## Features that matter.

### Fresh Water System

Frelander  
50 Gallons

Other Brands  
41 Gallons

### EASY CONVENIENCES

Frelander makes it easy to take it all with you. The huge exterior compartments have more than 100 cubic feet of storage space (most models) while the industry-leading 50-gallon fresh water system allows you to enjoy the great outdoors even longer.

### EASY RESTING

Frelander accommodates the whole family in comfort for an easy night's sleep. Most models have residential-size queen beds (not the short variety usually found in RVs), a roomy bunk over the cab and on some models an easy-to-convert hide-a-bed sofa.

 The spacious, family friendly 3150SS provides ample seating as well as plenty of sleeping space, so everyone can relax in comfort.

**GVWR** (Gross Vehicle Weight Rating): The Maximum permissible weight of the unit, including the unloaded vehicle weight plus all fluids, cargo, optional equipment and accessories. For safety and product performance, do not exceed the GVWR.

**CW** (Curb Weight): The weight of the unit without factory or dealer installed options, plus allowance for the weight of full fuel capacity. The "payload capacity" for all other fluids, cargo, occupants, optional equipment, and accessories can be determined by subtracting the CW from the GVWR.

**GCWR** (Gross Combined Weight Rating): The maximum total weight of the loaded unit, plus a tow vehicle. This includes the weight of both the unit and tow vehicle, fuel for each, all other fluids, cargo, occupants, optional equipment and accessories.

**Wider Widths:** Numerous Coachmen floorplans feature the "wide body" design concept, which gives you significantly enhanced interior living space and innovative floorplans.

In making your purchase decision, you should be aware that a few states restrict access on some or all roads within the state to vehicles with a maximum 96" width, although special road usage permits may be available. Vehicles up to 102" in some width are permitted in the vast majority of states. You should confirm the road usage laws in the states of interest to you before making your purchase decision. If width is of concern to you, we invite you to consider the broad array of other Coachmen models offers in the standard 96" width.

**Important Note:** All capacities are approximate, and all dimensions are nominal. Coachmen motorhomes are designed to allow for a wide variety of uses, extended trips with two people or short trips with multiple people. Accordingly, each unit allows ample room for sleeping, seating, fluids and cargo. While the customer is the beneficiary of this design, the customer also bears the responsibility to select the proper combination of passengers, cargo, load, and tow vehicle without exceeding the chassis weight capabilities. Consumer may need additional braking capacity to tow loads greater than 1,000 pounds. Seat belt should always be worn for passenger safety. Seat belts are provided at most locations to allow convenience in selecting which seat to occupy. However, it is not intended that all seating positions equipped with a seat belt may be occupied while the vehicle is in motion, without regard to other weight factors.

All Coachmen motorhomes are designed to ensure that the number of passengers allowed while the vehicle is in motion will always at least equal the stated sleeping capacity. Though extra seat belts may be provided, for your safety and the proper operation of your vehicle, limit your passengers to the number allowed by the Net Carrying Capacity of your vehicle.

Automotive-style dash is loaded with conveniences like power windows and locks, cruise control, power steering, drink holders, dual air bags and dash stereo CD player that make driving simple and easy.

Coach command center makes it simple to use many of the commonly used gauges and switches.

The standard ceiling skylight makes the living area lighter and brighter.

This advanced sidewall design features a high-gloss fiberglass exterior and AZDEL SuperLite® composite substrate. This combines the good looks of a quality exterior with a lightweight, moisture-resistant substrate that won't rot or grow mold like wood.

## Freelanders – Easy Exterior Features

Bunk Option Available on 2890QB and 3150SS

Optional overhead entertainment includes a 26" LCD TV, DVD player and a Bose Wave® radio sound system. It loads the Freelanders with fun for the whole family while still allowing room for a bunk that can sleep a full-size adult.
