XLE LITE

by Palomino

Puma XLE Lite leads the industry with a broad selection of well-planned floorplans. Construction features include solid I-beam frames, one-piece 5/8" floor decking, one-piece rubber roofs and large fresh water tanks. Our tried and true, rack and pinion flush-floor slide system with superior sealing, is the most reliable on the market today. This system includes manual override. The available optional power awning features LED strip lighting. Molded ABS fender skirts and spoked rims add sleek styling! Interiors include durable Beauflor in woodgrain and efficient LED lighting throughout. Customize your camping experience even more with packages and options designed to maximize comfort and convenience!

This **27RBQC's** large, 84" U-dinette converts to additional sleeping accommodations. The sofa features a flip-down drink/storage tray and has a handy storage area below. The windows open to let in fresh air and plenty of natural light.

27RBQC's L-galley is loaded with storage and convenience features, including a built-in spice rack, a high-rise faucet and a large 50/50 sink. Turn up the tunes and jam with the CD/DVD/Bluetooth stereo. Shown with an optional microwave oven and 39" TV.

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

**Estimated average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision. ©2017 Puma by Palomino a Division of Forest River, Inc., a Berkshire Hathaway company.
