CAMPING TRAILERS

Camping Made Easy

VIKING Easy Does It

Easy to Set Up, Use and Store

Viking's innovative, user-friendly system increases leisure time. Set up in five minutes and let the good times roll!

The easy-to-use Canimex dual drive/dual purpose winch and drill bit, combined with a cordless drill, raises and lowers the roof in under 30 seconds. A manual override is provided.

The four heavy duty scissor-style stabilizing jacks extend and retract easily using a cordless drill and the Canimex drill bit.

This exclusive "Glide-N-Lock" cable supported bed system eliminates the need for support poles under the beds. Simply pull out the beds until they lock into place and install the tension rafter.

X-Cable technology adds additional stability to the roof and prevents over cranking of the roof.

There's no need to crawl across the beds to install the tension rafters. Viking's exclusive two-piece tension rafter is another example of how Viking makes camping easier.

More Viking Exclusive Features

Four Layer Insulated Roof Braced for Air Conditioning.

A. One Piece Seamless Fiberglass Skin

B. Luan Plywood Underlayment

No one else includes the extra wood layer between the top skin and internal foam that provides stiffness and reduces the probability of damage due to hail, road debris, etc.

C. Foam Insulated Roof Structure

D. Vinyl Coated Ceiling

Easy to clean and minimizes interior condensation

- Roof vent is placed off to the side so the A/C can be center-mounted without having to remove the vent. This design allows you to have both the vent and A/C.

Wide Trac Suspension

Better safety and stability on the road.

- Widest stance of any folding camper
- Improves towing safety and stability
- Stronger axle beams than most competitors
- Steel frame with powdercoat protection

Dexter®
E-Z Lube®
Axles

The E-Z Swing Stepper Door with hydraulic assist, operates in seconds and provides the largest, most stable step platform in the industry.

Viking's one piece entry door has an extra large adjustable privacy panel to let in fresh air and sunlight.

Viking's exclusive J-Track door latch maximizes stability by eliminating the flimsy nylon turn buttons traditionally used in securing the door to the roof.

Roof Side Z-Rail Channels water away.

1. Roof's Outside Skin
2. Body's Outside Skin
3. Water tight Seal
4. Z-Rail channels water away from wood

- Z-Rails on roof perimeter and sidewalls keep wood above water level collection points.
- Others use U channel where wood and water can come in contact at the bottom of the channel.
- Channels are kept open to allow water to run out like a gutter.
- Others attempt to seal channels to keep water out; when the seal is compromised, water will collect and cannot escape.

Viking's Super Sliding Storage box enables full, easy accessibility even when the camper is set up. (Standard on Legend, Optional on V1 and V2).

COLD OUTSIDE AIR

Viking standard heated mattress

1-1/4" Laminated Insulated Bunkends

- Two times thicker than others
- Solid wood, steel reinforced frame, with 1" thick high density foam, and laminated wood panels top and bottom
- More stable bed end vs. chipboard or spliced plywood
- Insulation improves comfort and warmth

COLD OUTSIDE AIR

Competition

Our Easy Set
Up Video Here

Viking's one-piece, 5/8" floor structure is stronger than the industry's standard 1/2". Automotive undercoating protects from the elements. Congoleum residential grade Diamondflor with 100% adhesion adds beauty and durability indoors.

E-Z Roll, lined privacy drapes

X Cable technology stabilizes the roof and prevents overcranking

2485SST

Higher density foam enhances comfort and durability

Retractable clothes bar (Standard on Legend, V-Trec and Hardside models)

Powerful Fantastic power roof vent moves air like no other.

Jensen AM/FM/Bluetooth stereo with App control includes Interior/Exterior speakers (Standard on Legend, V-Trec and Hardside models)

Exterior grill (N/A on LS series)

The Goshen Stamping double-wide lift arm system offers strength, stability and increased wind resistance. (Limited lifetime warranty)

LED bunk end fan lights (N/A Hardside models)

The E-Z one-hand swing level galley gets you cookin' in no time! (Legend and V-Trec models)

Long-lasting LED lighting brightens the interior

12RBST HW

Easy To Enjoy!

Experience a comfortable night's sleep with a Serta memory foam mattress.

The Create a Breeze fan circulates five times more air than a conventional 12 volt fan.

The Dometic Cool Cat 10,150 BTU heat pump is standard on Viking hardside camping trailers.

Microwave with storage

Double 20# LP Tanks with cover

Viking hardside camping trailers provide more exterior storage space than any other model in its class. This extra large front storage deck has a removable, fully enclosed ABS box.

Interactive Mobile Manuals

Download our Forest River mobile app or visit our dynamic online manual to enhance your ownership experience. These interactive options provide incredible ease and insight into use, maintenance and enjoyment of your Forest River product. Ranging from "How-To" videos, pictures and illustrations of various components, systems and features, to fully searchable content and downloadable PDFs for individual component owner's manuals, answers are always just a click away. View the online manual at www.forestriverinc.com/ownersmanuals, or download our FREE app from the App Store or Google Play!

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)** - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

**Estimated average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.
