

TWILIGHT

SIGNATURE

TWILIGHT

Twilight™ Signature, a luxury ultra-lite travel trailer, was designed around customers who are mindful of weight and size, but demand sophistication and high-end amenities. After surveying consumers about how they camp, where they camp, and what features are most important, we have crafted the Twilight™ Signature. We use top grade materials like tongue & groove plywood flooring, Azdel composite fiberglass and our welded aluminum superstructure combined with proven construction methods to increase the life of our travel trailers. In addition, each Twilight™ Signature features Goodyear tires and our Rain-A-Way, barreled walkable roof. As you explore the Twilight™ series, pay close attention to the finer details we've included to make your travels comfortable and safe. At the end of the day, quality and customer satisfaction is what matters most. Because we care, 100% of our Twilight™ Signature travel trailers undergo extensive quality control measures to ensure durability and longevity. Having confidence in knowing that you have chosen the best, is the Twilight™ Signature standard.

S I G N A T U R E

TWILIGHT

When touring any Twilight™ Signature interiors, pay attention to the finer details from the King Size Serta Comfort mattress inclusive with USB charging stations in the neighboring nightstands, to our solid surface kitchen countertops. We have even upgraded to black-out roller shades to allow for private time, when needed. Furthermore, our residential tri-fold sofa provides luxury comfort.

- Porcelain Toilet
- Large LED TV
- Bluetooth Stereo System

When designing the Twilight™ Signature, the goal was to provide exceptional quality and consumer friendly features. We started with a tire name you can trust, Goodyear. We then created the Whole RV Comfort package that provides extended season capabilities with an enclosed underbelly and forced heat to the holding tanks. The Twilight™ Signature series comes standard with a 15,000 BTU A/C and is the industry's first ultra-lite travel trailer with a built in heat pump featuring a digital thermostat. We round out this RV with a dual ducted A/C system engineered for quicker cooling during the summer heat.

TWS-21RB

Dedication to Quality Assurance and Continuous Improvement

Every Twilight™ Signature Series travel trailer goes through an initial quality inspection during each manufacturing phase. After completion of the trailer, it is delivered to our dedicated Pre-Delivery Inspection (PDI) Center, where it is meticulously taken through a detailed checklist. First, each unit is placed into a rain bay to ensure all window seals are airtight and there are no water leaks. After the rain bay tests, our certified technicians check every chassis, slide out, seal, gas, water, and electrical systems, appliances, and all interior and exterior elements. Once this process is completed, we clean each unit from top to bottom, inside and out to make sure we are delivering the best product to our dealers and customers.

1. Structural I-Beam Frame
2. Rack & Pinion Slide-Outs
3. Aluminum Superstructure
4. Azdel Laminated Walls
