When You Know The Difference

LUXURY HAS A NEW *Look*

When one's name is synonymous with opulence, one must dress the part. That is why King Aire has received a full makeover for 2017, including a reimagined exterior created in partnership with British designer *Carsten Astheimer*. But total transformation is much more than skin deep. Such is the inspiration behind King Aire's stunning new cockpit, which showcases contrasted cross stitching, a full LCD display and two 12.1" touchscreens. There is even an available passenger-seat monitor that allows your co-captain to provide turn-by-turn directions.
