# Little Guy

Teardrop Camper/Trailer

*Welcome...* to a world where size **DOES** matter. A world where it takes less than a minute to hook up your trailer and hit the road for a spontaneous trip... a world where you can unhook your trailer & set up camp in mere minutes... a world where it doesn't matter what kind of vehicle you drive or where you are going... a world your footprint is light and your trailer is even lighter... a world, where less is more... **WELCOME TO THE WORLD OF TEARDROP CAMPER TRAILERS.**

*History*— Teardrop camper trailers were birthed during the World War II era and quickly became popular in the United States. They were originally constructed with 4x8 sheets of plywood and materials obtained from surplus markets – Steel U Channel or Round Steel Tube frames, wheels salvaged from Jeeps on sunken ships and exterior skins originating from wings of World War II Bombers. These cute, economical trailers slowly gained steam and soon, a litany of magazines published articles and building plans - giving the diminutive trailer even more notoriety. The teardrop trailer hit its stride in a post-war America – from manufacturing companies to “Do it Yourself” plans, teardrops achieved a good deal of success in relatively short order. Over the following decades, the concept that ‘bigger was better’ put the teardrop trailer in hibernation. Now, over half of a century later, the teardrop camper trailer has been reborn.

**THE LITE SERIES** Teardrop trailers were designed to be light... and these definitely fit the bill. Your sub-compact or trike will be very pleased! These ultra-light models clock in right around 500 lbs and provide safe, comfortable, convenient and efficient sleeping quarters for your journey.

Formerly known as the Joey, this ultra-light teardrop comes in a 4x7 or 5x7. The base model comes with 1 door, an open interior and white steel wheels. This makes the Deuce the perfect starter teardrop or an ideal side-kick for commercial applications. The popular XP package offers cabinetry, alloy wheels and a second door.

Being one of the staple units of our line, Rascals have been everywhere! From Europe to the Alaskan Highway, this demure little camper will make you forget you are even towing anything. Perhaps the most aerodynamic of all teardrops, the scooped front offers less wind resistance and a trough for your pillow – extending the sleeping area to well over 6' in length. The Rascal has all of the features listed above but also comes with pass-through cabinetry to the galley where you'll find a flip-up countertop.

Please defer to the owner's manual of your vehicle for towing capabilities.

**THE LITTLE GUY** The "original" teardrop created by Little Guy, presents a modern, casual twist to the traditional understanding of teardrops. Available in 4' 5" and 6' wide, these were designed to be ideal for 1 or 2 adults, a couple kids or small pets!

Every trailer we offer features interior lighting, cup holders, linoleum floors, roof vent/fan, double locking entry doors with sliding windows and screen, fiberglass sidewalls, aluminum roofs & locking rear hatch door, custom fenders & wheels, stabilizer jacks and LED marker & tail lights.

The 5-Wide Little Guy is our #1 selling model – featuring a Queen Sized Sleeping area, while the 6-Wide offers nearly a King. Each Little Guy features a 18" deep platform across the front of the trailer, aluminum fenders and alloys. The large galley countertops in the rear are offer a large workable countertop which is capable of handling a sink, stove or your own storage system.

# OFF ROAD & OFF GRID

Take a hard right and hit the dirt running. These teardrops were designed without asphalt in mind. No boundaries - just open air and freedom.

Take our 6-Wide Little Guy, add a 5' deep platform to it, load it up with your gear, dirtbikes or ATV and get out on the road. Now, that's a sport trailer!

Beef up any Little Guy for the ultimate off road experience. The Rough Rider features electric brakes, a custom made chassis, pintle hook and skidplates. For that extra bit of performance, we outfit it with knobby 15" mud tires and squared off fenders.

## *The B.O.S.S. (Bug Out Survival Shelter)*

*Inspired by Tim Ralston, Survival Expert*

The B.O.S.S. takes the Rough Rider to a whole new level.

**Exterior Features:** Carbon Fiber Custom Wrap, Powder Coated Metal Surfaces, 36" Deep Platform with Large Stowable Ramp, Receiver Rack, Heavy Duty Stabilizer Jacks, Side Mounted LP Tank, Side Mounted Retractable Hose Reel with Hand Crank, PRORAC Roof Rack System, Dual 5 gal. Jerry Tanks, AC/Heat Prep Package, Porch Lights, Uber-Tough Wheel Jack, Solar Prepped, Marine Style Battery and a Heavy Duty Locking Gear Box.

**Galley Features:** Black Cabinetry and Countertop, Sink with 5 gallon fresh water tank and City water line, 2 Burner LP Stove, Power Converter Center, Pass Through Cabinetry. **Interior Features:** Black Cabinetry with Silver Ceiling and Accents, 9" TV/DVD/CD/AMFM Under the Cabinet System, Dual Rifle Rack, Low Draw LED Lighting, Power Roof Fan, AC/DC Connections, King Sized Sleeping Area, Interior Mesh Storage Pockets, Pass through Cabinetry and 4 Concealed Storage Compartments in the Floor.

**SILVER SHADOW** The Silver Shadow family is inspired by the classic teardrop trailer, complete with a silver exterior and birch interior. In addition to the retro appeal, the Shadow includes LED lights, black wheels with baby moons and a meshed A-Frame Tongue. While the 8' Shadow models come standard with aluminum fenders, the California Fiberglass Fenders that are standard on the 10' models are available as an upgrade.

Nature is not  
a place to visit.  
It is home.

GARY SNYDER

SILVER  SHADOW

The 5x10 and 6x10 Silver Shadows are our 2<sup>nd</sup> and 3<sup>rd</sup> leading selling trailers – and for good reason. These beauties offer the most room, classic styling and boatloads of amenities. In addition to sinks and stoves, these teardrops can come with 12/110 fridges, customized galleys, cabinetry, interior staining, embedded AC units and a headboard.

