

MEET THE NEW **ROAM** OPEN CONCEPT

The all-new Roam OC introduces a fresh and spacious open-concept interior to the proven comfort and convenience of this versatile RV.

Ram® chassis delivers power & safety

The Roam OC is built on the best-in-class Ram™ chassis. In addition to ample power, superb handling and fuel efficiency, the package delivers innovative safety features, including rear camera and cross-wind assist.

More space. More convenience.

Enjoy the benefits of a true open-concept environment, with more space than traditional camper vans. It's the perfect choice for those who prefer a more open feel while traveling. And storage solutions and controls are all designed for easy access.

Bathroom: it's a big deal

Say goodbye to the stress of searching for a clean restroom while on the road. The innovative open-concept approach continues with a bathroom that's larger than that found in most camper vans, complete with an integrated shower and cassette-style toilet.

Sleeping is a Dream

Relax in comfort with the powered sofa that, with a push of a button, converts into a comfortable bed for a short nap or long night's sleep. Need more space for the fam? Go with the RZ model, which features a larger bed, or the optional pop-top to comfortably sleep two more.

Gourmet. To go.

The Roam OC gives you the space – and appliances – to easily prepare all your favorite food. The intelligently designed galley is appointed with refrigerator, microwave and sink, along with an outlet for an additional appliance.
