

300ICE

WILDWOOD

The 300ICE: Bunkhouse, Reinvented
 Three real bedrooms—one king, two queens—all fully separated for ultimate privacy. Massive campsite-facing windows flood the space with nearly 20 square feet of natural light. Framed in glass. Finished in luxury.
 A bold layout built for families who crave space, comfort, and next-level design. Game room? Office? Extra beds? It's all here.
 Consider this your warning: once you see it, your old bunk model falls.
 When it comes to family camping,

this... is... SPARTA!
