CHAPARRAL

CHAPARRAL *Lite*

SHOWN W/ OPTIONAL 50" LED HDTV (RV TESTED)

GREATEST VALUE FOR ALL

Chaparral offers three distinct series of 5th wheels catering to most all customer needs, providing a vast range of affordable price points, weights, and lengths. Whether the priority is towing with a 1/2 ton truck, or sleeping a family of ten, Chaparral has nearly every 5th wheel customer need covered.

CHAPARRAL PRODUCT LINE UP

All Chaparral product lines are constructed on the same production line with the same core construction methods and high quality materials. This clear advantage provides consistent reliability, greater R-ratings, and improved towing advantages throughout our entire product range.

- **CHAPARRAL X-LITE**

Features a modern new design inside and out, with the same Weather Shield™ insulation and core composite construction as our Lite and Mid-Profile Series. Now with more bells and whistles than ever before.

- **CHAPARRAL LITE**

Fully featured and offers luxurious three slide floor plans built with a lower profile and weight designed for 1/2 ton and 3/4 ton trucks.

- **CHAPARRAL MID-PROFILE**

Designed with 3/4 ton gas and diesel trucks in mind, combining great towability and lighter weight, with the spaciousness, luxury, and multitude of features typically found in much higher priced fifth wheels.

SHOWN W/ OPTIONAL KING BED

GREATER VALUE, MORE FEATURES, BETTER TOWING, IMPROVED MATERIALS, HIGHER R-VALUES, MORE STORAGE...
EXPLORE THE DIFFERENCE

DIFFERENT FROM THE START

For over 10 years Chaparral has utilized Azdel® composite sidewall panels. Azdel® is impervious to mildew, rot, and mold, providing the added benefit of being 50% lighter than wood, while achieving 3x the insulation value of luan panels commonly used by most other manufacturers.

CHAPARRAL AZDEL® SIDEWALL ADVANTAGES:

- American Made
- 50% Lighter than Luan
- 3X the Insulation Value of Wood (R-11 Sidewall)
- Impervious to Mildew, Rot, and Mold
- Virtually Eliminates Delamination (Void of Moisture)
- Double Welded, Aircraft Grade Aluminum Framed
- 2 lb., Closed Cell Block Foam Insulation (High Density)
- 2-Step HP Lamination Process (Vacuum Bonded)

AZDEL® ROT PROOF PANELS

**BEST IN CLASS TURNING
TURN TEC™ ENGINEERING**

**360° ROTATION, NO CRANK

CHAPARRAL 381RD SHOWN IN FAWN DECOR

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

** Estimated average based on standard build optional equipment. Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.
