MOMENTUM

A PERFECT STORM OF LUXURY AND FUNCTIONALITY

Momentum and Momentum M-Class Toy Haulers are where absolute luxury meets mobile garage! The Toy Hauler bar has been raised with our innovative designs, quality construction, and luxurious appointments throughout. We know you will agree with us when we say that "Momentum is the place to live well and play hard!"

VOTED #1 TOY HAULER

RV owners have voted Grand Design Toy Haulers as Trailer Life Readers' Choice Gold Award Winners.

BACKED TO A SUPERIOR STANDARD

Every Grand Design RV is backed with a class leading 3-year limited structural warranty. By selecting suppliers with similar philosophies, many components used on our coaches also carry an extended warranty through the component manufacturer.

- ▶ **FLOOR DECKING** (25 Years)
- ▶ **AXLES** (5 Years)
- ▶ **TIRE WARRANTY**
(5 Years w/12 Month no questions asked replacement for manufacturer's defects)
- ▶ **EXTERIOR GRAPHICS** (5 Years)
- ▶ **ROOF COVERING** (12 Years)
- ▶ **CHASSIS** (3 Years)

MOMENTUM[®]

G-CLASS

EXTRAORDINARY LIVING. EXTREME PLAY.

The public has spoken, and Grand Design has answered with the introduction of the all new Momentum G-Class to its toy hauler lineup. The lighter G-Class series is built without surrendering any of the legendary quality, innovation and functionality that our family of Momentum owners have come to love. Ceiling and slide out heights still stand tall along with our wide-body platform to create a spacious feel.

**Crank it up with the G-Class
Rockford Fosgate speaker package!**

STANDARD PACKAGE

Interior/Exterior Speakers
10" Subwoofer
300+ watts of Power!

WANT EVEN MORE POWER?

G-Class Fifth Wheels have an Optional Upgrade Speaker Package that includes upgraded interior and exterior speakers, and an additional 10" subwoofer for a total of 2 subwoofers and 700+ watts of power!

TRAVEL TRAILERS

FIFTH WHEELS

CONSTRUCTED TO A SUPERIOR STANDARD

1 THERMAL ROOF DESIGN (R-40)*

Fiberglass insulation and a layer of radiant foil insulation cover the entire layout of the roof. Grand Design goes further by extending both insulation layers the full length of the roof and around to the bottom of the front cap and pinbox area.

2 FULLY LAMINATED WALLS (R-11)*

Sidewalls, ramp door, slideroom endwalls, and slideroom roof are all welded aluminum framed and laminated with rigid foam insulation. Most companies use wood framing and soft fiberglass insulation in the sliderooms that can settle over time and leave uninsulated air gaps.

The G-Class Travel Trailer Features Fully Laminated Walls Rated at R-7*

3 TRIPLE INSULATED MAIN FLOOR (R-40)*

The underbelly is lined with a radiant foil insulation barrier (Layer 1) and is then covered with fiberglass insulation that wraps all the way up the sides of the frame rails (Layer 2). The main floor enhances the R-Value with yet another layer of foil (Layer 3).

Slideroom Floors are R-24*

Fiberglass insulation layered below the floor on Travel Trailers

4 TRIPLE INSULATED GARAGE FLOOR

While many toy hauler garage floors are NOT insulated, our exclusive garage floor design provides 3 layers of insulation. A base layer of radiant foil insulation (Layer 1) is topped with fiberglass insulation (Layer 2), and finishes with a second layer of radiant foil insulation on the underside of the garage floor (Layer 3). (FW only)

5 INSULATED BAGGAGE DOORS

Rigid foam insulation lines the inside of our heavy duty baggage doors.

6 VENTED ATTIC

To maximize the effectiveness of the roof insulation, a vented attic allows condensation to escape the roof structure.

7 INSULATED GOOSENECK

Radiant foil insulation under the gooseneck is a place often forgotten by most manufacturers. (FW only)

UP TO 40,000 BTU OF HEATING POWER

A high performance furnace (and a fireplace on fifth wheels) deliver the heat.