5x8 vs. 5x10 – at the end of the day, the only difference is 2 feet of length... but those 2 feet give you the following: a deeper galley (able to handle sink, stove, fridge, AC & more storage), a longer bed and headboard with sliding front doors and internal storage.

**Little Guy**  
vs.  
**Silver Shadow**

**Aesthetics**  
**Interior Finish**  
**Power Package**  
**Wheels/Fenders**  
**Storage**  
**Galley**

**Little Guy**  
Casual Modern  
Carpeted Walls, White Cabinetry  
Optional  
Aluminum Fenders & Alloys  
Small Storage at Foot of Bed  
Fixed Countertop for Sink & Stove

**Silver Shadow**  
Retro Classic  
Birch Walls and Cabinetry  
Standard Feature  
Baby Moons & Fiberglass Fenders (*Aluminum on 5x8*)  
Under Bed Storage, Deep Headboard in 10'  
Amenable to Sinks, Stoves, Fridges & Embedded AC units

**SLEEPERS** These trailers are ideal for those looking to get out on the road and having a flare for style while doing it.

A well spent day  
brings happy sleep.

LEONARDO DA VINCI

*The RT*

The "Reverse Teardrop" (RT) hit the market 5 years ago and was greeted with open arms from a segment looking for an innovative sleeper.

The RT deviates from the typical teardrop trailer in that it does not feature a galley but rather comes complete with birch interior, full power, window shades, Sight & Sound and a nifty rear entry door. This little dream machine is perfect for those on the move!

*Coming Soon!*

The yet to be named concept trailer from Little Guy Worldwide will arrive to market the summer of 2013. This beauty is not only extremely light weight (under 500 lbs) but also aesthetically intriguing. The standard model will include the power package and offer Air Conditioning, Sight & Sound and a Custom Designed Roof Rack.

# OPTIONS

## Power Package

Add a little power to your Little Guy! Bring 12v and 110 power into your trailer with multiple outlets, LED lights, a 3-speed/dual directional roof fan, porch lights, 30amp inlet, and 25' power cord. Your battery will charge when connected to shoreline power or your tow vehicle.

## Sink & Stove

Need a place to brush your teeth, do the dishes and cook your food? Equip your galley with rectangular sink complete w/ 5 gal water tank, city line and 12v pump. A 2-burner LP cooktop is the perfect complement and you're ready for the evening ahead!

## Sight & Sound

Add the convenience of AMFM/CD/DVD w/cable coaxial to your get-a-way. It's available in both the 9" Under the Cabinet Style or 19" LED with Control Panel and surround sound. Either way, when you arrive at camp, you are ready to watch Napoleon Dynamite!

## Stargazer Window

Looking to jazz up the aesthetics of your trailer, bring in some light or simply add a nice evening view of the sky above? Then the stargazer is for you – open up your options and enjoy the benefits.

## Air Conditioning

Stay cool with an embedded 5000BTU AC Unit. Our custom designed multi-intake and exhaust system will put an icicle on your nose while your friends sweat away.  
*Available in 10' Shadows only. All other models, please refer to the Climate Right.*

## Fridge

Grab some popsicles or cold ones & hit the road. This 12v/110 fridge will keep your stuff cool on a hot day – with very minimal draw on your battery. The fridge can be partnered with a sink, a stove or both (in a 6x10 Shadow)!  
*Available in 10' Shadows only.*

## Special Paint

While Little Guys come standard in white and Shadows come in silver or white, you can make a trailer unique to you. Match your tow vehicle or your favorite sports team. You may choose to paint the entire trailer or just the side walls.

*A floating, aluminum roof is used, so we will not warranty a darkly painted roof from rippling in extreme heat.*

## Staining & Painting

While Little Guys come standard with white cabinetry and Shadows feature birch, you can opt to make it your own. Put birch or black cabinetry into your Little Guy or stain your Shadow cabinetry with Washington Cherry or Oak.

# ACCESSORIES

## Tent

gain 100 sq ft of "living space" with this multi-function screen room & tent.

## Covers

protect from UV, Acid Rain, Sap and more...

## Teardrop Lock

let people know you care about your trailer and it is YOURS!

## Climate Right

if you've got electric, you've got a complete HVAC system for your trailer

## Roof Rack

Need some more cargo room? Store a bike, boat, skis or more gear on top!

## Spare Tire

Be prepared for a flat: stores on the tongue or under the trailer.

## Window Shades

Who knew owning a teardrop would attract so much attention. Whether it's the sun or a set of eyes, these shades will keep them from peering in!

## Solar Panel

Chase the sun and keep your trailer powered at all times

GEORGE WASHINGTON CARVER

## *Quality is King*

Our main priority at Little Guy Worldwide is building the highest quality and most practical teardrop trailer on the market. The materials and components employed in each build are carefully chosen with function & aesthetics. Skilled Amish craftsmen carefully construct each trailer with painstaking care – accepting nothing but excellence. We strictly adhere to NFPA and Z240 guidelines and incorporate multiple quality control checkpoints during the build. When trailers are complete and come off line, we put each one through a rigorous 87 point inspection process.

## *Dealer Body*

Our dealer body is the lifeblood of our organization. We encourage customers to purchase locally. Each dealership is independently owned and operated – free from any corporate requirements. Purchasing from your local dealer has multiple benefits. First and foremost, it allows a long and meaningful relationship to form. From the time of purchase to servicing your trailer to trading it in for your next one, your dealer will be best suited to take care of you. Whether it is proximity, state regulations or simple 'teardrop tips' your experience will be enhanced with a local connection. If you ever should have the need for upgrades or warranty work, the vast majority of our dealers can take care of that for you as well.
