

2006 **LAKOTA**® FIFTH WHEEL

BEHIND EVERY ADVENTURE

INTERIORS

2006 LAKOTA FIFTH WHEEL

▲ Tabasco with New Vintage Oak Wood 32SKD

FIND OUT WHAT YOU'RE MADE OF.

The mountains are calling, your favorite trout stream beckons. And with a new 2006 Lakota fifth wheel, you're there in a heartbeat. This legendary value is loaded with more residential styling than ever before, with new plush fabrics, color-coordinated carpeting and new countertops with Corian® accent. You'll also love the signature styling of the woodwork, with raised panel cabinet doors and decorative slide-out fascia trim. The Lakota encourages you to customize your interior with some impressive optional features, including a home theater system with surround sound speakers, plank flooring and a fireplace, available on select models. Choose from a wide variety of innovative floorplans, including the exciting new 35REQ quad slide-out model, with a rear entertainment center.

INTERIORS

The interior of the 2006 Lakota will rival even the most beautiful countryside. After a day exploring the great outdoors, continue to take in your surroundings with our new standard dark tinted radius windows. Or choose the optional bay windows at dinette area where you can dine in high style with the option of a beautiful and functional freestanding dinette table with hidden leaf and four chairs.

Details such as decorative carved hardwood fascia make the Lakota something truly special.

After dinner, relax and put your feet up with the optional Ultra Vinyl swivel rocker recliners.

The beautiful vintage oak wood cabinets of the entertainment center are highlighted with smoked glass. Add a 27" or 20" color TV with remote and our new-for-2006 home theater surround sound system for your own on-the-road theater experience.

INTERIORS

The Lakota's kitchen is where form and functionality come together – beautifully. You'll find ample storage with raised panel vintage oak cabinets throughout, including a pantry with adjustable shelves and an 8 or 10 cubic foot refrigerator that completes the look with a raised panel door. There's plenty of space for food prep with new Corian®-edged countertops, sink and range covers and countertop extensions on select floorplans. You'll love cooking on the road with a high-output 3-burner range with oven and a microwave with touch control, or for the ultimate in convenience, add a convection microwave. Cleanup is a snap, too, with a standard high-profile single handle faucet and easy-clean linoleum or striking, yet practical, optional plank flooring.

With every inch of space put to good use, you'll feel right at home in the Lakota's bathroom. It begins with a tinted skylight for a spacious and open feeling. The raised panel cabinets and Corian®-edged countertops continue in the bath, and the 2006 model includes the option of a vented, front load, stacked washer/dryer.

Get comfortable in a sumptuous bedroom that includes a custom headboard, designer bedspread, carpeting and pleated day/blackout shades for privacy. Of course, we added practical touches, too, including a handy slide-out with chest of drawers, ample storage, a TV shelf and a spacious closet. And now, you have the option of adding a king-sized bed on select floorplans.

From numerous and conveniently located outlets and phone jacks to ample lighting, the Lakota's attention to detail adds to your overall comfort.

FABRICS

Perfect Storm

Tabasco

Appletini

- A - Bedspread
- B - Sofa
- C - Accent
- D - Carpet

Manufactured in, not added on. For added protection against stains, soil repellent is applied to virtually all upholstery fabric during the finishing process for superior coverage.*

*Brand and application of upholstery fabric protection may vary depending on date recreational vehicle was manufactured.

WOODS

New Vintage Oak

LAKOTA HARDWARE

Our elegant cabinet hardware design features a brushed nickel finish.

EXTERIOR

The new, upgraded exterior graphics complement a new, color-coordinated, texturized fabric awning – all standard.

Standard radial tires and stylized 16" chrome wheels with center hub give a sporty look.

Take along whatever you need without worry. Large pullout storage provides ample packing space and makes loading and unloading easy.

Examine the details, and you'll know exactly why the Lakota is one of the best built, most reliable RVs you'll find anywhere. No other construction compares to the strength of the Alumaframe® superstructure, with double-welded intersections and crossmembers running the entire length of the unit. You'll also enjoy year-round comfort, thanks to the superior insulation of the exclusive multi-layer roof, wall and floor designs. The flat-floor slide-outs enhance your comfort inside the fifth wheel, and the high-gloss fiberglass sidewalls with distinctive new graphics ensure you'll turn heads at every campground.

CONSTRUCTION

The Lakota features McKenzie's exclusive Alumaframe® superstructure. Our revolutionary system of aluminum H and C-channel crossmembers runs the entire length of the unit, with double-welded intersections for added strength. This rigid design is both lighter and sturdier than wood or tubular aluminum frames — and much more reliable than butt-welded or screwed joint designs. From dirt roads to potholes, you can count on Alumaframe® to handle the relentless stresses of the road and provide superior structural integrity for many years to come.

