STUNNING BEAUTY & FEATURES

A FULL BODY PAINT

A striking exterior graphics design provides a jaw-dropping appearance. The paint process includes multiple layers of paint and clear coat to provide a silky exterior finish.

B LARGE PASS-THRU STORAGE

Multiple compartments provide plenty of space to take everything along on the trip. Most models have a larger pass-thru compartment that even includes a sliding tray to increase capacity.

C FRAMELESS WINDOWS

Sleek, automotive-styled, frameless windows look great with an added twist of functionality. The windows are hinged to open outward for ventilation, even in rainy weather.

D POWER PATIO AWNING

A legless, lateral arm awning is fully encased in a metal box protecting it during driving. When extended, the awning does not have legs intruding into the camp area and it has the ability to self-retract in windy situations.

E SIDE VISION CAMERAS

Integrated into the exterior mirror housing, vastly increase the line of sight along the side of the coach helping keep you safe out on the road.

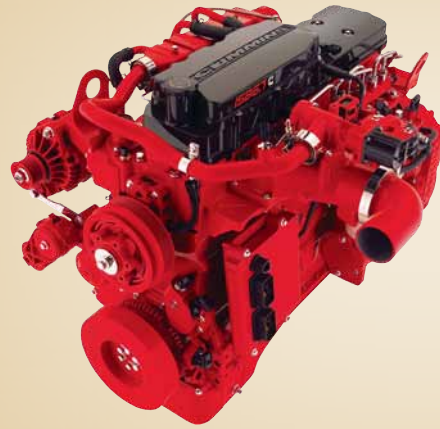

MORE THAN SKIN DEEP

A HOUSE NEEDS A STRONG FOUNDATION AND THAT INCLUDES A HOME THAT ROLLS DOWN THE ROAD. WE HAVE PARTNERED WITH FREIGHTLINER CUSTOM CHASSIS AND MOR/RYPDE MANUFACTURING TO ENGINEER THE BEST FOUNDATION IN THE BUSINESS. FREIGHTLINER'S ADVANCED CHASSIS TECHNOLOGY PROVIDES A SAFE AND STABLE

The finest products start with the best ingredients.

PLATFORM FOR MANEUVERING THE COACH DOWN THE ROAD, WHILE MOR/RYPDE'S STEEL STRUCTURE ENSURES THE PERFECT INTEGRATION OF CHASSIS TO THE HOME.

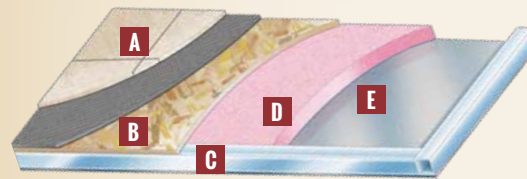

BACKED BY CUMMINS POWER

Premium motorhome buyers don't settle for second best. That's why Cummins is the number-one choice for diesel power. The Palazzo's ISB diesel engine is mated to a 6-speed Allison automatic transmission, providing 300-HP and 660 ft.lb. of torque. This combination delivers maximum performance, reliability and durability.

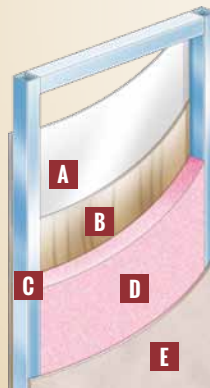

ROOF

- A** One-piece exterior TPO membrane
- B** Luan panels
- C** Aluminum structure with bowed framing
- D** Block foam insulation
- E** Interior panel with soft touch vinyl covering

FLOOR

- A** Residential vinyl flooring or carpet
- B** OSB structure wood base
- C** Structural steel framing
- D** Block foam insulation
- E** Luan with woven plastic exterior finish

SIDEWALLS

- A** High-gloss or gel-coat fiberglass
- B** Luan panels
- C** Aluminum structure and framing at all openings
- D** Block Foam insulation
- E** Interior panel with designer wall covering

All roof, wall and floor structures are vacuum bond laminated. This process ensures constant and consistent glue coverage over all layers of the structure. This time sensitive process is necessary to provide stronger and more secure motorhomes with increased longevity.

SUPERIOR STRENGTH

A 55° WHEEL CUT

With 55-degrees of wheel cut, turning circles can be drastically reduced. The Palazzo can turn around in even the tightest of spaces.

B STEEL STRUCTURE

The steel structure below the floor is rigid and capable of enduring the stresses of driving down the road. Steel trusses span the frame both vertically and horizontally to make the strongest motorhome foundation.

C DEF TANK

Almost all truck stops offer DEF in bulk at the pump, but only on the driver's side of the island. The Palazzo is thoughtfully designed to include a DEF tank that's easy to fill.

D 10,000 LBS. HITCH

The diesel engine has plenty of torque to pull the heaviest of towed vehicles. The hitch includes a 7-way round connector for ease of use.
