# Itasca Horizon

An all-new line

Just a few of the standard kitchen amenities include solid surface countertops, a single control faucet with pull-out sprayer, an Everpure® water purification system with a separate galley faucet, and a Maytag® sealed burner range top. There's even a wastepaper basket in the galley — just another example of Winnebago Industries' commitment to creating a more home-like environment.

Living space inside the Itasca® Horizon® is maximized, thanks to the slideouts in both the lounge area and the bedroom. For easier access to storage space, Itasca Horizon's front slideroom incorporates Winnebago Industries' **STOREMORE™** Hydraulic Slideout System, allowing interior overhead cabinets and exterior storage compartments to extend with the slideroom for easy access. This interior space is neatly complemented by handsome woodwork, premium fabrics, carpeting and flooring, and comfortable Flexsteel® furniture.

One glance at the new 2000 Itasca Horizon's stunning front-end design and bold high-gloss exterior is enough to tell you that this motor home is worth looking into. Designed and manufactured by Winnebago Industries, the most well-known name in the RV industry, the Itasca Horizon incorporates the very latest advances in comfort, design and technology. We invite you to open the front entrance door and see for yourself. This is a motor home designed and built to a higher level.

Itasca Horizon's bathroom is comfortable and spacious, with solid surface countertops, a wall-mounted hair dryer, neo-angled shower with single control faucet, and a residential-height porcelain toilet.

# of bus-style diesel pusher motor homes.

For all-season comfort, Itasca Horizon incorporates standard dual-pane windows, and Winnebago Industries' innovative central air conditioning system — called **TRUEAIR** — which locates the air conditioning unit in the basement, not on the roof. The TrueAir central air conditioning system not only provides better air filtration, it also reduces clearance height and is easier to service as well. To make the most of TrueAir, and the other electrical features located throughout the coach, each model also features the **POWERLINE™** Energy Management System. This "smart" system monitors the electrical load and allows continuous use of the air conditioning system on 30-amp service.

Dining options include this extendible table and chairs or the available dinette booth with storage below.

Wider 4" handles make it easier to open drawers and doors. The drawer guides also include a positive locking feature to keep them secure while traveling.

The bedroom wardrobe slideout greatly enhances the dressing area by providing an incredible amount of wardrobe storage space. The residential queen size bed uses standard bedding. Additional features include a 13" TV, clock with alarm, directional reading lights and a decorative beveled mirror located on the backwall.

## ITASCA HORIZON DECOR OPTIONS

To assure their strength and durability, fabrics selected for use in the Itasca Horizon must pass a series of rigorous tests. Just one example is the "double rub" test, which mechanically simulates a person getting in and out of a seat up to 30,000 times. (This equates to nearly four times a day for over 20 years!)

An available washer/dryer unit makes traveling in the Itasca Horizon easier and more convenient.

For convenience, the well-planned walk-through bath area includes a private toilet area with window.

We take great pride in our commitment to building superior motor homes. And it all starts with our solid **SUPER STRUCTURE** construction. Outriggers and the support substructure are mounted to the chassis using an advanced laser alignment system to ensure a square foundation upon which to build. Interlocking sidewall and roof joints provide superior strength and excellent load bearing capabilities. The result is one of the strongest body constructions in the industry.

Itasca Horizon's sleek "bus-style" front-end includes an extra-large windshield for greater visibility. Exterior, heated mirrors are remote controlled and include top-mounted convex mirrors for better visibility and added safety.

For greater strength, ease of use, and beauty, Itasca Horizon is equipped with new frameless, fully insulated, flat panel compartment doors that feature gas spring supports and single paddle latches. The front slideout features our revolutionary **STOREMORE** Hydraulic Slideout System. For easier loading and unloading, lights are located within the StoreMore exterior storage compartments.

Itasca Horizon's well-appointed exterior includes large 22.5" diameter wheels and a full fiberglass rear cap. Our fiberglass roof won't expand or contract like rubber membranes and is strong and durable. So strong, in fact, it's backed by a 10-year limited parts and labor warranty. Power is supplied by the standard 275 HP Cummins® diesel engine or the available 300 HP Caterpillar™ engine.

## ITASCA HORIZON VALANCE COLORS

Exterior lower valance colors are Light Silver Metallic, suggested with Barbados and Calypso; and Plum Haze Metallic, suggested with Oasis. However, you may order either valance color, regardless of your interior choice.

