RP190 Bath/Lavatory

Optional Exterior Sliding/Removable Kitchen

R•pod is celebrating it's 10th anniversary and we want you to be a part of the adventure. Sure, r•pod is affordable and has the lowest tow weight in its class, but you'll also love it's unique shape and construction. This fun pod comes standard with a 3.7 cu. ft. 3-way refrigerator to hold enough for those extended adventures. The interior has residential cabinetry, hardwood drawers and expandable cargo netting to stow movies or games when the elements keep you inside. After a fun-filled day of exploring, enjoy the convenience of the optional, removable outdoor kitchen under the LED lighted awning.

BEST TOW IN CLASS

- TORSION AXLE W/ INDEPENDENT SUSPENSION
- 15" NITROGEN-FILLED RADIAL TIRES
- SELF-ADJUSTING ELECTRIC BRAKES

Optional Powered Thule Awning with LED Light

***Add 4" for Hood River Edition

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

** Estimated average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision. 1/19
