 Interior: 29VE Pinnacle with Coffee-Glazed Vienna Maple Cabinetry

This brochure features the Vista 29VE Floorplan

Stepping up to
 Class A living
 has never
 been easier

Designed, engineered, and built to our legendary quality standards, the Winnebago® Vista® lets you enjoy the integrated layout of a Class A motorhome at a very advantageous price point. With a long list of standard and available features – including MCD roller shades, LED lighting, Primera®-covered furnishings, powered patio awning with LED light strip, and a new

powered front shade – your Vista is ready to take you practically anywhere in comfort and style.

Four slideout-equipped floorplans mean you can select the perfect Vista for your family's size and needs, while the available powered StudioLoft™ bed up front provides added sleeping capacity.

Vista | Lounge

With plenty of Primera®-covered seating (including swivel cab seats), the Vista's spacious lounge is an ideal gathering place at day's end. The large dinette is perfect for games, while the satellite-ready 39" HDTV can make any night movie night. Tinted windows with MCD blackout roller shades put both great visibility and privacy at your fingertips.

Dinette Storage

Vista | Galley

The fully equipped Vista galley has everything you need to feed the troops. The two-door refrigerator/freezer keeps things cool, while the three-burner glass top range with oven and the microwave handle cooking duties. The stainless steel double sink offers plenty of room for cleanup. Two convenient pantries (29VE) make it easy to stock up for the trip.

Every Vista features a walkaround queen (29VE, 31BE) or king (27PE, 32YE) bed with nightstand or bedside storage. An available HDTV helps turn the master bedroom into a cozy retreat. Additional sleeping options abound, thanks to the comfortable sofa/bed, available powered StudioLoft™ bed, and bunk beds in the 31BE. A skylight makes the spacious bath seem even roomier, and a genuine textured glass shower door (the 27PE has a retractable screen instead) adds an extra touch of luxury.

Settle into the Vista cab and take command. Comfortable Primera cab seats feature two-position armrests, lumbar support, and multi-adjustable slide/recline/swivel functions for ideal comfort on the road or in camp. The rearview monitor system, which includes a 6.2" LCD color touch screen monitor, Bluetooth®, and rear color camera, (available sideview color cameras) is compatible with Apple® and Android® devices.

Powered Patio Awning

The Vista makes outdoor living easy. Large lighted storage compartments keep your toys organized and close at hand. The powered patio awning with LED lighting provides shade and shelter at the touch of a button, while the available entertainment center with 32" HDTV and speakers (39" HDTV on the 29VE) lets you take in a movie while you're enjoying the breeze.

Interlocking Joints Specially engineered interlocking joints connect the floor, sidewalls, and roof where competitors often rely on simple screws to bear the weight.

Laser-Cut Tubing Precision laser cutters create precise joints in structural steel that are stronger and require less welding.

Fiberglass Roof The one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

Solid Framework Structural extruded aluminum creates an extremely strong and solid frame.

Thermo-Panel® Sidewalls By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry's strongest, most durable, and lightweight sidewalls.

Embedded Steel Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.

E-coating An electrodeposition coating helps protect critical steel components.

**SUPER
STRUCTURE**

BUILT TO LAST

From our smallest Class C coach to our largest diesel-pusher, coaches are built to Winnebago's legendary SuperStructure® construction design. It's a process developed and refined over more than 60 years of building some of the strongest, most durable coaches in the industry.

Kenny and Sabrina Phillips

Several years ago, it seemed like the only time Kenny and Sabrina really had together was on vacation. So Sabrina, a pulmonary/critical care physician who travels to different locations for work, and Kenny, a small business owner, decided to downsize and simplify.

Kenny sold his business and they became full-time RVers in their Winnebago Vista® LX.

As they put it, “We have laughed, loved, and experienced more in the last 12 months living in our Winnebago than we have in the last nine years.”

You can learn more about Sabrina and Kenny at WinnebagoLife.com. You'll also find hundreds of other great stories from GoLife's outstanding contributors along with how-to articles, gear reviews, RVing tips, and much more.

36-month/36,000-mile limited warranty on structure⁸

10-year limited parts-and-labor warranty on fiberglass roof skin⁸

FOOTNOTES

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
- Floorplans feature a wide-body design - over 96" In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.
- Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- See separate chassis warranty.
- See your dealer for complete warranty information.
