GRANDS

Surveyor Production Team: (Left to Right) Dale G., Service/Production Floater since 2001, Wayne "Junior" T., Group Plant Manager -3 Plants, Brian S., Plant Manager, 17 years+

SURVEYOR

FIELD TESTED SINCE 2001

"DO YEARS IN BUSINESS AND EXPERIENCE BUILDING RV'S AT THE SAME FACTORY MATTER WHEN CHOOSING WHICH TRAVEL TRAILER TO PURCHASE ... WE THINK IT SHOULD!"

Wall Construction (R7, R9)

- Pinch roll laminated at 1600 PSI, 100% glue coverage. - Closed Cell Block Foam Insulated, optimum comfort.
- Air-Pressure Sealed Tested, ensures maximum efficiency.

Extended Season Camping

- Underbelly: Lami Plast® Insulates floor, pipes, & tanks, forms a double walled layer pocket of air.
- Floor: 2" thick Aluminum perimeter & cross studding, R9 Closed Cell Block Foam Insulation, inside double layer plywood offset, exterior layer of plywood protected by moisture barrier Darco®.
- Heat Duct to underbelly & other ducts provide radiant heat.

Azdel Onboard

Composite Panels, Patented Blend of Polypropylene and Fiberglass, replaces "wood" backing. Surveyor uses on Sides, Rear, Slide Room, and Front Walls (N/A Front of Grands, Fiberglass Cap)

- Protects against delamination - repels water; no rot, mold, or warpage
- Unaffected by humidity or temperature changes
- 2x insulation value - Blankets like a "Radiant Foil"
- 1/2 the weight of wood - keeps fuel costs down
- Longer life and better resale value
- Quieter RV - absorbs sound waves

Aluminum Framing All Openings

Windows; No caulking required, saves time and up to \$100s annually! Best structural integrity in its class.

Best in Industry Pass-Through Storage

Oversized, clean finish: Slam Latch Baggage Handle, 3/4" Stab Jack Drill Bit, Motion Sensor Light, and Aluminum Bed base!

PVC Membrane - Fully Walkable Roof

16" On-Center trusses featuring 3/8" decking, R14 Residential Blanket Insulation, finished with Best in Class PVC Roof Membrane.

1. No treatments required - Ever! Save time every 6-12 months & up to \$100s annually.
2. 15 Year Warranty, 100% coverage.
3. 2x the puncture strength & 20% more tear resistance
4. Will not chalk, streak, or spot.
5. Extraordinary reflectivity keeping your trailer cooler

SERVICE MANAGER, REPEAT BUYER

I have been the Parts/Service manager at a Forest River dealer for 16 years and counting. When I wanted my first RV I had the choice to order any brand and model that I wanted, I chose Surveyor. Now after my 2nd new Surveyor I am still highly pleased. The Surveyor brand RV's are well thought out and I love the quality of work that goes into them inside and out. I will always be a dedicated Surveyor customer. I know the RV industry well from my years in service and I highly recommend the Surveyor brand above all others.

Rick Winfrey

IT'S A FAMILY AFFAIR! REPEAT BUYERS

I work in the RV Business and live in the heart of it all. It was time for us to get a camper, so in 2019 my wife and I purchased a Surveyor. My in-laws have owned a Surveyor bunkhouse since 2014, and with the kids grown, they wanted a couple's trailer. The timing was right so we bought their Surveyor (now our 2nd), and they again chose to buy a New Surveyor 2020 (their 2nd one). Then we gave our Surveyor to my dad! We are a sight to see when we camp together! All of us love our Surveyor's and would happily purchase another.

QUALITY PDI TESTING EVERY DAY!

PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product.
This state-of-the-art facility gives immediate daily feedback to production for quality
assurance in every unit built.

GVWR (Gross Vehicle Weight Rating) - is the maximum
permissible weight of the unit when fully loaded. It includes all weights,
inclusive of all fluids, cargo, optional equipment and accessories. For
safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible
weight, including cargo, fluids, optional equipment and accessories that
can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight) * - is the typical weight of the
unit as manufactured at the factory. It includes all weight at the unit's
axle(s) and tongue or pin and LP Gas. The UVW does not include cargo,

fresh potable water, additional optional equipment or dealer installed
accessories.

*Estimated average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight
available for fresh potable water, cargo, additional optional equipment
and accessories. CCC is equal to GVWR minus UVW. Available CCC should
accommodate fresh potable water (8.3 lbs per gallon). Before filling
the fresh water tank, empty the black and gray tanks to provide for
more cargo capacity.

** Estimated average based on standard build optional equipment

Each Forest River RV is weighed at the manufacturing facility prior to
shipping. A label identifying the unloaded vehicle weight of the actual
unit and the cargo carrying capacity is applied to every Forest River RV
prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by
volume, so you cannot necessarily use all available space when
loading your unit.

All information contained in this brochure is believed to be accurate
at the time of publication. However, during the model year, it may be
necessary to make revisions and Forest River, Inc., reserves the right
to make all such changes without notice, including prices, colors,
materials, equipment and specifications as well as the addition
of new models and the discontinuance of models shown in this
brochure. Therefore, please consult with your Forest River, Inc., dealer
and confirm the existence of any materials, design or specifications
that are material to your purchase decision. Litho. U.S.A. FOR 1784
