"the motorhome people"

Pursuit 2005

Motorhomes for the modern-day Lewis and Clark

Trust us. We know the feeling. In fact, we're almost certain the impulse resides somewhere deep within your genetic code. It's your insatiable appetite to explore. To visit the places you've only read about or perhaps seen on the Travel Channel. We think *you* know the feeling—the more curious, restless side to your personality that can't sit still.

At GBM, we've been in the recreational vehicle business since 1968. Our goal is to design and build motorhomes that can keep up with the explorer in you. This means working hard to ensure that every detail of your new Georgie Boy is right—before you turn the key. Of course, our commitment to quality also means a few late-night trips to the coffeemaker. But then again, that's why we call ourselves the motorhome people. It's also why a Georgie Boy is born to run—with your imagination.

Presenting the new 2005 Pursuit line from GBM—"the motorhome people."[®]

It's more than an RV. It's a Pursuit.[®]

It's the chance for you to make family history, turning your annual vacation into an adventure they'll never forget. It's about staying that extra day and not having to change hotel or flight reservations to do it.

In a Pursuit, you'll do more, see more and experience more—all for less money than any other motorhome in its class. Your 2005 Pursuit is loaded with new features inside and out, making it one of the best all-around values on the road.

Perhaps best of all, the Pursuit will help you make the most of a precious commodity—one that's getting tougher for most families to find—free time. Let a Pursuit inspire you.

New exterior graphics come complete with an optional painted skirt for those second (and third) looks on the highway. This year, Pursuit features a standard graphic package or an optional color pallet—Canyon Metallic.

Finding room for the souvenirs is no problem. Pursuit provides you with ample, well-lit exterior storage compartments with new slide-out-friendly baggage doors. Also new for 2005—upgraded exterior mirrors that reduce blind spots for increased visibility and quick and easy scanning.

A new push-button Big Foot manual leveling system makes quick work of finding the perfect place to park.

For those late sunny afternoons, you'll appreciate the shade of the large awning. And, tinted windows not only help keep the heat at bay, but also protect your fabrics.

Rick Browne, cookbook author and host of public television's "Barbecue America," travels the country's highways, back roads and bayous in his Georgie Boy motorhome on a savory quest for "true Q."

The keys to making good time and having one.

Remember your first big family road trip? It's a safe bet that there were a few things you wish you could have taken along. To understand why a Pursuit delivers the most value—the most motorhome for your money, just take a peek inside. The Pursuit is loaded with creature comforts. Just expect to make a few trips to the video store! With a Samsung® 27" flat-screen, overhead TV, your Pursuit is a mobile movie theater. New Flexsteel® furniture, available in a variety of new fabrics (Saffron Willow shown here), makes every seat the most comfortable seat in the house. This includes your driver and passenger seats, which swivel 360° to become part of your living area. Once in your new Pursuit, get ready to hear a new expression: "Are we there *already?*"

Dinette

Our family dinette measures a full six feet wide, larger than many of our competitors'. But space isn't the only benefit—your guests can also ride safely in the dinette. It's equipped with four seatbelts, so your guests can eat a snack or play games while riding.

A slide-out in the living area creates ample space for entertaining when parked. Because of the slide-out depth, we were able to include front and rear windows for additional ventilation.

Bedroom

Your Pursuit master bedroom is spacious and private, featuring a queen-size bed, large wardrobe and beautiful Welbeck Birch cabinetry throughout. Make this room your personal retreat. The 3180 DS model, shown here, features a lounge area with a swivel chair and an optional 20" TV, perfect for relaxing.

Kitchen

Imagine taking your home kitchen on the road with you. New for 2005, we installed larger drawers and plenty of cabinet space, so you can store all your kitchenware and food necessities. Every appliance, including the microwave oven, is right where it should be.

Bathroom

Take pleasure in the natural lighting of the Pursuit bath with a skylight over the large shower. Ample storage space is available, so you can enjoy the luxuries of home—on the road!

Pursuit® Features

Exterior

Standard

Radial Spare Tire
Big Foot Leveling Jacks
Trunk Lights
Patio Light by Entry Door

Awning Size (ft.)	13	14	17

GVWR (Gross Vehicle Weight Rating):

The maximum permissible weight of the unit, including the UVW plus all fluids, cargo, optional equipment and accessories. For safety and product performance, do not exceed GVWR.

UVW (Unloaded Vehicle Weight):

Means the weight of a motorhome as manufactured at the factory with fuel, engine oil and coolants. The above UVWs represent a motorhome with typical options. UVW will vary significantly based on option selection.

GAWR (Gross Axle Weight Rating):

The total weight each front/rear axle, suspension and tire system is designed to carry. When loading the unit, care should be taken to balance cargo weight in consideration of the GAWRs.

GCWR (Gross Combined Weight Rating):

The maximum total weight of the loaded unit plus a tow vehicle. This includes the weight of both the unit and tow vehicle, fuel for each, all other fluids, cargo, occupants, optional equipment and accessories.

* Includes clearance for air conditioner and satellite dish.

IMPORTANT NOTE: All capacities are approximate and all dimensions are nominal. Georgie Boy motorhomes are designed to allow for a wide variety of uses, extended trips with two people or short trips with multiple people. Accordingly, each unit allows ample room for sleeping, seating, fluids and cargo. While the customer is the beneficiary of this design, the customer also bears the responsibility to select the proper combination of passengers, cargo, load and tow vehicle without exceeding the chassis weight capabilities. Consumers may need additional braking capacity to tow loads greater than 1,000 pounds. Seat belts should always be worn for passenger safety. Seat belts are provided at most locations to allow convenience in selecting which seat to occupy. However, it is not intended that all seating positions equipped with a seat belt may be occupied while the vehicle is in motion, without regard to other weight factors. All Georgie Boy motorhomes are designed to ensure that the number of passengers allowed while the vehicle is in motion will always at least equal the stated sleeping capacity. Though extra seat belts may be provided, for your safety and the proper operation of your vehicle, limit your passengers to the number allowed by the Net Carrying Capacity of your vehicle.

We hope that you find this comprehensive, factual catalog helpful. All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Georgie Boy reserves the right to make all such changes without notice, including changes in prices, colors, materials, equipment and specifications, as well as the addition of new models and the discontinuance of models shown in this brochure. Also, some equipment shown or described is optional and available at extra cost. Therefore, please consult with your Georgie Boy dealer to confirm the existence of any materials, design or specifications that are material to your purchase decision.