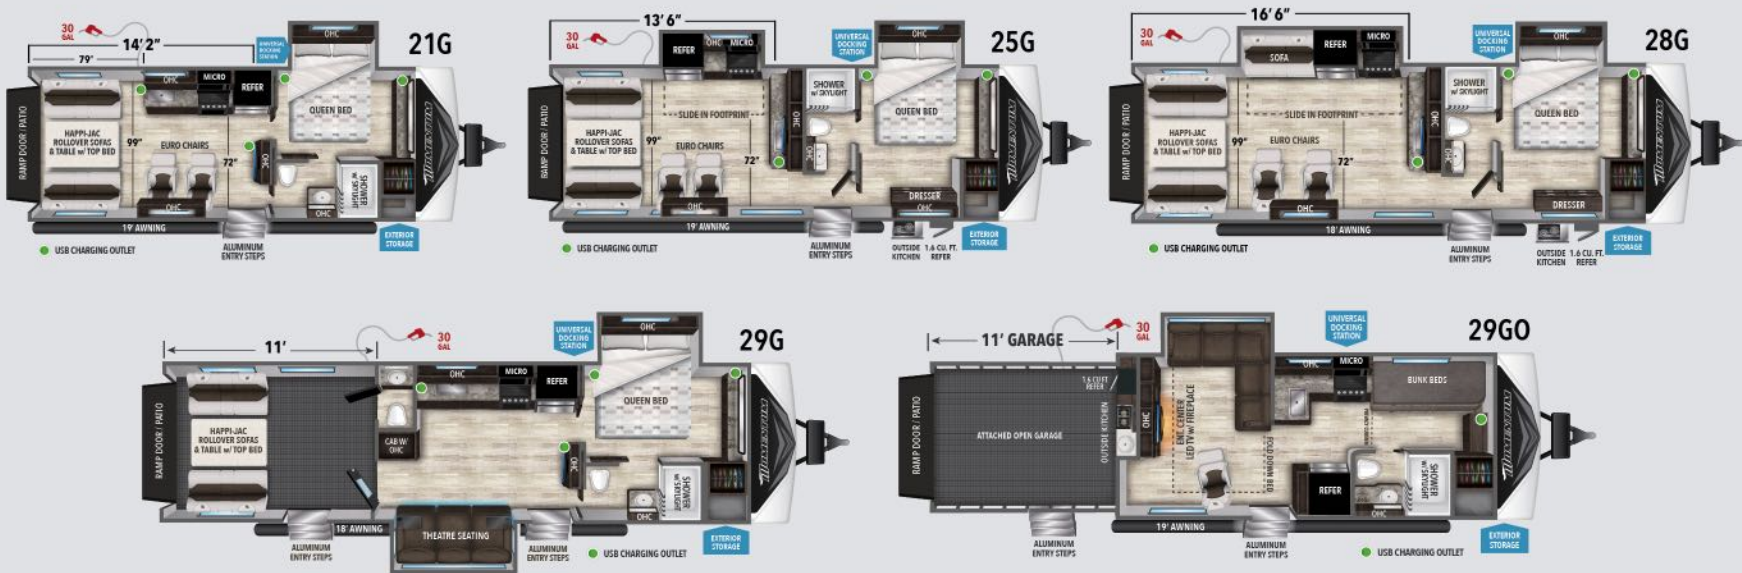

EVENFLOW HEATING SYSTEM

Vertically mounted heat vents integrated into the cabinet bases, push hot air from front to back (rather than straight up). This also means that there are no heat vents in the middle of the floor to collect dirt and debris and break easily.

