

## ♥ BLUE HAVEN STRONG ♥

### From the Volunteer Activity Committee:

As everyone knows, the Blue Haven Team has been working like crazy to get us back to normal. This weekend was supposed to be the annual softball tournament to raise money for our local Fire Department. With all the work being done and heavy equipment that is in and out of the park, **we are canceling all committee events.** Everything will be on a day to day basis. Which means check the board and Facebook for new updates, as we will post there if something will be happening before the next newsletter. With that being said, the committee would like to still have our BBQ of hamburgers, cheeseburgers, Michigans, hotdogs. We will also have salads, (pasta and macaroni), and French Fries cooked by the Fire Department. All food will be on a donation basis. As we are not setting a price for anything. We will also be running the Chinese auction during this time. The BBQ will be from 12-2. Please come fill your belly's and support the fire department. On behalf of the Committee we want to thank everyone for your help.

Respectfully, Cindy Smith

## HELP US HELP YOU!

With all of the damage that we have had, there is bound to be some hiccups as we move forward. Here is a list of some relatively simple things that you can try yourself before notifying us in the office:

- **NO POWER** - in the event that you have no power. Some campers have been unplugged and some breakers turned off to some trailers. Please check the following:
  - Make sure your camper is plugged in firmly and even try to unplug it and plug it back in
  - If you have a breaker at the box where you plug in (not all sites do), make sure that it is turned ON.
  - Make sure that your power cord is still secure where it goes into your camper. If it is a removable cord, unplug it and plug it back in and tighten the locking ring
  - Check the breakers inside your camper—if you are unsure, turn them ALL off, and then turn on the MAIN one first, followed by each of the smaller ones
- **NO WATER** - In the event that you are not getting any water into your camper, in an area where you believe you should have water, please check the following:
  - Start at the spigot where you connect to out water system and unhook your hose. Then try turning the water on at the spigot. If you have do not have water at the spigot, you have no water, but if you do have water at the spigot, continue as follows:
  - Reconnect your hose to the spigot, but before you turn you're the spigot back on, disconnect your hose from the camper and then run the water through the hose.
  - While that is flushing out, MOST (not all) campers have a screen where the water connects to the camper - check this for any debris and if necessary, remove it and rinse it off.
  - Now reconnect the hose to your camper. and go inside. If still no water at your faucets, you may need to remove and clean the aerators.
  - Some toilets also have valves in them that may get clogged up. Most residential toilets can be cleaned, but not RV toilets. It may have to be removed and replaced.
- **NO SEPTIC** - Please inspect your septic lines for damage as well. In the event that yours are damaged or missing, PLEASE refrain from using it until repaired. Most campers have holding tanks that could last you a while.

## TRASH - PLEASE HELP US HELP YOU:

- **RESCUED ITEMS** - If you have "saved" something that you found among the debris that is still good, keep these items back away from the edge of the road so that our crews do not pick these items up thinking that it is trash.
- **HOUSEHOLD TRASH** - please bring this to one of the following dumpsters:
  - Southside - will have ONE of our usual dumpsters in the normal location
  - Northside - will have ONE of our usual dumpster located by the Lawnmower Shop
- **NON-METAL FLOOD DEBRIS**
  - If you are able, please place what you can in the open top container that will soon be at the South Side dumpster area.
  - We will also have our crews going around the park collecting NON METAL FLOOD DEBRIS.
- **METAL FLOOD DEBRIS** - (PLEASE separate the metal from other debris for easier pickup)
  - If you are able, please place what you can in the designated area that will soon be at the South Side dumpster area.
  - We will also have our crews going around the park collecting METAL.

**Wildlife:** Do not keep household garbage at your site even if it is in a covered can it will still attract unwanted visitors. We have had a lot of concerns with the number of skunks and raccoons around. Your cooperation is appreciated.
