

THE BEST GETS BETTER.

Innovative designs. Seven distinct models. And more standard features than ever before. It's no wonder the Itasca Suncruiser is our best-selling Class A motor home. Every model is created with our SmartSpace™ design philosophy that encourages innovation to make the most of interior space,

including an impressive 7'2" interior height. This is especially evident in the new 38T that features a forward-galley layout and an entertainment center with an available electric fireplace. If you want the best in Class A comfort and amenities, you'll find it in the 2006 Itasca Suncruiser.

START LIVING.

Bring the latest in home entertainment with you wherever you go.
Suncruiser comes with a 27" Sony® flatface TV, a DVD/VCR combo and Sony Home Theater Sound System that rivals high-end residential systems.
An available in-motion digital satellite dish captures satellite programming while you're on the road. Add the 600-watt inverter and you'll have power even when you're not connected to a shoreline source or generator.

This year, the 38T joins the model lineup with more square feet of living space than ever before. The Home Comfort Plus Package comes standard on all models, providing an auxiliary automotive heater, insulated power roof vents and a heat pump that warms your coach without using the LP furnace.

ENTERTAINMENT CENTER
Four models feature a stand-alone
entertainment center. Cozy up to the
electric fireplace (available 38T) in the
relaxing hoop-base reclining chair.

Lounge AS YOU PLEASE. Furniture options include the A) J-lounge with power recliner (38J, 38R only), B) Hoop-base lounge chair that can be moved to your favorite location when the coach is parked and the C) available Rest Easy® multi-position lounge that glides from a couch to a recliner to a comfortable bed at the touch of a button.

FULL-EXTENSION DRAWER SLIDES Every drawer is 100% accessible.

AN INVITING GALLEY.

Stainless steel appliances accented with indirect lighting create a galley that is as stylish as it is functional. You can cook almost anything on the three-burner range or in the microwave/convection oven with range fan. Plus, plentiful cabinet and drawer storage with full-extension slides holds all your food and supplies. The refrigerator/freezer can be upgraded to a four-door model with an icemaker. A slideout pantry is standard.

Depending on the model you select, you'll be able to choose between a freestanding dining table, BenchMark™ dinette or the innovative multifunction table that doubles as a computer desk. There's a table to fit every lifestyle.

GALLEY Upscale features are plentiful, including solid-surface countertops with a flip-up extension (NA 38T) and a water filtration system with a dedicated faucet. Full-extension drawer slides let you get at all your stored goods easily.

BenchMark This full comfort dinette features innerspring cushions, large, easy-to-use flip up storage compartments and a child safety-seat tether. It even converts easily into a comfortable bed (NA 38J, 38R).

DINING TABLE A freestanding table comes in a round or oval design, offering a more residential dining experience (Available 33V, 35A, 35U, 37B, 38T. Standard 38J, 38R).

A BETTER BEDROOM.

A standard slideout allows for a spacious bedroom with plentiful storage and a queen-size walk-around bed. And if you like to catch the news before bed, you'll appreciate the 20" flat-face TV in the bedroom (24" in the 37B). The TV is wired to the front video components, which can be operated by remote from the bedroom. A rear stereo system is also available, including AM/FM radio, CD player and alarm clock.

The bathroom has a spacious design that allows for more storage and an abundance of residential features. In the shower, you'll notice the temperature remains constant even if the water pressure fluctuates, thanks to the Moen Posi-Temp® valve.

An available shower upgrade package provides a fold-down shower seat and a handheld showerhead.

WASHER/DRYER Do laundry in the comfort of your motor home when you add the washer/dryer combination (NA 33V, 35U).

SLEEP NUMBER BED The available Vantage Point Sleep Number® Bed by Select Comfort™ includes digital hand controls that let you quickly adjust the firmness of each side of the mattress to your Sleep Number — the Key to a Perfect Night's Sleep.™

DRIVE SAFELY.

Suncruiser puts you at ease behind the wheel with navigational features like the available rearview monitor with one-way audio and an electric compass with a built-in outdoor thermometer. You can also add a GPS system and the new video camera system that allows the driver to view both sides of the coach through the rearview video monitor.

The driver will also enjoy the convenience of available powered sunvisors, map lights and the RV Radio. This popular stereo system includes AM/FM radio, CD player, weather band and two remotes: one mounted to the steering wheel and one handheld remote for use when parked. The radio is ready to be enhanced with Sirius Satellite radio, providing over 120 channels of digital programming with no signal fades. This option includes a complimentary six-month subscription.

*Sirius Satellite radio not available in Canada.

DASH Designed with ergonomic styling, the dash places controls right at your fingertips, including a steering wheel remote for the RV Radio.

TRUEATR The TrueAir" residential central air conditioning system cools 40% faster and runs 10% quieter than roof airs. The key is a Coleman®-Mach® cooling unit located in the basement for a lower vehicle profile.

WURKSTATION Great for a laptop computer and it slides forward to access the storage compartment.

ONE PLACE

This complete systems center places frequently used switches, gauges and controls in one convenient location.