OURS
VS.
THEIRS

Alumaframe®
(C-Channel)

Aluminum
(Butt-Welded)

Wood

9-LAYER ROOF

- A Peaked roof with BriteTek™ exterior
- B Luaun backer
- C Thick, tapered bead foam insulation
- D Aluminum double I-beam superstructure filled with fiberglass insulation
- E Vapor barrier
- F Structure foam: thermal insulated barrier
- G Vapor barrier
- H Luaun backer
- I Vinyl ceiling

6-LAYER EXTERIOR WALL

- A High-gloss gel coat fiberglass is standard
- B Interlocking C-Channel filled with 1-1/2" fiberglass insulation bonded in place so it doesn't sag or leave spaces uninsulated
- C Vapor barrier
- D Bead foam adds comfort, saves energy and provides a thermal insulative barrier
- E Vapor barrier
- F Interior paneling

6-LAYER FLOOR

Your fifth wheel features a six-layer floor and a fully enclosed, heated and insulated underbelly. The smooth underbelly contains freshwater and wastewater tanks, dump valves, wiring harness and heating ducts, which help keep the fluid tanks from freezing and improve the overall insulation factor of your Lakota. The smoothness of the underbelly provides unrestricted air flow that results in easier towing and improved gas mileage. And the outer shell of the undercarriage is made of rugged composite material that withstands damage from road debris. In addition, the frame is coated with a rust-inhibiting paint.

SLIDE-OUT

When you purchase a McKenzie, you can be sure the slide-out boxes are some of the strongest and most reliable you'll find anywhere. They feature our exclusive multi-layer construction to give you maximum insulation and to reduce the chance of warping, twisting or shifting. In addition, the actuator has a mechanical room lock that is built in, and there are adjustable built-in stops for in and out positions.

- A Bearing packs are bolted in 4 places, locking the gear and rack in place
- B A manual crank and extension rod comes standard with every unit, to serve as override if needed
- C Actuator motor is positioned to provide smoother movement and reduce twisting on the slide-out room

IT'S 101° OUTSIDE. DON'T LOSE YOUR COOL INSIDE.

How do you keep cool inside your RV when it's hot outside? McKenzie has the answer, with our exclusive, multi-layer insulation concept. Just ask Charlie. It's his job to see how we stack up with the competition. He tested McKenzie's nine-layer roof and six-layer wall construction against other RVs in a thermal chamber. The result: the temperature in the competing test unit rose approximately 30 percent more per hour on average than in the McKenzie test unit.*

*Test performed by an independent testing facility, February, 1999.
Based on measurements taken every 15 minutes.

* Weights may vary by options.

** Variances in the fabrication and installation of the tanks may cause the actual "usable capacity" to be greater or less than the capacities designated above.

*** Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.

Due to the large variety of options and floorplan arrangements available to our customers, actual weights for each unit can differ significantly. McKenzie provides a weight sticker on each unit we produce which includes that unit's tank capacities and approximate weight. Consult your local McKenzie dealer for unit availability and further information.

The information printed in this brochure reflects product design, fabrication, and component parts at the date of printing. The manufacturer reserves the right, at any time, to make changes in product design or material or component specifications as its sole option, without notice. This includes the substitution of components of a different brand or trade name, which will result in comparable performance. All information printed in this brochure is subject to change after the date of printing. Some features shown or mentioned in this brochure are optional and may only be available in selected floorplans. Photographs may show props or decorations that are not standard equipment on McKenzie models. McKenzie, the McKenzie logo and its design, are registered trademarks. All other products and company names are trademarks and/or registered trademarks of their respective holders.

While the color of the towable's exterior and the interior fabrics depicted in this sales brochure are fair and reasonable depictions, the colors depicted may not be an exact match of the actual colors because of the variances in photo-processing and variances caused by inserting the photographs within the sales brochure. Due to product improvements, changes during the model year and/or transcription errors that may occur, information represented within this brochure may not be accurate at the time of your purchase. If certain information is significant to your purchasing decision, please confirm the information with your dealer prior to submitting your order.

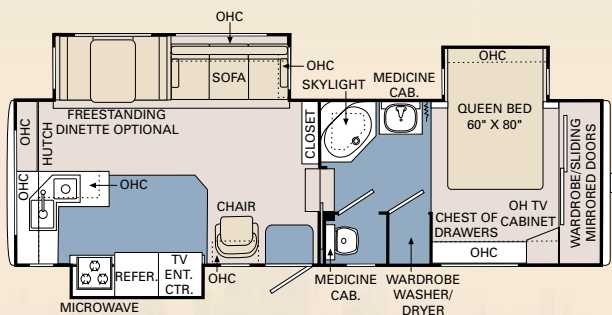

The actual overall length of the recreational vehicle may differ from that indicated in the brochure due to variances in the manufacturing process and/or installed components. The actual length may be greater or less than that indicated.

Component part and appliance manufacturers issue limited warranties covering those portions of the recreational vehicle not covered by the Limited Warranties issued by Monaco Coach Corporation. To learn which specific component parts and appliances are excluded from the Limited Warranties issued by Monaco Coach Corporation, please contact your selling dealership or Monaco Coach Corporation directly, or review the warranty packet inside the recreational vehicle.