Light Silver  
Metallic

Plum Haze  
Metallic

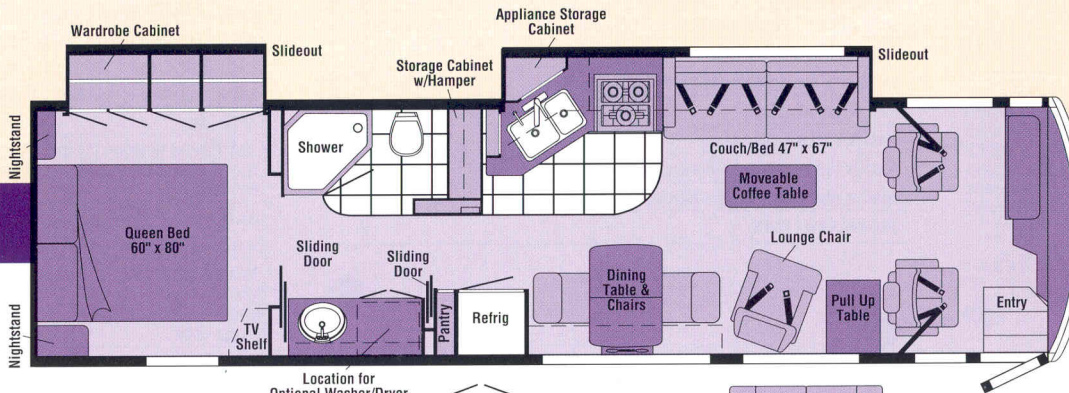

Our standard awning rail with integrated gutter does more than simply support the awning. It also channels water runoff from the roof to the front and rear of the coach, preventing it from running down the face of the awning.

# 2000

## Itasca Horizon Floorplans

34BD

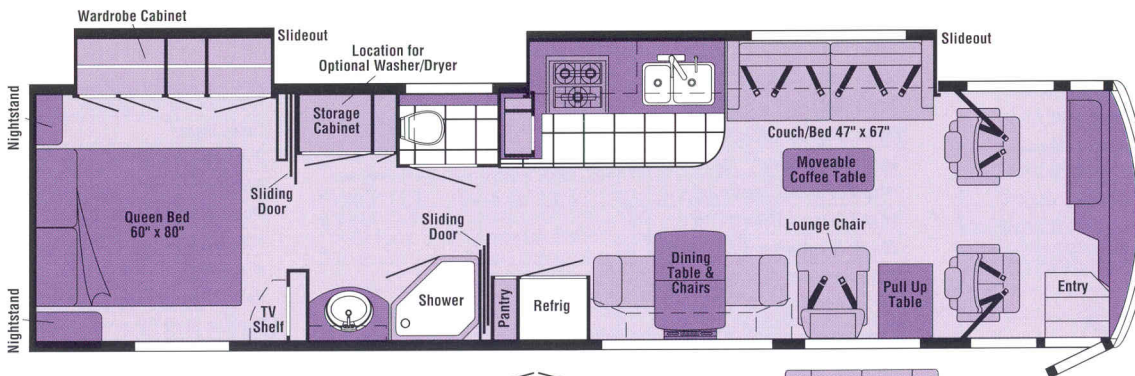

This 34' widebody floorplan features an angled galley/couch slideout, bedroom wardrobe slideout, lounge chair and table, and standard dining table and chairs. The bath area is a large walk-through design.

Standard Seat Belts

Standard Vinyl Tile Flooring

Note: Dimensions shown are for sleeping space only and dashed lines denote overhead storage areas.

36LD

This 36' widebody provides excellent livability, with features that include a galley/couch slideout with coffee table, and a bedroom wardrobe slideout that offers expansive storage space. The walk-through bath design with private water closet is another key feature.

△ The Itasca Horizon floorplans feature a widebody design – over 96" in width. In making your purchase decision, you should be aware that some states restrict access on some or all roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.

◇ Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.

• The height of each model is based on the curb weight of a typically equipped unit on the standard chassis. The actual height of your vehicle may vary by as much as 2" depending on chassis or equipment variations.

S Standard

O Optional

\* Not all items available in combination. See dealer for details.

∞ TV satellite system option does not include receiver or programming activation. Quality reception is only available in the lower 48 States.

\*\* See your dealer for complete warranty documentation information.

Winnebago Industries' continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available.

# Itasca Horizon

A Few More Details

## WIT Club

Membership in the Winnebago Itasca Travelers (WIT) Club is a great way to meet people and get even more enjoyment from your motor home. As an owner of a Winnebago Industries RV, you can join the Club and take advantage of some great services — like professional travel planning and mail forwarding — and participate in some great rallies and caravans. Call 1-800-643-4892 ext. 1 for more information.

## TripSaver

In a recent RVDA survey, Winnebago Industries was voted number one in the industry for service, parts, and warranty support by dealers across the country. And who would know better than the people who service motor homes? We believe a large part of our service success is due to our commitment to getting you back on the road as soon as possible after experiencing a mechanical emergency. That's why we created TripSaver. This industry-leading program guarantees that qualifying, in-stock emergency warranty repair parts will be shipped directly from the factory within 24 hours. Furthermore, a Winnebago Industries built part or component that is not in stock will be specially manufactured and shipped air freight.

**TRIP**Saver  
Emergency-Shipped Parts

## Warranty Protection

All new Itasca motor homes include a 12-month/15,000-mile basic protection plan, 36-month/36,000-mile warranty protection on lamination and slideroom construction and assemblies, and a standard 10-year limited parts and labor warranty on the roof. As if those aren't enough, we also stand behind most major appliances and equipment we install (a rarity in the industry) so you can count on the convenience of one-stop service for warranty repairs. It all adds up to some of the most comprehensive warranty programs in the industry backed by the most recognized motor home manufacturer in the world.
