BUILDING A LEGACY

When Cole Davis founded Keystone RV in 1996 his vision was clear: Build a quality RV loaded with features priced thousands less than other RVs on the market. To accomplish his goal, Cole built a strong team, focused on keeping overhead low, and empowered employees closest to the customer to make decisions. Within a few short months after opening the doors, Keystone produced its very first camper. Delivering big on quality, features and value, the public fell in love and a star was born.

As customers appetite skyrocketed, new Keystone models were added to satisfy growing customer demand. Along with this tremendous growth came the need for expanded production. To meet this need, more manufacturing plants were built and staffed. By the beginning of 2000, Keystone was leading the industry in fifth wheel and travel trailer sales. Today, Keystone RV Company has grown to encompass over 1 million square feet of manufacturing space with facilities in Goshen, Indiana and Pendleton, Oregon. While Keystone is no longer the small "start up" we once were, our mission has remained true to Cole's vision—"Do the job right and make sure we deliver a quality product every time."

BULLET

FROM THE BEGINNING, THE VISION HAS BEEN SIMPLE: PROVIDE CUSTOMERS AN ULTRA LITE TRAVEL TRAILER WITH UNSURPASSED QUALITY AND VALUE.

In 2009, this became reality with the Keystone Bullet. After extensive market research, rigorous product development and design the first Bullet Ultra Lite was constructed. In a few short years, Bullet Ultra Lite grew from its humble beginnings to become the #1 ultra lite travel trailer in North America.

Shortly thereafter, Keystone RV launched Premier - the industry's first luxury ultra lite. Staying true to its roots, Premier took the ultra lite segment to the next level. Still unrivaled today, Premier provides more luxury features than any other ultra lite. Bullet's innovation continued in 2015 with the launch of Bullet Crossfire, and again in 2017 with the Colt by Bullet. **Today, the vision remains the same.**

**SAVE MONEY
ON FUEL**

Our lightweight floor plans are 1000-1500 lbs. lighter than comparable competitor's trailers.

**RADIUS FRONT PROFILE
VS. COMPETITION**

The radius front profile of the Bullet travel trailer gives the optimal contour to reduce wind resistance when traveling down the road.