HEATED UNDERBELLY & STORAGE BAY

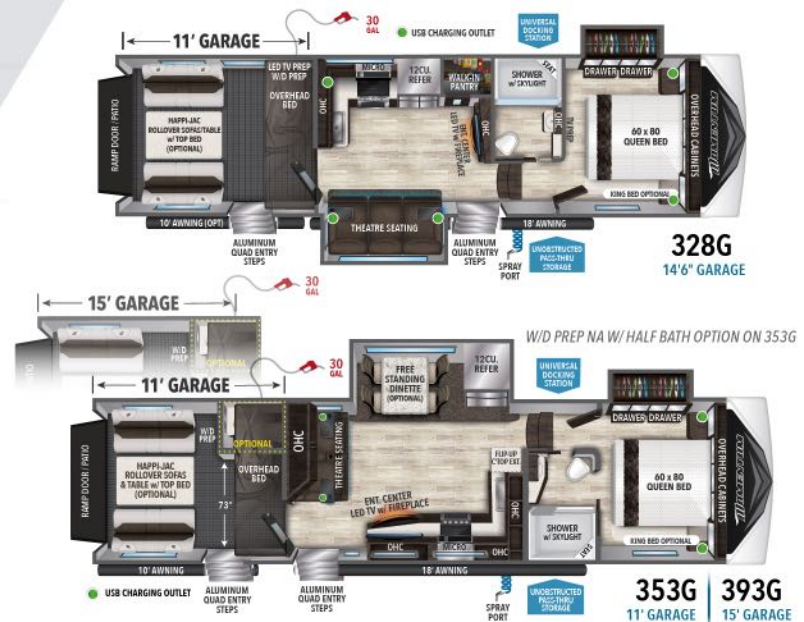

To force heat into these compartments, dedicated heat ducts run to both the underbelly and storage bay. The enclosed utility center with low point drains (FW only) provides functional water systems even in extreme cold.

Oakley Decor Option

THOMAS PAYNE
COLLECTION

Reclining sofa seating from the Thomas Payne Collection features removable swivel tables, LED lighted cup holders with touch button controls for the heat and massaging functions and USB charger ports. There are even LED light strips underneath the sofa that provide a soothing glow. (395M Shown)

MOMENTUM[®]

DESIGNED FROM THE GROUND UP TO BE THE BEST TOY HAULER ON THE MARKET!

SOLAR DONE RIGHT.

Every Momentum Comes Prepped for Solar

The 10 gauge wiring is already in place with industry standard MC4 connectors throughout to ensure maximum compatibility.

Add on the "Momentum Solar System"

Now you can have a complete solar power system installed from the factory. This optional package includes:

MORryde CRE3000 SUSPENSION SYSTEM

When it comes to suspension performance, it's all about suspension travel. Increased travel means smoother towing, improved towability and better protection from damaging road shock.

MORryde THE RUBBER PIN BOX

The MORryde pin box system utilizes a unique rubber shear spring to positively deal with rough towing and road shock.

(Big Momentum Only)

Rest well in the spacious master suite with your choice of a king or queen size bed and plenty of storage space.

Most Models

Indulge yourself with the chef inspired range and oven, kitchen barstools and extended countertops.

398M Shown

Happi-Jac electric bunk system with folding sofas provides maximum headroom in the garage area.

CONSTRUCTED TO A SUPERIOR STANDARD

MOMENTUM

MOMENTUM
M-CLASS

MAXIMUM INSULATION

1 THERMAL ROOF DESIGN (R-40)*

Fiberglass insulation and a layer of radiant foil insulation cover the roof. Grand Design goes further by extending both insulation layers the full length of the roof and around to the bottom of the front cap and pinbox area.

EXCLUSIVE COMBINATION!

2 FULLY LAMINATED WALLS (R-11)*

Sidewalls, ramp door, slideroom endwalls, and slideroom roof are all welded aluminum framed and laminated with rigid foam insulation. Many others use wood framing and soft fiberglass insulation in the sliderooms that can settle over time and leave uninsulated air gaps.

EXCLUSIVE!

