OVERBUILT TO WITHSTAND THE ELEMENTS

When you're many hours, miles, states away from your normal address, Cedar Creek's quality construction will pay off. We've always been dedicated to better design, materials and final production which afford you peace of mind while traveling. Shown here, building better quality recreational vehicles designed to withstand rugged road conditions and extreme temperatures is a Cedar Creek tradition. Compare our long list of standards and options to others in this price point and you'll agree, dollar-for-dollar, feature-for-feature, Cedar Creek wins!

ROOFING

Our 5" all-aluminum roof rafters allow us to install two 15,000 standard air conditioners and ensure universal cooling with a dual zone control system.

Alphy-Ply TPO Roofing Membrane with Lifetime Warranty

CABINETRY

All of our cabinets are built from quality materials and are hand assembled by in-house skilled craftsmen and women

AXLES

Heavy Duty, E-Z™ Lube, Dexter Axles (6000, 7000 & 8000 lb. axles) They make bearing lubrication quicker and easier, with no disassembly required!

HEATED TANKS

Black, grey, and fresh water tanks are installed with individual 12-volt, large surface heating pads on ALL tanks. These tank heaters allow for all season camping.

Z-FRAME

Cedar Creek's "Z" Frame design is the industry standard. This unique frame was created to give our customers over 100 cu. ft. of extra front storage space. This flat floor design assists in easy removal of your heavy camping equipment.

TESTING AND INSPECTIONS

Weekly, Cedar Creek units are put through Forest River's pre-delivery inspection facility. This 20,000 square foot facility gives our customers the ultimate assurance of quality. Our state-of-the-art facility gives immediate, daily feedback to production for optimum quality assurance in every unit we build.

CEDAR
CREEK

MORE THAN JUST GOOD BONES

A Cedar Creek RV is designed with you in mind. They are built for living life on the road. The core strength of each unit comes from a hand-made, 16" on-center residential frame construction. True gelcoat exterior sidewalls and high-end Silaprene brand adhesives provide outstanding resistance to UV, heat, cold, moisture, oils, gasoline and highway chemicals. This resilient bond grows stronger over time and is why experienced RV'ers prefer Cedar Creek over laminated products. They often return for their second and third units! Cedar Creek is designed with serviceability in mind as well. You'll find removeable 4'x6' ABS panels, 5/8" tongue-and-groove plywood floors, enclosed water lines and 12V heating pads on all tanks that allow for comfortable, extended camping in all seasons and best of all: years of worry free adventure!

TIRE PRESSURE MONITORING Monitor your tires from the driver's seat. Real time tire temperature and pressure readings are transmitted directly to our display. The system alerts you in the event of a tire puncture or other gradual pressure loss, sudden tire temperature increase or rapid deflation of the tires. Increased awareness brings increased safety, tire life and fuel economy.

R-RATING Cold room tested to 0°F with standard insulation and heating pads that allow all season camping. R-ratings are amongst the best in the industry for our price point. Full time RVer's should compare as well!

DEXTER AXLES Includes Nev-R-Adjust® brakes, heavy-duty axles with bronze bushings in shackles, 16" eight lug ST G-rated 14-ply tires on 7000 lb. Dexter axles and H-rated 16-ply tires on 8000 lb. Dexter axles.

SOLAR PREP Cedar Creek models are all standard equipped with the Go Power® solar roof panel system. Ready to unplug and go off-grid! Now you can charge your batteries anywhere the sun is shining.

TANDEM AXLE KIT Includes automotive-grade castings on all fasteners and greaseable bronze bushings while providing the ride quality of a torsion axle.
