steel cab, dash and floor substructure, and a windshield mounted in steel.

will - If there's ever been a club on the move, this is it. In addition to giving old and new friends the perfect excuse to get together, the Winnebago-Itasca Travelers (WIT) Club provides Winnebago Industries motor home owners with an outstanding magazine and important services like professional trip routing and mail forwarding. For more information on the WIT Club see your Itasca dealer or call (515) 582-6874.

When you join the Winnebago Motorsports Team you'll be right at home at racing events across America. Itasca motor homes are part of the Winnebago Industries family of motor homes that have been designated the Official Motor Homes of and are closely associated with several NHRA drag racing teams. Also, a growing number of NASCAR and NHRA drivers are involved with the Winnebago Motorsports Team. Motorsports member enjoy many benefits including a quarterly newsletter, a racing merchandise catalog and the opportunity to participate in special on-track events at selected races.