3 TRIPLE INSULATED MAIN FLOOR (R-45)*

The underbelly is lined with a radiant foil insulation barrier (Layer 1) and is then covered with fiberglass insulation that wraps all the way up the sides of the frame rails (Layer 2). The main floor enhances the R-Value with yet another layer of fiberglass insulation (Layer 3).

EXCLUSIVE!

4 TRIPLE INSULATED GARAGE FLOOR (R-40)*

While many toy hauler garage floors are NOT insulated, our exclusive garage floor design provides 3 layers of insulation. A base layer of radiant foil insulation (Layer 1) is topped with fiberglass insulation (Layer 2), and finishes with a second layer of radiant foil insulation on the underside of the garage floor (Layer 3).

5 1.5" INSULATED BAGGAGE DOORS

Rigid foam insulation lines the inside of our heavy duty baggage doors.

6 VENTED ATTIC

To maximize the effectiveness of the roof insulation, a vented attic allows condensation to escape the roof structure.

7 INSULATED GOOSENECK

Radiant foil insulation under the gooseneck is a place often forgotten by others.

EXCLUSIVE!

8 RAIL-TITE UNDERBELLY SEAL

Rigid aluminum rails are fastened around the perimeter of the underbelly to keep the corrugated barrier up tight against the frame for a better seal from the elements.

Momentum's design has been put to the test in extreme temperatures ranging from ZERO to 110+ degrees. Third party testing showed that the Momentum remained fully functional and retained comfortable temperatures.

MAXIMUM FUNCTION

40,000 BTU OF HEATING POWER

A high performance furnace and fireplace combine to deliver the heat.

EVENFLOW HEATING SYSTEM

Vertically mounted heat vents integrated into the cabinet bases, push hot air from front to back (rather than straight up). This also means that there are **no heat vents in the middle of the floor** to collect dirt and debris and that can be broken easily.

HEATED UNDERBELLY & STORAGE BAY

To force heat into these compartments, dedicated heat ducts run to both the underbelly and storage bay. 12-volt heat pads on each holding tank and the enclosed utility center with low point drains provides functional water systems even in extreme cold.

*Equivalent R-Value

STEALTH 3+

SMART A/C SYSTEM

AIRTITE CONNECTORS

All duct pieces are securely fastened together using special connector brackets.

RACETRACK DUCTING True Racetrack Ducting extends past each AC unit to allow for uninterrupted airflow from the front to the back of the coach.

RUN ALL 3 ACS AT THE SAME TIME!

(NA G-Class TT)

AUTO GENERATOR START

Generator starts automatically when your batteries get low

CELLULAR CONNECTIVITY

Allows you to control your rig even when you are miles away

ONEControl™ is a touchscreen panel that allows you to operate and monitor many of the Momentum's functions. Go wireless by downloading the FREE OneControl App on your mobile devices.

Momentum M-Class 381M

SUPERCHASSIS

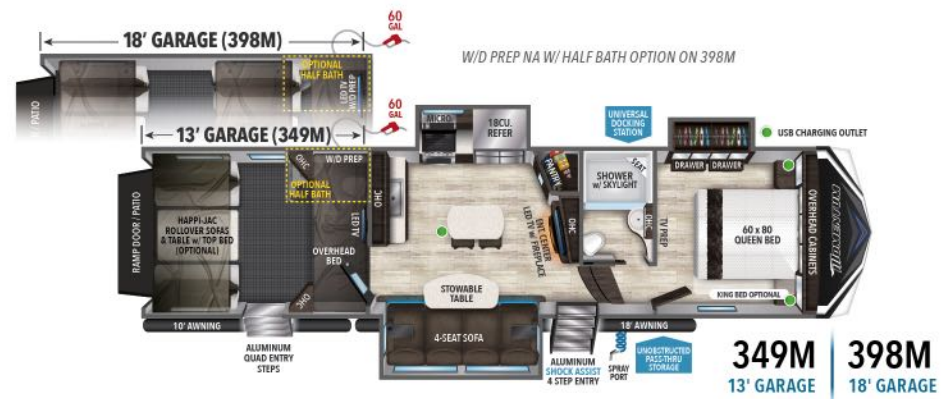

EXCLUSIVE!

