GRAND LEGEND LEGEND-X

SURVEYOR

FIELD TESTED SINCE 2001

“DO YEARS IN BUSINESS AND EXPERIENCE BUILDING RV'S AT THE SAME FACTORY MATTER WHEN CHOOSING WHICH TRAVEL TRAILER TO PURCHASE ... WE THINK IT SHOULD!”

Aluminum Framing All Openings
Windows; No caulking required, saves time and up to \$100s annually! Best structural integrity in its class.

Best In Industry Pass-Through Storage
Oversized, clean finish: Slam Latch Baggage Handle, 3/4" Stab Jack Drill Bit, Motion Sensor Light, and Aluminum Bed base!

Congoleum Designer Carefree Linoleum
Designer Carefree by Congoleum sets a new standard for the recreational vehicle industry providing exceptional durability, contemporary design and installation flexibility unlike any other flooring available.

Wall Construction (R7, R9)
• Pinch roll laminated at 1600 PSI, 100% glue coverage. - Closed Cell Block Foam Insulated, optimum comfort.
• Air-Pressure Sealed Tested ensures maximum efficiency.

Extended Season Camping
• Underbelly: Lami Plast® Insulates floor, pipes, & tanks, forms a double walled layer pocket of air.
• Floor: 2" thick Aluminum perimeter & cross studding, R9 Closed Cell Block Foam Insulation, inside double layer plywood offset, exterior layer of plywood protected by moisture barrier Darco®.
• Heat Duct to underbelly & other ducts provide radiant heat.

- Azdel Onboard**
Composite Panels, Patented Blend of Polypropylene and Fiberglass, replaces "wood" backing. Surveyor uses on Sides, Rear, Slide Room, and Front Walls (N/A Front of Grands, Fiberglass Cap)
- Protects against delamination - repels water; no rot, mold, or warpage
 - Unaffected by humidity or temperature changes
 - 2x insulation value - Blankets like a "Radiant Foil"
 - 1/2 the weight of wood - keeps fuel costs down
 - Longer life and better resale value
 - Quieter RV - absorbs sound waves

PVC Membrane - Fully Walkable Roof
16" On-Center trusses featuring 3/8" R14 Residential Blanket Insulation, finished with Best in Class PVC Roof Membrane

1. No treatments required — Ever! Save time every 6-12 months & up \$100s annually
2. 15 Year Warranty, 100% coverage.
3. 2x the puncture strength & 20% more tear resistance
4. Will not chalk, streak, or spot.
5. Extraordinary reflectivity keeping your trailer cooler

WEST COAST

At Surveyor, Customer Satisfaction is #1. We provide a couple standard features specifically requested by RV customers and dealers from Colorado westward.

We're glad we listened!

"Great trailer, zero complaints. It has literally been all over the country with more than 50K miles on it. We full-time and work from the road and it's been to tons of wonderful places!

Surveyor Owner - *Roger Crawford*

SURVEYOR EXTRAS!

"We can't stress enough how much we love our Surveyor Legend 19BHLE! We have traveled to the east coast of Canada for two seasons and our Surveyor has held strong without any issues—allowing us to make worry-free memories as a family. We look forward to many more years with our Surveyor, with a goal of checking off as many Canadian and US national parks as possible!"

Surveyor Owner - *Lisa MacDonald*

Photo by
Tommy Momenee

"My family and I love the Surveyor brand and everything it stands for. We fell in love with the 296QBLE because of the separate bunk house—so the kids have their own space on rainy days. The light decor helps it feel huge and the sliding doors make it easy to get from room to room."

Surveyor Owner - *Tommy Momenee*

"We love our Surveyor 296QBLE. It's the perfect size and layout for our family of 5 with plenty of room for the kids to grow. We enjoy taking it all over NYS parks and have dreams of driving to Acadia National Park in the next few years. Thank you Surveyor and Forest River!"

Surveyor Owner - *Robert Fields*

PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.

CUSTOMER SATISFACTION

www.ForestRiverBuyLocal.com

Download our Forest River mobile app or visit our dynamic online manual to enhance your ownership experience. These interactive options provide incredible ease and insight into use, maintenance and enjoyment of your Forest River product.

Ranging from "How-To" videos, pictures and illustrations of various components, systems and features, to fully searchable content and downloadable PDFs for individual component owner's manuals, answers are always just a click away. View the online manual at www.forestriverinc.com/OnlineManual or download our FREE app from the App Store or Google Play!

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty black and gray tanks for more cargo capacity.

*Estimated Average based on standard build optional equipment. ** Estimated average based on standard build optional equipment. Values estimated at time of printing.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.
