

PRIME TIME
Manufacturing

Your Journey Begins Here

27RKS

For both the first-time buyer and seasoned camping veteran, the value-conscious Avenger often represents a customer's first experience with a recreational vehicle from Prime Time Manufacturing.

Since first impressions are critical—and last a lifetime—we've insisted that Avenger combine comfort, convenience, and style with the industry's highest standard of quality and construction. By providing a GREAT ownership experience, Avenger is Prime Time's way of welcoming you to our family.

We hope that your future journeys will always include a Prime Time RV.

24BHS

26RDS

To guarantee that Avenger provides true customer satisfaction, our engineers carefully examined every component, every small detail, and every process that went into Avenger's creation.

It was important to offer industry-leading beauty, so shaker-style cabinet doors were paired with premium fabrics, flooring, and countertops for a luxurious appearance.

"Best In Class" features and design elements are utilized to fully maximize customer enjoyment. Innovative EVERLAST® construction and demanding standards for testing were developed to ensure long-term quality and durability.

If "Your Journey Begins Here," Avenger is sure to please.

CARGO CARRYING CAPACITY (CCC)	2,692 lb.	3,169 lb.	2,840 lb.	3,069 lb.	2,371 lb.	2,460 lb.	1,989 lb.	2,382 lb.

UVW (Unloaded Vehicle Weight)* is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity. ** Estimated average based on standard build optional equipment. See back page for additional specification definitions.

ADDITIONAL SPECIFICATIONS:

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.

Download the Prime Time Manufacturing mobile app or visit our dynamic online manual to enhance your ownership experience. These interactive options provide incredible ease and insight into use, maintenance and enjoyment of your Prime Time Manufacturing product. From "How-To" videos, pictures and illustrations of various components, systems and features, to fully searchable content and downloadable PDFs for individual component owner's manuals, answers are always just a click away.

View the online manual at <http://www.primetimerv.com/OnlineManual.aspx> or download our FREE app from the App Store or Google Play!