101" Wide Body Chassis - Maximum garage space, deeper sliderooms, more livable floor space and space saving pocket doors into the bathrooms.

Wide Rail Design - By locating the heavy duty 12" I-beam main rails further outward, more of the floor assembly/unit structure sits on the heart of the chassis instead of the outriggers. Wider rails also create a more stable jack stance, and allows for the slideroom gear mechanisms to be enclosed inside the frame rails (rather than outside). This solid design means that the garage area of every Momentum is rated for full GVWR capacity.

12" Straight Rail (Not 10" like many competitors)

BIG MOMENTUM FIFTH WHEELS

WE STRIVE FOR NOTHING LESS THAN CUSTOMERS FOR LIFE!

Thank you for taking the time to tour our coach.

We would like to share what sets Grand Design RV apart from all other RV manufacturers and why this difference is important to you.

My close friends and I were part of an ownership team at a travel trailer, fifth wheel company that grew to become one of the largest RV manufacturers in the world. While proud of this accomplishment, it became difficult to stay in touch with customers, employees, and ultimately the quality of the final product. It became obvious, there was a better way.

In 2012 we started with a mission to build a better RV company. A company with a culture that desires a long-term, personal connection with customers, employees and dealers – that company became Grand Design RV. Our business model of doing the right thing has led us to many years of unparalleled growth.

At Grand Design we are customer centered and everything we do daily revolves around you. Our goal is simple – continue to lead the industry with quality, innovative products while striving to improve our customers' RV experience before, during and after their purchase. We strive for nothing less than customers for life and I would be honored to personally welcome you to the Grand Design family.

Warmest Regards,

President / CEO / Co-Founder

LONG TERM VALUE

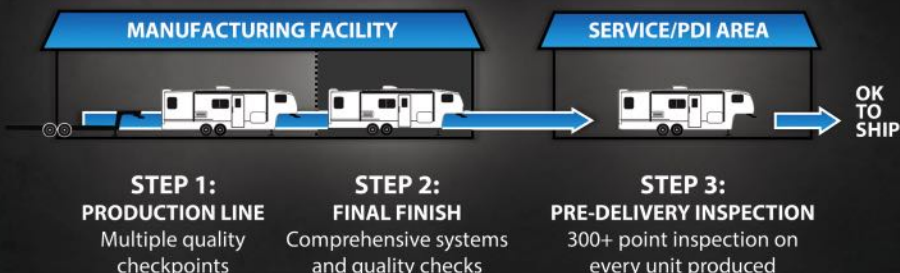

Everything we do at our company is designed to build long-term value in what we offer our customers, "More features and superior value for your dollar."

CUSTOMER CENTERED

Our focus, from the very first day we opened our doors, revolves around our customers. Your satisfaction is our future. GDRV4Life!

RAISING THE QUALITY BAR

We put every Grand Design RV through a series of quality inspection gates during the manufacturing process. Once completed, the unit undergoes a comprehensive "final finish" inspection. At this point, most manufacturers ship their coaches to the dealer for retail sale. We aren't most manufacturers. Every one of our coaches is moved to a PDI (Pre-Delivery Inspection) area where they are put through a rigorous 300+ point inspection checklist. It is only after this PDI that we certify a unit ready to ship to our dealers.

SUPERIOR SERVICE

Anything built by humans that travels down the open road is subject to issues. It's how those issues are addressed that makes Grand Design so special to our owners. Visit the independent owners page on Facebook (Grand Design RV Owners) and see for yourself. We take care of our customers after the sale. An informed customer will be a Grand Design customer!

CLASS LEADING WARRANTY

We back every one of our coaches with a 3-year limited structural warranty.

Grand Design RV was created in 2012 and founded by current CEO, Don Clark and brothers Ron and Bill Fenech (Representing over 80 combined years of experience in the RV Industry).
