

ATC
OPEN CAR HAULERS™

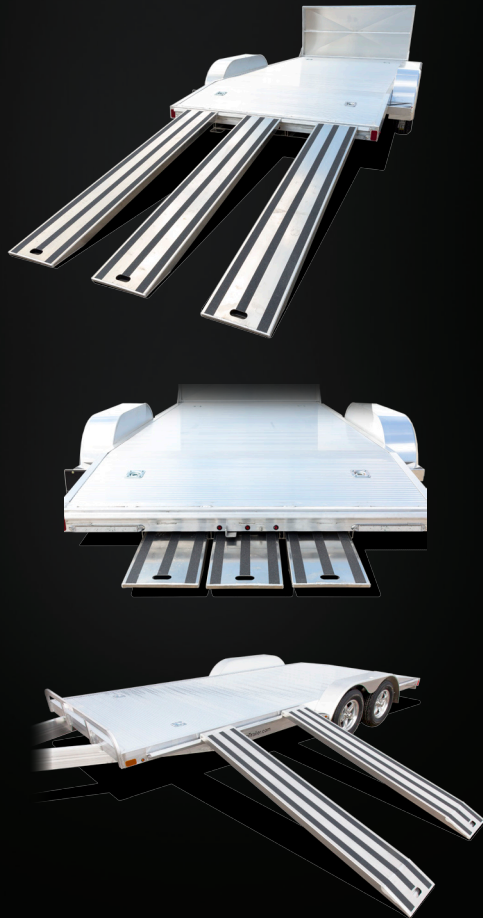

OPEN CAR HAULERS

The ATC Open Car Hauler was designed to haul your car, but it can be used for more than that. Ramps and tie downs can be placed anywhere, allowing many options for a wide variety of cargo.

CUSTOM RAMP PLACEMENT

With the perimeter rail, ramps can be placed anywhere on the side and rear of the trailer, allowing toys like motorcycles, ATV's and UTV's to be side loaded. Three-wheeler owners can also purchase an additional third ramp. All ramps can be stored in an easy to use compartment under the trailer.

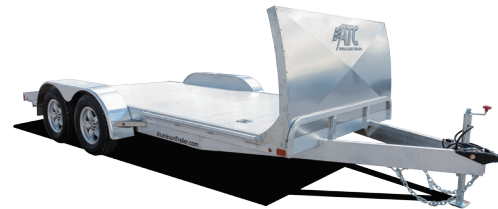

CUSTOM OPTIONS

SPARE TIRE

A spare tire for your trailer can be mounted on the tongue.

AIR DAM/ GRAVEL GUARD

Protect your car from loose debris on the highway while maximizing deck space for your car and other cargo.

DETACHABLE WINCH PLATFORM

Maximize space for your car and other cargo by keeping your easily removable winch off the deck.

TIRE RACK

The 2" x 2" tubal aluminum frame securely holds a full rack of race tires. A tire rack clamp for a partial tire load is included in rack purchase.
