TRACER
A HIGHER STANDARD

Tracer 24RKS

Tracer 24RKS

You'll notice the difference as soon as you walk into a Tracer. The combination of timeless-classic designs with modern touches and an abundance of technology make Tracer one of kind. Every room is designed with you in mind – from the kitchen with solid surface countertops and a low profile range hood, to the bathroom with a skylight in the shower, and the master bedrooms that feature residential sized beds.

Length: 34' 10" • Height: 10' 7" • Hitch Weight: 774 lb.
 Unloaded Vehicle Weight (UVW): 6,648 lb. • Cargo Carrying Capacity (CCC): 1,126 lb.

TRACER FLOORPLANS AND SPECIFICATIONS

UVW (Unloaded Vehicle Weight) is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories. Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity) is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity. Estimated average based on standard build optional equipment.

A RENEWED COMMITMENT TO QUALITY.

When it comes to choosing an RV, customers demand quality. At Prime Time Manufacturing, we have renewed our commitment to product quality and customer satisfaction with our new **Customer Assurance Inspection (CAI)** process.

Before any RV can be cleared to leave our site, it must first pass a newly-developed, **rigorous 125-point checklist**. Our skilled technicians review every model from top to bottom, both inside and out. We check and double-check the entire unit, from water tanks to the electrical system, roof to underbelly, kitchen appliances and countertops—and everything in-between.

When you choose a Prime Time Manufacturing product, you can be assured that our enhanced commitment to quality has been developed with you in mind. **Choose quality. Choose Prime Time Manufacturing.**

ADDITIONAL SPECIFICATIONS:

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.

Download the Prime Time Manufacturing mobile app or visit our dynamic online manual to enhance your ownership experience. These interactive options provide incredible ease and insight into use, maintenance and enjoyment of your Prime Time Manufacturing product. From "How-To" videos, pictures and illustrations of various components, systems and features, to fully searchable content and downloadable PDFs for individual component owner's manuals, answers are always just a click away.

View the online manual at <http://www.primetimerv.com/OnlineManual.aspx> or download our FREE app from the App Store or Google Play!