POWERLINE® This energy management system monitors electrical usage and automatically cycles appliances on and off to prevent power overloads.

TRUELEVEL To eliminate the guesswork, our exclusive TrueLevel holding tank monitoring system incorporates Mirus™* detector cells that detect liquid levels from the outside of the tank. No internal probes mean no more corrosion or clogging, just accurate readings time after time.

*Mirus is a trademark of Material Sciences Corporation.

LOOK SHARP.

You'll turn some heads at the campsite when you pull in with an Itasca Suncruiser sporting one of the available full-body paint schemes and newly styled front and rear caps. If you want to bring a car along, the 5,000-lb. hitch with seven-pin wiring connector is up to the task. The side mirrors have a breakaway design that provides extra clearance at the campground or for storage.

Once you've settled on a spot, the hydraulic leveling jacks with available automatic controls will level your coach in seconds. You'll be relaxing beneath the awning in no time and protected from the sun by the available awning sunscreen.

Hookups are a snap in the service center featuring colored labels and the QuickPort® service connection hatch. QuickPort holds the hose and cords in place while allowing the bay door to fully close. The service center also contains a wash station, electrical center and a connection for a portable satellite system.

STOREMORE Exterior compartments extend with the slideroom for easy access to your belongings thanks to the StoreMore slideout system. New for 2006, enjoy increased height on storage compartment doors with gas struts that open effortlessly.

EXTERIOR ENTERTAINMENT DENTER Includes a CD player, AM/FM radio, two speakers, 12-volt powerpoint, 110-volt outlet, TV jack and a removable table.

SERVICE CENTER Spend less time hooking up your Suncruiser by using the QuickPort service connection hatch and QuickConnect® coupling valve. QuickConnect even includes its own holster for storage.

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
- 2 Suncruiser floorplans feature a wide-body design over 96." In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- 3 The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.
- 4 Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- 6 Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- 7 See separate chassis warranty details provided in Owner's Manual.
- 8 See your dealer for complete warranty information.
- NA Not Available
- S Standard
- O Optional

Not all items available in combination. See dealer for details.

Winnebago Industries® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available.

Built by Winnebago Industries. Built to last.

Itasca motor homes are built by Winnebago Industries, the company that defined motor homes. The company that built its reputation on quality construction. The company that transformed the motor home concept into a way of life.

Today, Winnebago Industries brings that reputation for quality and its 47-year history of motor home innovation to the design and construction of every motor home. It's all a part of SuperStructure, our exclusive system of proprietary structural components that instills each motor home with improved strength and durability.

and aluminum truss work provides a solid, flat foundation for floors and sidewalls. Winnebago Industries engineers also take special care to distribute the weight of components to ensure proper handling and stability.

INTERLOCKING JOINTS

The floors, sidewalls and roof are all integrally connected using interlocking joints. This creates a coach body that acts as a cohesive unit for improved strength and durability.

E-GDATING Winnebago Industries employs an exclusive 12-stage automotive-style dip tank process to apply an advanced electrodeposition coating on critical steel components for unmatched corrosion protection.

THERMO-PANEL® SIDEWALLS Invented by Winnebago Industries, Thermo-Panel construction combines a fiberglass panel, high-density, block-foam insulation and aluminum support structures to create some of the most durable, lightweight sidewalls in the industry.

FIBERGLASS ROOF Every Itasca motor home features a one-piece fiberglass roof backed by a 10-year limited parts-and-labor roof skin warranty.

ATTENTION TO DETAIL Whether it's sending every coach through a highpressure water tunnel to check for leaks or labeling each individual wire and barcoding parts to save time and frustration during service, Winnebago Industries considers every detail to ensure your Itasca motor home provides you with years of pleasure.

STRONG AS STEEL Appliances are secured directly to embedded steel plates for added safety. Windshields are also mounted in steel with an automotive-style sealant; lesser designs use a rubber gasket to mount the windshield in fiberglass.

BUILT TO A HIGHER STANDARD The Suncruiser features a crowned, onepiece fiberglass roof, backed with a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength, attractiveness and durability over the rubber roofs found on many competitive models which can chalk, streak and degrade over time. Fiberglass also provides increased puncture and tear resistance.

TAKE A TOUR We're proud of our process, state-of-the-art facilities and the people who make Winnebago Industries number one. We invite you to visit our factory in Forest City, Iowa, for a first-hand look at the dedication and technology behind every motor home we build.

RECIGNIZED QUALITY The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle award to manufacturers who provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer to receive this award every year since its inception.

COMMITTED TO SERVICE We back our motor homes with the industry's best service after the sale.

- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile warranty on structure
- Standard 10-year limited parts-and-labor roof skin warranty
- Complimentary 24-hour roadside assistance program
- TripSaver Fast Track Parts. TripSaver guarantees that in-stock
- warranty parts ship directly to your dealer within 24 hours.

 National dealer service network

WIT CLUB Itasca owners are like family. Joining the Winnebago-Itasca Travelers is a great way to meet and travel with other Itasca enthusiasts. Members enjoy:

- Caravans and rallies
- Local and state group activities
- RV travel benefits
